"Look out, Junie B.  
Jones! Ellie the

engineer is thinking,  
making, creating, and  
showing enthusiasm  
and brilliance with her  
creations!" -School  
Library Connection A  
charming, hilarious  
illustrated middle  
grade about a girl who  
is an engineer--no, not  
the kind on a train, the  
kind that builds things!  
Perfect creative, STEM-  
powered fun for girls  
who have interests in  
how things work. Ellie  
is an engineer. With a  
tool belt strapped over  
her favorite skirt (who  
says you can't wear a  
dress and have two  
kinds of screwdrivers  
handy, just in case?),  
she invents and builds  
amazing creations in  
her backyard  
workshop. Together  
with her best friend Kit,  
Ellie can make

anything. As Kit's birthday nears, Ellie doesn't know what gift to make until the girls overhear Kit's mom talking about her present--the dog Kit always wanted! Ellie plans to make an amazing doghouse, but her plans grow so elaborate that she has to enlist help from the neighbor boys and crafty girls, even though the two groups don't get along. Will Ellie be able to pull off her biggest project yet, all while keeping a secret from Kit?

Illustrated with Ellie's sketches and plans, and including backmatter with a fun how-to guide to tools, this is a STEM- and friendship-powered story full of fun!

Reese explores the often thin line between magic and reality, light and darkness in her enchanting middle grade standalone.

"Brings to life, viscerally, what it is like to live in fear of abuse—even after the abuse itself is over. But there is magic here too, and the promise of a better future that comes with learning to let people who care about you into your world." —Alan Gratz, New York Times-

bestselling author of *Refugee* "A captivating and touching story... both whimsical and emotionally—sometimes frighteningly—compelling." —Ingrid Law, Newbery Honor-winning author of *Savvy* "Magically creative and deeply honest, *A Game of Fox & Squirrels* merges games and grimness in a fantasy tale that tells the truth." —Elana K. Arnold, Printz Honor-winning author of *Damsel* and *A Boy Called Bat* After an incident shatters their family, eleven-year old Samantha and her older sister Caitlin are sent to live in rural Oregon with an aunt they've never met. Sam wants nothing more than to go back to the way things were... before she

spoke up about their father's anger. When Aunt Vicky gives Sam a mysterious card game called "A Game of Fox & Squirrels," Sam falls in love with the animal characters, especially the charming trickster fox, Ashander. Then one day Ashander shows up in Sam's room and offers her an adventure and a promise: find the Golden Acorn, and Sam can have anything she desires. But the fox is hiding rules that Sam isn't prepared for, and her new home feels more tempting than she'd ever expected. As Sam is swept up in the dangerous quest, the line between magic and reality grows thin. If she makes the wrong move, she'll lose far more than just a game. Perfect for fans of Barbara O'Connor,

Lauren Wolk, and Ali Benjamin, *A Game of Fox & Squirrels* is a stunning, heartbreaking novel about a girl who finds the light in the darkness... and ultimately discovers the true meaning of home.

FUN AND EFFECTIVE SOCCER DRILLS-FROM AN EXPERIENCED

COACH IN THE SPORT Soccer is an exciting sport, but it is even better when your team is playing at its best. The Baffled Parent's Guide to Fix-It Drills for Youth Soccer addresses specific team concerns with energetic drills that will improve your players' skills and help them to properly execute the correct tactics and techniques on the field. Written by an expert, this extensive collection focuses on problem areas and provides practice activities to ensure you get the best from your young players. Robert Koger looks at each of the problems most commonly faced by youth team coaches and prescribes proper drills to get players and teams to be their best and have fun doing it.

With more than 100 drills, you're guaranteed to find practice solutions for situations such as: My players can't get the ball past the other team's defense. I can't get my players to shoot when they are open. My players move all over the field. My team can't stop opposing goals from corner kicks. My team needs help with general skills areas including dribbling, passing, offense, defense, and goal-keeping. Written in an easy-to-follow, clearly outlined format, *The Baffled Parent's Guide to Fix-It Drills for Youth Soccer* is an invaluable teaching tool to have on the field. Don't start coaching without it.

Sometimes it feels as though everybody has an opinion on how you

should bring up your child – and no two people seem to agree on how it should be done for the best! Parenting with Reason cuts through the masses of confusing and often contradictory advice about parenting by providing hard evidence to back up the tough decisions all parents face. Unlike many self-help guides to parenting which are based on the opinion of one author, this book is based on many findings from scientific research, giving you a trustworthy, 'evidence-based' guide to help see your way through parenting dilemmas. Written by a clinical psychologist, a developmental psychologist and a doctor of family medicine, the book looks at pressing

questions such as: 'What should I do when my child acts up?', 'How can I get my baby to sleep through the night?' and 'How do I begin to toilet-train my child?' The authors, who are also parents themselves, debunk common myths about parenting, such as the notion that a healthy baby needs to be able to breastfeed at will throughout the night, or the idea that children who are adopted need specialized counselling. They also cover issues such as how children might be affected by seeing violence on television, how a parent's psychological health can affect their child, what the scientific evidence is for and against circumcision, and how divorce and adoption

affect a child's development. The end of each chapter gives you 'The Bottom Line', a handy summary of the key points of each issue. This book is ideal for new or prospective parents, and paediatricians, family health providers and anyone who works with children and their parents will also find the book's objective, scientific approach useful in their work. Read Larry Winget's posts on the Penguin Blog. Straight-talking, bestselling Pitbull of Parenting Larry Winget says "This is not a fix your kid book. It's a fix the way you parent book. You owe it to your kids to parent with a plan!" Being a parent is the toughest

job in the world, especially with the increasing number of negative influences and pitfalls facing our kids today, from childhood obesity and out-of-control celebrity culture to the dangers of the internet and credit card debt. Larry Winget has never been one to shy away from tough truths, and what he says here may well be difficult for some parents to swallow: we are in the midst of a crisis with our kids. Kids today are over-indulged, over-entertained, under-achieving, and under-disciplined, with a sense of entitlement that is crippling society. And the real problem is that parents aren't paying attention to what's going on. If they were they would realize that most kids

today barely read and write, except with their thumbs on their cell phones! Well-behaved, respectful kids are the exception, not the rule, and for the most part, parents are to blame. Responsible parenting is about beginning with the end in mind and parenting with a plan. But most parents have never stopped to consider what kind of adult they want to raise. They have all this fun creating a baby, but they don't have a plan for the end product. Larry's message to parents: Teach your kids to become the best adults they can be. But don't expect your kids to improve until you improve. Your Kids Are Your Own Fault covers familiar lessons and principles that have led Larry's readers to

greater success with money, career, and goal setting, this time at a level where they can be taught to children. This book shows parents how to design the adult they

want their kid to become and work backwards to make sure it happens. Kids don't come with an instruction manual, but finally being a parent does! Watch a Video
