The diary as a genre is found in all literate societies, and these autobiographical accounts are written by persons of all ranks and positions. The Diary offers an exploration of the form in its social, historical, and cultural-literary contexts with its own distinctive features, poetics, and rhetoric. The contributors to this volume examine theories and interpretations relating to writing and studying diaries; the formation of diary canons in the United Kingdom, France, United States, and Brazil; and the ways in which handwritten diaries are transformed through processes of publication and digitization. The authors also explore different diary formats including the travel diary, the private diary, conflict diaries written during periods of crisis, and the diaries of the digital era, such as blogs. The Diary offers a comprehensive overview of the genre, synthesizing decades of interdisciplinary study to enrich our understanding of, research about, and engagement with the diary as literary form and historical documentation.

History is being made in U.S.-Cuban relations. Now in paperback and updated to tell the real story behind the stunning December 17, 2014, announcement by President Obama and President Castro of their move to restore full diplomatic relations, this powerful book is essential to understanding ongoing efforts toward normalization in a new era of engagement. Challenging the conventional wisdom of perpetual conflict and aggression between the United States and Cuba since 1959, Back Channel to Cuba chronicles a surprising, untold history of bilateral efforts toward rapprochement and reconciliation. William M. LeoGrande and Peter Kornbluh here present a remarkably new and

relevant account, describing how, despite the intense political clamor surrounding efforts to improve relations with Havana, negotiations have been conducted by every presidential administration since Eisenhower's through secret, back-channel diplomacy. From John F. Kennedy's offering of an olive branch to Fidel Castro after the missile crisis, to Henry Kissinger's top secret quest for normalization, to Barack Obama's promise of a new approach, LeoGrande and Kornbluh uncovered hundreds of formerly secret U.S. documents and conducted interviews with dozens of negotiators, intermediaries, and policy makers, including Fidel Castro and Jimmy Carter. They reveal a fifty-year record of dialogue and negotiations, both open and furtive, that provides the historical foundation for the dramatic breakthrough in U.S.-Cuba ties.

What does this burgeoning corpus of writing tell us? Why, in recent years, has the history of hysterical disorders carried such resonance for commentators in the sciences and humanities? What can we learn from the textual traditions of hysteria about writing the history of disease in general? What is the broader cultural meaning of the new hysteria studies? In the second half of the book, Micale discusses the many historical "cultures of hysteria." He reconstructs in detail the past usages of the hysteria concept as a powerful, descriptive trope in various nonmedical domains, including poetry, fiction, theater, social thought, political criticism, and the arts. His book is a pioneering attempt to write the historical phenomenology of disease in an age preoccupied with health, and a prescriptive remedy for writing histories of disease in the future.

The First Person and Other Stories Marabout

The Japanese believe that until the age of three, children, whether Japanese or not, are gods, each one an okosama, or "lord child." On their third birthday they fall from grace and join the rest of the human race. In Amelie Nothomb's new novel, *The Character of Rain*, we learn that divinity is a difficult thing from which to recover, particularly if, like the child in this story, you have spent the first two and a half years of life in a nearly vegetative state. "I remember everything that happened to me after the age of two and one-half," the narrator tells us. She means this literally. Once jolted out of her plant-like, tube-like trance (to the ecstatic relief of her concerned parents), the child bursts into existence, absorbing everything that Japan, where her father works as a diplomat, has to offer. Life is an unfolding pageant of delight and danger, a ceaseless exploration of pleasure and the limits of power. Most wondrous of all is the discovery of water: oceans, seas, pools, puddles, streams, ponds, and, perhaps most of all, rain-one meaning of the Japanese character for her name. Hers is an amphibious life. *The Character of Rain* evokes the hilarity, terror, and sanctity of childhood. As she did in the award-winning, international bestseller *Fear and Trembling*, Nothomb grounds the novel in the outlines of her experiences in Japan, but the self-portrait that emerges from

these pages is hauntingly universal. Amelie Nothomb's novels are unforgettable immersion experiences, leaving you both holding your breath with admiration, your lungs aching, and longing for more.

On Diary is the second collection in English of the groundbreaking and profoundly influential work of one of the best-known and provocative theorists of autobiography and diary. Ranging from the diary's historical origins to its pervasive presence on the Internet, from the spiritual journey of the sixteenth century to the diary of Anne Frank, and from the materials and methods of diary writing to the question of how diaries end, these essays display Philippe Lejeune's expertise, eloquence, passion, and humor as a commentator on the functions, practices, and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay, "The Autobiographical Pact," has shaped life writing studies for more than thirty years, and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, "Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. . . . His style is very personal, lively. It grabs the reader as scholarship

rarely does. Lejeune's erudition and methodology are impeccable." Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies, and cultural studies.

Though history and autobiography both claim to tell true stories about the past, historians have traditionally rejected first-person accounts as subjective and therefore unreliable. What then, asks Jeremy D. Popkin in *History, Historians, and Autobiography*, are we to make of the ever-increasing number of professional historians who are publishing stories of their own lives? And how is this recent development changing the nature of history-writing, the historical profession, and the genre of autobiography? Drawing on the theoretical work of contemporary critics of autobiography and the philosophy of Paul Ricoeur, Popkin reads the autobiographical classics of Edward Gibbon and Henry Adams and the memoirs of contemporary historians such as Emmanuel Le Roy Ladurie, Peter Gay, Jill Ker Conway, and many others, he reveals the contributions historians' life stories make to our understanding of the human experience. Historians' autobiographies, he shows, reveal how scholars arrive at their vocations, the difficulties of writing about modern professional life, and the ways in which personal stories can add to our understanding of historical events such as war, political movements, and the traumas of the Holocaust. An engrossing overview of the way historians view themselves and their profession, this work will be of interest to readers concerned with the ways in which we understand the past, as well as anyone interested in the art of life-writing.

Malcolm X's blazing, legendary autobiography, completed shortly before his assassination in 1965, depicts a remarkable life: a child born into rage and despair, who turned to street-hustling and cocaine in the Harlem ghetto, followed by prison, where he converted to the Black Muslims and honed the energy and brilliance that made him one of the most important political figures of his time - and an icon in ours. It also charts the spiritual journey that took him beyond militancy, and led to his murder, a powerful story of transformation, redemption and betrayal. Vilified by his critics as an anti-white demagogue, Malcolm X gave a voice to unheard African-Americans, bringing them pride, hope and fearlessness, and remains an inspirational and controversial figure today.

A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND PEOPLE NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Jennifer Szalai, The New York Times • NPR • The Guardian • Slate • Vox • The Economist • Marie Claire In the stirring first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of "hope and change," and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day.

The Character of Rain Hachette UK

Paul John Eakin's earlier work *Fictions in Autobiography* is a key text in autobiography studies. In it he proposed that the self that finds expression in autobiography is in fundamental ways a kind of fictive construct, a fiction articulated in a fiction. In this new book Eakin turns his attention to what he sees as the defining assumption of autobiography: that the story of the self does refer to a world of biographical and historical fact. Here he shows that people write autobiography not in some private realm of the autonomous self but rather in strenuous engagement with the pressures that life in culture entails. In so demonstrating, he offers fresh readings of autobiographies by Roland Barthes, Nathalie Sarraute, William Maxwell, Henry James, Ronald Fraser, Richard Rodriguez, Henry

Adams, Patricia Hampl, John Updike, James McConkey, and Lillian Hellman. In the introduction Eakin makes a case for reopening the file on reference in autobiography, and in the first chapter he establishes the complexity of the referential aesthetic of the genre, the intricate interplay of fact and fiction in such texts. In subsequent chapters he explores some of the major contexts of reference in

autobiography: the biographical, the social and cultural, the historical, and finally, underlying all the rest, the somatic and temporal dimensions of the lived experience of identity. In his discussion of contemporary theories of the self, Eakin draws especially on cultural anthropology and developmental psychology.
