The Biographic Register of the Department of State Cornell University Press

South Africa's Apartheid regime focused the energies of its police force on countering its political opponents rather than tackling conventional crime. This, together with the appalling legacy of social dislocation among the urban poor which it bequeathed to the ANC administration, has contributed to a tripling in recorded crime in the late 1990s. Crime is now seen to pose a serious threat to the country's stability.

*The Dentists Register* University of Michigan Press

Register containing a list of persons employed in the department and in the diplomatic, consular and territorial service of the United States, with maps showing where the ministers and consuls are resident abroad : also a list of the diplomatic officers

*Race Relations Survey 1993/94* Routledge

A powerful critique of urban development in greater Johannesburg since the end of apartheid in 1994.

Panic City Jacana Media

Not being good at listening to detractors, the author made aviation history by becoming the first person to fly solo around the world twice - in his single engined home-made kit plane. This is the remarkable story of his achievements.

*South African Labour Bulletin* Stanford University Press

Containing a broad cross section of case studies, this volume explores some of the factors which explain the variety of retail structures and modes of consumer behaviour that characterise retailing in developing countries.

*AF Press Clips* Рипол Классик

The CHANGE Series is the concluding part of my first book (Making the CHANGE Evident) that detailed everything that has to do with the subject CHANGE. The first book is introductory and the CHANGE Series is where to put the whole thing to bed!

*The Infrastructures of Security* Wakefield Press

In postapartheid Johannesburg, tensions of race and class manifest themselves starkly in struggles over 'rights to the city'. Martin J. Murray brings together urban theory and local knowledge to draw a picture of this city, where real estate agents and the very poor fight for control of space.

*Crime and Policing in Post-apartheid South Africa* Duke University Press

"Bishop Paul Verryn knew he had a problem when xenophobic violence erupted in May 2008 and the threat of it spreading to Central Methodist Church in downtown Johannesburg became very real.

There were over a thousand migrants living in the church ... Verryn's open door policy had plenty of critics, both from within and outside the Church ..."--Back cover.

*Patent journal, including trade marks, designs, and copyright in cinematograph films* DIANE

Publishing

"...PROVIDES FASCINATING INSIGHTS INTO ANC STRATEGY...A MOST USEFUL COLLECTION OF ESSAYS."--SOUTHERN AFRICAN HISTORICAL JOURNAL. In this illuminating book, eminent political scientists, sociologists, & historians examine the sudden collapse of apartheid. Particular attention is paid to the National Party & the African National Congress, the importance of external forces & the internal movements of resistance. Whether South Africa can achieve stability & peace, is a question that concerns every contributor. (AFRICAN DISCOURSE SERIES, 5)

**The South African Mining and Engineering Journal** Olagunju Success Taiwo

The sixteenth of June 2001 is the 25th anniversary of the Soweto youth uprising, an event commemorated in this book as ordinary people recollect their experiences of those fateful days in their own words. From interviews with 26 people who were enrolled at schools across Soweto in 1976, interspersed with extracts from the report of the Cillie Commission, the events are reconstructed, giving a nuanced and revealing picture of the time. For some of the interviewees, participating in this book was the first opportunity they ever had of talking about what happened and how it has affected their lives since. historical photographs enhance the text and create a visual flash-back to a time when police vans, uniforms, fashions, vehicles, houses and Soweto streets looked very different to today. A short authoritative introduction by a respected historian provides context. This book aims to look back at the Soweto uprising through the eyes of ordinary youngsters who experienced it themselves. It makes our sad history come alive, in a gripping reconstruction which cannot but leave one touched.

**Sanctuary** C. HURST & CO. PUBLISHERS

Contains the names of medical practitioners registered with the General Medical Council of Great Britain. Data includes name and date of registration, address, registered qualifications, and registration number. Also includes information on the Council, registration statistics, and registrable qualifications granted in the United Kingdom, the Republic of Ireland, in member states of the European Economic Community, and recognized overseas (selected British Commonwealth) qualifications.

The Medical Register

Much of the South African government's response to crime—especially in Johannesburg—has been to rely increasingly on technology. This includes the widespread use of video cameras, Artificial Intelligence, machine-learning, and automated systems, effectively replacing human watchers with machine watchers. The aggregate effect of such steps is to determine who is, and isn't, allowed to be in public spaces—essentially another way to continue segregation. In *The Infrastructures of Security*, author Martin J. Murray concentrates on not only the turn toward technological solutions to managing the risk of crime through digital (and software-based) surveillance and automated information systems, but also the introduction of somewhat bizarre and fly-by-night experimental “answers” to perceived risk and danger. Digitalized surveillance is significant for two reasons: first, it enables monitoring to take place across wide “geographical distances with little time delay”; and

second, it allows for the active sorting, identification, and "tracking of bodies, behaviors, and characteristics of subject populations on a continuous, real-time basis." These new software-based surveillance technologies represent monitoring, tracking, and information gathering without walls, towers, or guards.

#### *South African Digest*

Despite the end of white minority rule and the transition to parliamentary democracy, Johannesburg remains haunted by its tortured history of racial segregation and burdened by enduring inequalities in income, opportunities for stable work, and access to decent housing. Under these circumstances, Johannesburg has become one of the most dangerous cities in the world, where the yawning gap between the 'haves' and 'have-nots' has fueled a turn toward redistribution through crime. While wealthy residents have retreated into heavily fortified gated communities and upscale security estates, the less affluent have sought refuge in retrofitting their private homes into safe houses, closing off public streets, and hiring the services of private security companies to protect their suburban neighborhoods. Panic City is an exploration of urban fear and its impact on the city's

evolving siege architecture, the transformation of policing, and obsession with security that has fueled unprecedented private consumption of 'protection services.' Martin Murray analyzes the symbiotic relationship between public law enforcement agencies, private security companies, and neighborhood associations, wherein buyers and sellers of security have reinvented ways of maintaining outdated segregation practices that define the urban poor as suspects.
