This book introduces children to valuable lessons that Jesus taught two thousand years ago which are still important today. Children will enjoy the rhyming verse and colorful illustrations that help them learn about God's love for all people and the special regard Jesus had for children. Familiar Christian concepts such as the Golden Rule, prayer, forgiveness, and humbleness come alive, making it a good addition to both family and Sunday School collections, or a loving gift for a precious child.

Excerpt from The Golden Rule: A Collection of Songs, Hymns, and Chants for Sunday-Schools, Juvenile Concerts, Festivals, Anniversaries Tm: Mama - While no pains have been spared to make it attractive to children, an unusual effort has been made to adapt it to the best expression of the words. The melody has been the chief consideration in the preparation of the music. While it is

smooth and flowing, care has been taken to keep within the compass of children's voices. Thanks are due to a large number of excellent composers. All know that children like pictures but we fear very few realize how lasting is the impression they make upon minds and hearts. Pictures that awaken foolish, impure or unkind thoughts have a tendency to poison the mind and destroy the soul forever. On the other hand, the pictures in this book will suggest thoughts of God and heaven and awaken desires to live pure lives which will sooner or later result in the salvation of many of our young readers.-from "Prefatory Note" This fully

illustrated 1895 book of religious stories and inspiration for children is chock full of stimulating lessons and pointed tales, including those of: .The Converted Infidel.The Golden Rule Exemplified.The Dying Child's Prayer for Her Drunken Father.The Little Swiss Girl, Who Died to Save Her Father's Life.Little Jennie's Sickness and Death.How Three Sunday School Children Met Their Fate."I'll Never Steal Again-If Father Kills Me for It."Triumphant Death of a Little Child.and many more.SOLOMON BENJAMIN SHAW also wrote The Great Revival in Wales (1905).

The Reflective Administrator takes the well-grounded theories of reflective thought out of the classroom setting and delivers them into the public sector workplace. The intentional practice of reflection is useful not only with regard to experiential learning in public administration education but also within the profession itself. The text dispels misconceptions about what reflective practice entails and offers the reader practical tools to implement in both the classroom and professional environments. The book begins by walking the reader through a foundational overview of reflective thought theory, cultivates understanding of reflection in practice, then closes the loop by helping the reader to conceptualize the ideas presented and offering applicable takeaways for both students and practitioners. Chapters utilize real-world case studies which detail work environment interactions, planning, and outcomes. These provide opportunities to examine and dissect individual and group dynamics using a reflective practice lens. The Reflective Administrator offers a fresh perspective on the utility of reflective thought in public service for professional growth and leadership development, and it will be a key resource for students as well as public administration practitioners.

Civilizing the World explores the vibrancy and impact of forgotten social reformers who defied categorization within the Social Gospel or secular progressive movements. These social reformers, or “Practical Christians,” functioned as a network of activists whose dedication to spiritual conversions and cultural transformation arose from a shared commitment to nonsectarian Christian cooperation and practicing Christian citizenship. Bringing together a diverse coalition of

liberal Protestants, revivalists, evangelicals, and “secular” reformers, Practical Christians rejected theological divisions in favor of broad alliances committed to improving society at home and abroad. A complete understanding of the intimate relationship between local and global activism provides new insight into Practical Christians’ social networks, political goals, religious identities, and international outlook. This broad reform alliance considered their domestic and global reforms as seamless tasks in modernizing the world. Just as Chicago Practical Christians labored to “civilize” their immigrant neighbors and encourage their adoption of their own Christian and American habits, like-minded Americans worked to “Christianize” and “modernize” Armenians and the Middle East. The Practical Christian coalition faltered post-World War I as evangelicals and revivalists continued to prioritize spiritual conversions while liberal Protestant and secularizing activists placed more emphasis on the process of Americanizing immigrants and the world.

Drawing on examples from British world expressions of Christianity, this collection further greater understanding of religion as a critical element of modern children’s and young people’s history. It builds on emerging scholarship that challenges the view that religion had a solely negative impact on nineteenth- and twentieth-century children, or that ‘secularization’ is the only lens to apply to childhood and religion. Putting forth the argument that religion was an abiding influence among British world children throughout the nineteenth and most of the twentieth centuries, this volume places ‘religion’ at the center of analysis and discussion. At the same time, it positions the religious factor within a broader social and cultural framework. The essays focus on the historical contexts in which religion was formative for children in various ‘British’ settings denoted as ‘Anglo’ or ‘colonial’ during the nineteenth and early- to mid-twentieth centuries. These contexts include mission fields, churches, families, Sunday schools, camps, schools and youth movements. Together they are treated as ‘sites’ in which religion contributed to identity formation, albeit in different ways relating to such factors as gender, race, disability and denomination. The contributors develop this subject for childhoods that were experienced largely, but not exclusively, outside the ‘metropole’, in a diversity of geographical settings. By extending the geographic range, even within the British world, it provides a more rounded perspective on children’s global engagement with religion.

I believe that the Bible teaches assertiveness as the most mature, biblical way of living. In very simple terms, assertiveness is when we say, "Come sit with me. Let's talk about our relationship. What is working for us and what needs to change?" When we are assertive we do not run and hide from relationship difficulties, neither do we demand that things are done our way. Instead, we face the problems head on, and in a calm, but firm manner, we address the issues that need to be resolved. When I have been privileged to help people become assertive, they have not only improved their interpersonal relationships, they have developed a healthier self-esteem, and for people with a faith in God, that relationship has also deepened. Because I have seen such positive changes in the clients I have worked with, I have become passionate about the importance of being assertive. My own relationships have also improved when I have practiced assertiveness. Before I worked as a counselor, I taught school for several years. Later, as a counselor, I wished that someone would design a course on assertiveness that could be used in the classroom. If children would learn the value of assertive behavior early in life, they would struggle less with relationships throughout their lives.
