And What Do You Do? Granta Books

From old-fashioned bricks-and-mortars to cutting-edge startups, businesses are moving into uncharted territory as they determine how to move from an analog past to a digital future effectively. How can you make sure not to leave human instinct behind? Businesses are leaving behind traditional meetings in favor of virtual ones, transitioning from surveys and studies to analytics and algorithms. The startling and often unacknowledged truth is that the promise of digital transformation can only be realized when we find a way to balance it with the promise of people. In the end, it's the people that matter, and companies must never

forget the soul that drives them. In *Restoring the Soul of Business*, business leader Rishad Tobaccowala teaches you to: Understand how to unleash the significant benefit that can be realized by combining emotion and data, human and machine, analog and digital. Spot the warning signs of data-blinded companies: cold cultures with little human interaction, poor innovation stemming from discouraged employees who don't contribute ideas, and poor customer service due to automated, robotic processes. Explore how organizations of various sizes and from different industries have successfully reoriented their thinking on how to fuse technology and humanity. Gain skills to become an expert in connections critical to growth and success, including the connection between being creative and using technology. Everyone working in an organization will find penetrating observations and guidance about how and why

establishing the proper balance between human intuition and creativity and data-driven insights can lead to increased revenue, profitability, retention—and even joy—in their careers and business. *Restoring the Soul of Business* provides practical tools and techniques that every organization can and should implement, and challenges you to move forward with the kind of balance that capitalizes transformation and produces one great success after another.

The room darkens and grows hushed, all eyes to the front as the screen comes to life. Eagerly the audience starts to thumb the pages of their handouts, following along breathlessly as the slides go by one after the other... We're not sure what the expected outcome was when PowerPoint first emerged as the industry standard model of presentation, but reality has shown few positive results. Research reveals that there is much about this format that audiences positively dislike, and that the old school rules of classical rhetoric are still as effective as they ever were for maximizing impact. Renowned communications researcher, consultant, and speech coach Max Atkinson presents these findings and more in a groundbreaking and refreshing approach that highlights the secrets of successful communication, and shows how anyone can put these into practice and become an effective speaker or presenter. Topics Include: DT How to win and hold the attention of audiences; DT Using visual aids and PowerPoint more effectively; DT Getting your message across and winning applause; DT Inspiring audiences; DT How to prepare quickly; DT Fact and fiction about body language and non-verbal communication

Practical book showing professionals the “what to dos” and “how to dos” for effective safety leadership *The Second Edition of Alive and Well at the End of the Day* provides industrial leaders in operations with practical solutions to the tough safety leadership challenges they must manage. The book describes in detail the nature of those challenges (what makes them that tough) and offers proven best practices to successfully deal with them. The practices described in the book come from the author's first-hand observation of leaders in operations who were successful in leading and managing safety performance. These best practices are defined and described in detail, allowing the reader to immediately and successfully put them into practice. In addition to providing "what to do" and "how to do that" for effective safety leadership, the book also explains "how it works" and "why to do it that way." By taking this approach, the book provides deeper insight and understanding in addition to effective practices. The book's contents are organized in a way that allows the reader the ability to match up chapters with specific challenges they are facing. In *Alive and Well at the End of the Day*, readers can expect to find discussion on: The practice of leadership, moments of high influence, managing by walking around, and following all the rules, all the time Recognizing hazards and managing risk, behavior, consequences, and attitude, the power of good questions, and making change happen Managing accountability, safety meetings worth having, managing safety suggestions, creating the culture you want, and investing in training

Understanding what went wrong, measuring safety performance, managing safety dilemmas, leading from the middle, and common mistakes managers make Leaders in industrial operations responsible for leading and managing safety performance, from CEOs to frontline leaders, can use *Alive and Well at the End of the Day*, in conjunction with the included study guide, to understand and implement a powerful process to improve the supervisor's practice of safety leadership.

Research Shows Organizations That Focus on Employee Experience Far Outperform Those That Don't Recently a new type of organization has emerged, one that focuses on employee experiences as a way to drive innovation, increase customer satisfaction, find and hire the best people, make work more engaging, and improve overall performance. The *Employee Experience Advantage* is the first book of its kind to tackle this emerging topic that is becoming the #1 priority for business leaders around the world. Although everyone talks about employee experience nobody has really been able to explain concretely what it is and how to go about designing for it...until now. How can organizations truly create a place where employees want to show up to work versus need to show up to work? For decades the business world has focused on measuring employee engagement meanwhile global engagement scores remain at an all time low despite all the surveys and institutes that been springing up tackle this problem. Clearly something is not working. Employee engagement has become the short-term adrenaline shot that organizations turn to when they need to increase their engagement scores. Instead, we have to focus on

designing employee experiences which is the long term organizational design that leads to engaged employees. This is the only long-term solution. Organizations have been stuck focusing on the cause instead of the effect. The cause is employee experience; the effect is an engaged workforce. Backed by an extensive research project that looked at over 150 studies and articles, featured extensive interviews with over 150 executives, and analyzed over 250 global organizations, this book clearly breaks down the three environments that make up every single employee experience at every organization around the world and how to design for them. These are the cultural, technological, and physical environments. This book explores the attributes that organizations need to focus on in each one of these environments to create COOL spaces, ACE technology, and a CELEBRATED culture. Featuring exclusive case studies, unique frameworks, and never before seen research, *The Employee Experience Advantage* guides readers on a journey of creating a place where people actually want to show up to work. Readers will learn: The trends shaping employee experience How to evaluate their own employee experience using the Employee Experience Score What the world's leading organizations are doing around employee experience How to design for technology, culture, and physical spaces The role people analytics place in employee experience Frameworks for how to actually create employee experiences The role of the gig economy The future of employee experience Nine types of organizations that focus on employee experience And much more! There is no question that engaged employees perform better, aspire higher, and achieve more, but you can't create employee engagement without

designing employee experiences first. It's time to rethink your strategy and implement a real-world framework that focuses on how to create an organization where people want to show up to work. The Employee Experience Advantage shows you how to do just that.

In 'Rhythm and Poetry' by hip hop artist and poet Karl Nova the beauty of rap lyricism and Hip Hop influenced poetry is displayed with wit, humour and positivity. His approach is to meet young people where they are and engage them with the style and attitude they are familiar with. This collection reflects on his journey of growth from childhood to adulthood through the lens of hip hop culture. A lot of the verses have already impacted many lives as he travels and delivers them with his unique and energetic style.

'No Kitchen Cookery' has been designed for schools with limited or no kitchen access to deliver an aspect of the Cooking and Nutrition National Curriculum (2014) for Key Stage 1 and 2 within classrooms. It aims to give teachers an outline for cookery lessons with objectives, outcomes and assessment opportunities clearly identified and provides straightforward easy to follow recipes. As a classroom teacher and registered nutritional therapist I have combined my knowledge and understanding of both disciplines to develop this book building in nutrition know-how, which provides an opportunity for greater discussion about food and health in schools.

A manifesto on what it takes to be a true professional in the

modern world. By common definition, a professional is anyone who possesses the skills and knowledge necessary for a career—whether as a surgeon, a software engineer, or a plumber. But according to Subroto Bagchi, our increasingly global marketplace demands more. In a world where the foolish, selfish, and unethical decisions of a few have affected the lives of millions, *The Professional* urges readers to act responsibly and reexamine "business as usual". By exploring a variety of professional dilemmas across many industries, Bagchi defines the qualities of true professionals and the attributes that separate them from the merely competent. These include: *Suffer no false attractions: It's always tempting to take the path of least resistance, but true professionals can separate the genuine from the phony. *Know when to say no: True professionals are not afraid to say no to things that are not worth their time, their energy, or their creativity. *Take the long view: True professionals understand that every action, decision, and relationship, no matter how small, can have a lasting impact.

You probably hate giving presentations. You probably hate listening to them too. Why? Because most business presentations are too long, too detailed, too boring...and submerged under a blizzard of PowerPoint. But the single most important presentational tool known to man isn't a slideshow. It's you.

Whether you're speaking to one person across a table, 20 people in a boardroom or 1,000 people in a ballroom, it's all about the words you say and how you say them. The Presentation Coach shows you how to use what you've already got to give you clarity,

confidence and impact in every speaking challenge you will ever face. You'll learn the unique Bare Knuckle 5-step process to effective presenting, and how to apply it to all business speaking, from large-scale presentations to one-to-one client meetings. Graham Davies has been coaching high-profile individuals from the worlds of business, politics and entertainment in exactly these techniques for the past 25 years. Now it's your turn. Praise for The Presentation Coach "Graham Davies is a brilliantly funny speaker who knows how to inspire and enthuse anyone who sees presenting as a bore, a burden or a source of terror." Nick Robinson, Political Editor, BBC "This book really captures Graham's intense and robust sense of coaching. Just like the author, it is amusing, punchy and really comforting to have access to in all presentation situations." Michel Combes, CEO, Vodafone Europe "Required reading for anyone who wants their presentations to enthuse rather than euthanize their audience." Tim Curtis, MD, Northern Europe, Land's End "Graham is a highly effective presentation coach. He is always honest and gets straight to the point. His book is just as direct and entertaining as he is in person." Nick Jeffery, CEO, Vodafone Global Enterprise "I don't know anyone who could wear the label 'the presentation coach' more confidently than Graham." Daniel Finkelstein, Executive Editor, The Times "I use Graham's system strictly and religiously in every speech. In fact on almost every important occasion when I need to get a message across.... You will never regret buying and using this book." George Clarke, MD, Heidelberg UK "Graham helped me develop my very own presentation style, true to myself, with high impact and focused very much on the audience." Phil Clarke, CEO Designate, Tesco

"Graham's approach is ruthlessly robust and utterly practical. This book is the next best thing to seeing him in person, and much less of a strain on your budget." Matthew Wilson, CEO Brit Global Markets "...Davies's compelling book illuminates all the pitfalls and provides a simple guide to allowing personality into presentations - radical stuff indeed!" Andy Street, MD, John Lewis "Whether you are a Prime Minister, chief executive or anyone else who needs make an impact, then you must read this challenging and innovative book by Graham Davies." Neil Sherlock, Partner, Public Affairs, KPMG "...I wish Graham had written it 20 years ago..." Richard Klein, MD, Bank of America Merrill Lynch "Never again will you commit the crime of Death by Bullet-Point." Penny Philpot, Group Vice President, Worldwide Partner Services, Oracle "Graham Davis is a talented gagmeister who shows that the best way of exposing a bad argument is with a good joke." Boris Johnson, Mayor of London "Reading his book will spur you on to win your own presentational race." Richard Dunwoody, twice winner of the Grand National "Graham completely reframed my approach to presenting. His approach works!" Otto Thoresen, CEO, Aegon UK "A process that you can use no matter what the situation. I heart

Becoming a Chef McGraw-Hill Companies

With roots planted firmly in the industrial age, the corporate ladder has been the metaphor used to describe the prevailing one-size-fits-all model for success. At its heart, the ladder is derived from inflexible, hierarchical, organization models in which prestige, individual rewards, information flow, power and influence are tied to the rung each employee occupies. Yet the workplace as we know it is in transition -- evolving away from the

linear, one-size-fits-all model of the corporate ladder toward a multidimensional approach that Cathy Benko calls the corporate lattice. This book will serve to widen an organization's strategic lens, representing a fundamentally new way to work and run a company. It offers a framework to help senior leaders and HR directors harness the talent in their company in a way that provides a strategic advantage, not only for recruiting but also for achieving and maintain better individual performance. In the bestselling book Mass Career Customization (Harvard Business Press/2007), Cathy Benko and Deloitte provided the breakthrough MCC dashboard for understanding the important variables of individual employees' career-life profiles, but she also coined a new metaphor -- the corporate lattice -- as a way to think about the changed career landscape. This book delves much deeper into the power of the lattice for organizations, fully exploring its contours and applying it to real-life practice throughout a company. It explores how the corporate lattice model creates value by: 1. Ensuring a flow of talent into and through the organization. 2. Increasing the efficiency of and return on organizational investments. 3. Improving financial and operating results through greater employee engagement. The three-part framework of the book presents specific ways managers and organizations can use The Corporate Lattice to manage talent, measure results, collaborate across teams, engage employees, and reor"

In this intrepid and brilliant memoir, Emma Larkin tells of the year she spent travelling through Burma, using as a compass the life and work of George Orwell, whom many of Burma's underground teahouse intellectuals call simply "the prophet". In stirring, insightful prose, she provides a powerful reckoning with one of the world's least free countries. Finding George Orwell in Burma is a brave and revelatory reconnaissance of modern Burma, one of the world's grimmest and most shuttered dictatorships, where the term "Orwellian" aptly describes the life endured by the country's people. This book has come to be regarded as a classic of reportage and travel and a crucial book for anyone interested in Burma and George Orwell.

2018 James Beard Award Winner: Best American Cookbook
Named one of the Best Cookbooks of 2017 by NPR, The Village Voice, Smithsonian Magazine, UPROXX, New York Magazine, San Francisco Chronicle, Mpls. St. Paul Magazine and others Here is real food—our indigenous American fruits and vegetables, the wild and foraged ingredients, game and fish. Locally sourced, seasonal, “clean” ingredients and nose-to-tail cooking are nothing new to Sean Sherman, the Oglala Lakota chef and founder of The Sioux Chef. In his breakout book, *The Sioux Chef's Indigenous Kitchen*, Sherman shares his approach to creating boldly seasoned foods that are vibrant, healthful, at once elegant and easy. Sherman dispels outdated notions of Native American fare—no fry bread or Indian tacos here—and no European staples such as wheat flour, dairy products, sugar, and domestic pork and beef. The Sioux Chef's healthful plates embrace venison and rabbit, river and lake trout, duck and quail, wild turkey, blueberries, sage, sumac, timsula or wild turnip, plums, purslane, and abundant wildflowers. Contemporary and authentic, his dishes feature cedar braised bison, griddled wild rice cakes, amaranth crackers with smoked white bean paste, three sisters salad, deviled duck eggs, smoked turkey soup, dried meats, roasted corn sorbet, and hazelnut-maple bites. *The Sioux Chef's Indigenous Kitchen* is a rich education and a delectable

introduction to modern indigenous cuisine of the Dakota and Minnesota territories, with a vision and approach to food that travels well beyond those borders.

"What an extraordinary book! Pain, gain, joy, pathos, and the aroma of braised short ribs. It made me want to open (God forbid!) another restaurant. I never thought anyone could capture the magic and mission of being a chef, but they've done it!"

Barbara Tropp, Chef-Owner, China Moon Cafe "An unusually

comprehensive book, immensely readable, at once passionate and coherent, probing and well-informed. For anyone interested in the historic coming of age of the professional American kitchen, this is a requisite buy." Michael and Ariane Batterberry, Founding Editors and Associate Publishers of Food Arts "Finally, a book that lets chefs speak for themselves! An insightful look at the complex life of a professional chef in the 90s. Fascinating portraits of the people who have defined American cuisine who they are and how they got to be where they are today. Anyone who is interested in becoming a chef will find this book invaluable this is what it takes to make it." Mark Miller, Chef-Owner, Coyote Cafe and Red Sage "After reading this book, I understand that becoming an outstanding leader is not very different from becoming a chef. Both roles require passion, discipline, authenticity, and an experimental attitude. On top of that, organizing a kitchen may be as difficult as organizing any business. Not only will present and future chefs and restaurateurs want to read this book, but anyone with a taste for excellent cooking and excellent leadership will find something of interest on every page." Warren Bennis, Distinguished Professor of Business Administration at the University of Southern California and Author, *On Becoming a Leader and Leaders* "Becoming a Chef is a marvelous book for the interested home cook as well as the aspiring chef. Like great wines with great food, there are great dishes and a great education here." Robert Mondavi, Founder, Robert Mondavi Winery
