Politics Stimulating, succinct and accessible, the fully revised and updated

fourth edition of this highly successful text offers a truly comprehensive introduction to the study of politics, written from an international perspective. War and the Transformation of Global Politics Drawing on a wide range of interviews and primary and secondary sources, this book investigates the dynamic interactions between national regulatory formation and the global biopolitics of regenerative medicine and human embryonic stem cell science.

Global Politics of Defense Reform
Springer

"This book is a major new introduction to

international relations/global politics. Written by a leading textbook author, it is engaging, stimulating and forward-looking, covering all the topics and theory students require at an introductory level"--
Understanding Global Politics Springer Drawing on critical social and political thought, the book explores the implications, arguing that late modern wars wars, often referred to as 'liberal', may be interpreted as perpetuating forms of exclusion and domination that render war a tool of control now articulated in global terms.

[Global Politics of Health Reform in Africa](#)

Springer

This volume highlights the impact of global trends on defense reform and civil-military relations, including phenomena such as globalization and economic liberalization that are not usually associated with such matters.

Power, Information Technology, and International Relations Theory Palgrave Macmillan

This edited book by Mills and Karp brings together political, legal and moral perspectives on the responsibilities of human rights protection in world politics today. It critiques a narrow focus on states' 'violations' of human rights, incorporates non-state actors, and looks beyond the 'Responsibility to Protect' policy framework.

Gender and Global Politics in the Asia-Pacific Springer

The financial crisis prompted many to ask how financial systems from America and Iceland to Russia and Hungary could have been so misgoverned that their near collapse plunged the entire world into recession. Randall Germain assesses what needs to be done, and by whom, to avoid a repetition of what he calls the 'great

freeze'.

Politics, Third Edition Springer

The book offers an accessible and very comprehensive survey of the major ideas and concepts encountered in politics. Each chapter discusses a cluster of related terms, exploring how they have been used by different thinkers and traditions, and examining the debates and controversies that have sprung up around them. Lucidly written and clearly structured, the book provides an ideal introduction to politics and political theory.

Britain in Global Politics Bloomsbury Publishing

Exploring a much neglected area, the relationship between food and nationalism, this book examines a number of case studies at various levels of political analysis to show how useful the food and nationalism axis can be in the study of politics.

Legitimacy in an Age of Global Politics Springer

In spite of the lack of plausible alternatives to liberal democracy, the age of globalization has ushered in serious challenges to the democratic legitimacy of the nation state. The contributors in this

collection explore the frontiers of normative and empirical legitimacy research, drawing upon a range of key conceptual and methodological issues.

Politics Springer

This collected volume draws together essays written by International Relations scholars from a variety of regional, methodological and theoretical perspectives to confront the challenges of identity-centered analysis. In particular, the contributors seek to elucidate the general meaning and methodological implications of the commonly state yet largely unexamined, assertion that identities are relational, fluid, constructed, and multiple.

Seapower in Global Politics, 1494-1993 Springer

A major new text on contemporary global political economy that focuses centrally on key issues and actors. Concise and accessibly written, it provides an ideal introduction to the contemporary dynamics and processes of change in the global political economy.

A Poststructuralist Discourse Theory of Global Politics Springer

This book demonstrates the integral

nature of gendered issues and feminist frameworks for a comprehensive understanding of contemporary IR bringing together the work of feminist scholars, teachers and activists into a coherent and accessible collection. *Global Political Philosophy* Springer
 This book challenges the common perception that global politics is making progress on indigenous issues and argues that the current global care for indigeneity is, in effect, violent in nature. Examining the inclusion of indigenous peoples in the United Nations Permanent Forum on Indigenous Issues and the Arctic Council, the authors demonstrate how seemingly benevolent practices of international political and legal recognition are tantamount to colonialism, the historical wrong they purport to redress. By unveiling the ways in which contemporary neoliberal politics commissions a certain type of indigenous subject—one distinguished by resilience in particular—the book offers a pioneering account of how international politics has tightened its grip on indigeneity. *The Middle East and Palestine* Springer
 The fifth edition of this seminal textbook

by best-selling author Andrew Heywood continues to lead the way in providing a comprehensive and authoritative introduction to politics. Renowned for its engaging and accessible style, this book helps students to understand the discipline's foundational concepts and theories and use these to make sense of its key subfields, from elections and voting to security and global governance. Systematically revised and updated throughout, it also uses a range of tried-and-tested pedagogical features to draw links between different standpoints and help make contemporary institutions, events and developments come to life. Drawing on a wide range of international examples, this text is the ideal choice for lecturers around the world. Carefully designed and written to map onto the way the subject is introduced at degree level, it remains the go-to text for undergraduate introductory and comparative politics courses. Furthermore, it can also be used as pre-course reading or as a point of reference throughout politics degrees, majors or minors. New to this Edition: - Restructured and revised to reflect the decline of democracy and the rise of

populism and authoritarianism in different parts of the world - *New Politics in Action* features reflect the latest political developments – including 'Trump's triumph: politics as polarization'; 'South Africa: a one-party state?'; and 'North Korea: a rogue nuclear power?' - Discusses the transformation of the media landscape, assessing the advent and impact of social media and 'fake news' - New and improved text design reflecting the book's contemporary and engaging coverage - Accompanied by a brand new website, featuring a flashcard glossary, additional cases, interactive simulations and weblinks for students, PowerPoint slides for lecturers, a testbank and a guide to using the book. *The Global Political Economy of the Household in Asia* Springer
 "A systematic and integrated analysis of the theory and practice of contemporary international relations, covering traditional and critical theory, core issues and recent developments in the field"--
Turbulence and New Directions in Global Political Economy Springer
Global Politics
Human Rights Protection in Global Politics

Springer

Having destabilized dominant assumptions about the nature of religion, there is now a need to develop new ways of thinking about this ever-present phenomenon in global politics. This book outlines a new approach to understanding religion and its relationship with politics in the West and globally for International Relations. *Partisan Histories* Palgrave Macmillan Stimulating, succinct, and accessible, this highly successful text offers a truly comprehensive introduction to the study of politics, written from an international perspective. This third edition of *Politics* has a new chapter on the mass media and political communication and contains substantial new material on developments such as the "War on Terror," identity politics and multiculturalism, and state transformation. It also takes into account throughout of the increasing importance of the global dimension of politics, and features new boxed material on major

thinkers and key concepts.

The Palgrave Handbook of Global Politics in the 22nd Century Springer

Published 35 years after Palgrave Macmillan's landmark International Political Economy (IPE) series was first founded, this Handbook captures the state of the art of contemporary IPE. It draws on the series' history of focusing on the oft-neglected study of the global South. Providing interdisciplinary perspectives from scholars hailing from the global North and South, the Handbook illustrates the theoretical innovations and empirical richness necessary to explain today's ever-changing world. This is a world in which the global South and North are not only being transformed by the end of bipolarity and the rise of the BRICS, but also by diverse global crises and growing cross-border challenges. It is a world where human development, governance and security are becoming ever more

elusive, where, profoundly altered by the rise of new technologies, the structure of relations between nations itself is changing, becoming increasingly interconnected, both digitally and physically. Understanding these issues is of critical importance to better anticipate current and future global transformations. This Handbook is the ideal primer for all scholars, practitioners and policy makers looking to do so.

Africa in Global Politics in the Twenty-First Century Springer

James Busumtwi-Sam and Laurent Dobuzinskis have assembled a leading team of experts in the field to examine how phenomena associated with globalization impact on political economy in theory and in practice. The volume employs a variety of theoretical and analytical approaches to examine the very changeable nature of the global political economy, in terms of academic analysis, policy and practice.
