This title suggests that untying and recognising relations of intimacy and dependency can, under certain circumstances, change the discourse of hatred into relations of peace and even friendship.

Ibn Warraq is a courageous writer on Islam and a passionate defender of reason who continues to struggle on behalf of reason with a culture that seems to be at odds with reason. In this respect, his work, as in the preparation of this edited volume, is an indispensable tool for Muslims themselves so they can wage their struggle for enlightenment and reform of their faith tradition.- Middle East

Quarterly...probably the first book of its kind-a compendium of testimonies from former Muslims about the reasons for their estrangement from the Islamic faith itself.-New York Review of BooksIn the West abandoning one's religion (apostasy) can be a difficult, emotional decision, which

sometimes has social repercussions. However, in culturally diverse societies where there is a mixture of ethnic groups and various philosophies of life, most people look upon such shifts in intellectual allegiance as a matter of personal choice and individual right. By contrast, in Islam apostasy is still viewed as an almost unthinkable act, and in orthodox circles it is considered a crime punishable by death. Renowned scholar of Islamic Studies Bernard Lewis described the seriousness of leaving the Islamic faith in the following dire terms: Apostasy was a crime as well as a sin, and the apostate was damned both in this world and the next. His crime was treason - desertion and betrayal of the community to which he belonged, and to which he owed loyalty; his life and property were forfeit. He was a dead limb to be excised. Defying the death penalty applicable to all apostates in Islam, the ex-Muslims who are here represented feel it is their duty to speak up against their former faith, to tell the truth about the fastest growing religion in the world. These former Muslims, from all parts of

the Islamic world, recount how they slowly came to realize that the religion into which they were born was in many respects unbelievable and sometimes even dangerous. These memoirs of personal journeys to enlightenment and intellectual freedom make for moving reading and are a courageous signal to other ex-Muslims to come out of the closet. Ibn Warraq is the highly acclaimed author of *Why I Am Not a Muslim* and *Defending the West*. He is also the editor of *The Origins of the Koran, What the Koran Really Says, Leaving Islam, The Quest for the Historical Muhammad, and Which Koran*'.

Heavy-metal contamination is one of the world's major environmental problems, posing significant risks to agro-ecosystems.

Conventional technologies employed for heavy-metal remediation have often been expensive and disruptive. This book provides comprehensive, state-of-the-art coverage of the natural, sustainable alternatives that use a wide range of biological materials in the removal/detoxification of heavy metals, consequently leading to the improvement of crops in these soils. Novel, environmentally friendly and inexpensive solutions are presented based on a sound understanding of metal contamination and the roles of plants and microbes in the management of these toxic soils. Written by worldwide experts, the book provides not only the necessary scientific background but also addresses the challenging questions that require special attention in order

to better understand metal toxicity in soils and its management through bioremediation.

Where are Judges or Judgments with human conscious and high moral when about half of Iraqi population vanished since recent war against Iraq including millions children of Iraq for illegal sanction? Which means there is no justice for those who do not have WMD to attack or to defend own land or dollars or pounds to bribe or to buy few real Judges or Judgment with human conscious or moral. And without money you cannot buy a Judgment. Illegal Governors of present illegal Muslim or Arab client States are also responsible to host most powerful countries on earth with their army, air force and navy with deadly WMD in Muslim land, sea and air to invade Muslim land like Iraq and Afghanistan or to threaten Iran. There were no independent states like

Iraq before First World War since those present illegal client States became part of Caliphate/Khilafah 1400 years ago. World Muslims never accepted those illegal Muslim or Arab client States which were created after First European War known as First World War. A policy of attacking the idea of the Caliphate by linking it with the political violence of the jihadi movement cannot eliminate its Koranic authority. The Islamic world may not totally agree with the armed method of the jihadi movement, but the Caliphate's linkage with the Koran is not in dispute. The political and non-violent aspect of the Islamic movement, considered the godfather of reviving the Caliphate idea, has deeper and wider appeal. An attack on the Caliphate is in effect considered an attack against Islam.[i] Readers also must judge on following fact prior to World War as Desert storm in 1991 and subsequent sanction against Iraq which killed millions children was wrong and it was internal matter of destroyed Caliphate. What about genocide in Iraq since 2003 for which half of

Iraqi population are gone? What about millions killed in Indonesia after Sukarno was ousted? What about coup in Iran in 1953 which ousted democratic elected Prime Minister of Iran? What about genocide in Bangladesh in 1971 by same Pakistanis Army who is now doing same genocide in Northern Pakistan at this moment? And yet in another recent book 'THE SECRET HISTORY OF SADDAM'S WAR UNHOLY BABYLON BY ADEL DARWISH AND GREGORY ALEXANDER' published by Victor Gollancz Ltd, London, it is mentioned in pg. 3-4 that 'Britain had recognized Kuwait's independence on 19th June 1961, abrogating an agreement signed in 1899 which had made the emirate a British protectorate-..... the 1899 Anglo-Kuwait agreement signed by the former Sheikh of Kuwait for 15,000 Indian rupees from the British commissioner in Abadan.., in pg. 6 it is mentioned 'Britain proceeded to establish posts and naval bases along the trade route to India via the Suez Canal, which was opened in 1866, and also signed exclusive agreements with Arab rulers throughout the Gulf. The

first was with Bahrain in 1880, prohibiting the sheikhdom from making any treaties or agreements with any state other than Britain or establishing diplomatic relations with other countries without British consent. "there have been 7,000 madrassas built ... and that's where bin Laden lives and we will go at him if we have actually (sic) intelligence." Seven thousand? Where on earth does this figure come from? It's an odd situation. Obama and Biden want to close down Iraq and reconquer Afghanistan. The Palin College of Clichés characterised this as "a white flag of surrender in Iraq" while continuing to warn of the dangers of Iran, the name of whose loony president Ahmadinejad defeated McCain three times in last week's pseudo-debate. But it's the same old story. All we have learned in America these past two weeks, to quote Joan Littlewood's *Oh! What a Lovely War*, is that the war goes on.

What's Different about Bank Holding Companies?
Vintage

The recent financial crisis highlighted the role of Bank Holding Companies (BHCs) in exacerbating the crisis and in transmitting monetary policy beyond the local economy to global markets. Yet, little is known about their behavior, as most models of banking typically focus on banks with a loan desk. We develop a dynamic model of a BHC that encompasses both a trading desk and a loan desk, and explore the role of risk attitude and overleveraging by the trading desk. We trace the impact of monetary policy and market innovations on bank behavior in the presence of Basel III type regulations. To our knowledge, this is a first such exercise. We show that the value of the BHC is enhanced by operating both desks, even if they

both are subject to common market shocks. We explore alternative regulatory remedies to ongoing efforts to ring-fence the proprietary trading business, and show that regulations that target bank governance can mitigate possible rogue trading and the overleveraging problem.
