WHAT IS THE STORY GRID? The Story Grid is a tool developed by editor Shawn Coyne to analyze stories and provide helpful editorial comments. It's like a CT Scan that takes a photo of the global story and tells the editor or writer what is working, what is not, and what must be done to make what works better and fix what's not. The Story Grid breaks down the component parts of stories to identify the problems. And finding the problems in a story is almost as difficult as the writing of the story itself (maybe even more difficult). The Story Grid is a tool with many applications: 1. It will tell a writer if a Story ?works? or ?doesn't work. 2. It pinpoints story problems but does not emotionally abuse the writer, revealing exactly where a Story (not the person creating the Story/the Story) has failed. 3. It will tell the writer the specific work necessary to fix that Story's problems. 4. It is a tool to re-envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer. 5. It is a tool that can inspire an original creation.

Quickies: Writing Short Fiction for the Romance Market Univ. Press of Mississippi

The hit book about a willful young frog with a serious identity crisis and his heard-it-all-before father. Perfect for fans of Mo Willems’s Don’t Let the Pigeon Drive the Bus! and Jon Klassen’s I Want My Hat Back! Frog wants to be anything but a slimy, wet frog. A cat, perhaps. Or a rabbit. An owl? But when a hungry wolf arrives—a wolf who HATES eating frogs—our hero decides that being himself isn’t so bad after all. In this very silly story with a sly message, told in hilarious dialogue between a feisty young frog and his heard-it-all-before father, young readers will identify with little Frog’s desire to be something different, while laughing along at his stubborn yet endearing schemes to prove himself right. And look for the hilarious sequels—I Don’t Want to Be Big, There’s Nothing to Do!, and I Don’t Want to Go to Sleep. ★ "First-time author Petty’s dialogue between a frog father and his son makes its point about accepting one’s nature with a big grin. . . . The story might create similar gratitude in the minds of readers—or it might just make them giggle."—Publishers Weekly, STARRED REVIEW "A lively look at self-acceptance."—Kirkus Reviews "This amusing story ends with a laugh and a much more content frog."—School Library Journal "Silliness and deadpan humor combine into a hopping good story of being happy with who you are."—Booklist "A paean to self-acceptance wrapped in snappy dialogue and illustrated with richly colored comic paintings."—Wall Street Journal "Petty and Boldt provide just enough predictability to hook youngest readers, then deliver a delightful twist or two to create surprise and satisfaction—for both the green hero and the many fans he’ll make with this book."—Shelf Awareness "This lighthearted exploration of identity will delight as a read-aloud."—The Bulletin of the Center for Children’s Books

Reading Skills Activities | Reading Comprehension | Sequence Improve Overall Reading Comprehension with Targeted Specific Skill Practice! Focusing on one comprehension skill at a time gives students the opportunity to master that skill and improve their general reading and comprehension skills. Sequence: Understanding the sequence of a story means knowing the order in which events happen. A good introduction to this skill, is explaining that sequence is about time. Most events in a story are written in chronological order. There are things that happen in the beginning, middle, and end of a story. Skill Specific Activities There are 15 high-interest, short stories in this selection that include a variety of fiction and non-fiction topics. The follow up questions guide students to find the sequence of event. Key words to look for when reading are: first, last, next, before, after, later, during, then, while and finally. Each story is numbered instead of having a title. The last question for each story asks the students to give the story a title. This important activity helps to determine the student’s level of understanding the story’s main idea. Visual Lesson Each story has an engaging illustration designed to bring the story to life and help capture the interest of reluctant readers. To help sharpen inference skills, students can be asked to use the illustration to predict what the story is about. Teaching Opportunities These targeted activities are great for one-on-one intervention, small groups of students at multiple skill levels or whole class participation. Activities can be used for remediation, review, and transition classes. Details: Each short story is between 140 and 160 words and is written at a 2.0 to 3.5 reading level according to the Flesch-Kincaid Readability Scale. The interest level is grades 4 and up. Contents Include: • 15 high-interest, short stories • 15 pages of skill-specific questions focusing on Sequence • Answer Key

The Remarkable Everyday Creative Teaching Press

This collection gathers a variety of scholars representing various methodological perspectives and applying diverse critical lenses to analyze the idea of borders, borderlands, frontiers, and liminal space, as they are represented in literature and philosophy. The idea of the border and frontier is perhaps more important than ever: under the siege of COVID-19, with shattered illusions of a post-racial world, when a global effort is required as a response to a crisis that does not respect national or regional borders, we need to reconsider what frontiers and borders mean to us, and how to best understand them so that they do not divide, but point to areas of common knowledge, collective experiences, and shared humanity. Drawing upon examples from different continents (Africa, the Americas, Asia, and Europe) and from diverse specific places (such as the Mexico-US border, or the contested Palestinian frontiers), and using a variety of critical perspectives (evoking Gloria Anzaldua, Jorge Luis Borges, and Edward Said, for instance), this volume explores the idea of frontiers and borders in order to comment on their representations in literature, philosophy, music, and cinema, and on the human condition in general.

"The Gift of the Magi" is a short story by O. Henry first published in 1905. The story tells of a young husband and wife and how they deal with the challenge of buying secret Christmas gifts for each other with very little money. The main idea of "The Gift of the Magi" is that the value of a gift is in the giver, rather than the gift itself. Jim and Della, out of their love for each other, purchased a gift that required them to sacrifice something that was precious to them.

The Remarkable Everyday is something different - it offers a bridge between the short story and the novel, combining the unique qualities of both. Each story is fully developed with the novel's classic beginning, middle and end and as separate entries they provide a fantastic range, each one offering something very different. The publication is made up of eight stories written by different authors with each one portraying a character for a single day (the story is named after that day: Thursday, Tuesday etc). Complete with an insightful introduction by leading short story scholar Nena Skrbic, "The Remarkable Everyday" is entertaining, powerful and thoughtful all rolled into one. It takes the reader on a rollercoaster ride through different lives with their events, thoughts and changes - all contained within a single day. It offers something for every reader to identify with and enjoy. The stories range from a transsexual coping with her new body, prejudice and literary agents, to a cheating husband finding everything catching him up too quickly for comfort, to a widow dealing with age, her memories and a kilo of peaches. In addition, the reader is offered a glimpse into the life of a young black girl uncovering a hidden past, a woman looking back on a relationship slipping away and an advertising salesman turning a swanky meal to his advantage. Not only this but a moving story depicts a mother is slowly coming to terms with the worst form of tragedy and on a different day commuters packed on their morning train are thinking very different things.
