RICHARD LEON

Biology Class Xi : With Cd Roedurico Trust

Biology Class Xii Is A Comprehensive Textbook Which Ensures A Detailed Coverage Of The Latest Ncert Syllabus. Key Features- Comprehensive Text In Lucid Language- Step-By-Step Explanation Of The Subject Matter- Extensive Use Of Well-Labeled Illustrations To Explain Key Concepts- Wide Range Of Questions For Self-Assessment- Answer Key To Select Questions- Cd-Rom With Additional Questions For Practice And Revision

Biology 11 World Bank Publications

This publication reflects the results of the Ethiopian education reform as well as the exceptional efforts that multiethnic Ethiopia undertakes in order to cope with the challenges arising from the population explosion. More than 55 per cent of the 77 million Ethiopians are under the age of 18 years. The great social and political changes started in Ethiopia at the beginning of the 1990s have resulted in the substitution of the educational system based on Amharic and English by one which uses a multilingual approach. According to the Ministry of Education 22 out of the 84 languages spoken in Ethiopia are now used as media of instruction in primary schools. The book presents the lectures delivered at the workshop "On the Results of the Reform in Ethiopia's Language and Education Policy" held at Addis Ababa University in April 2006 by Ethiopian education experts and a German

research team. Their contribution has facilitated a subsumption into the historical context and has given insight into the analyses of the use of 8 Ethiopian languages in primary schools in different regions of the country.

Revolutionary Struggles and Girls' Education Rowman & Littlefield

This book discusses reforms that should be undertaken in secondary education to support Ethiopia's transition from a low- to middle-income economy. The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students, including those who may not pursue higher education.

Includes special issues.

Discovering Biology Otto Harrassowitz Verlag

Biology Grade 11 is one of the titles in the Save Buk series specially written for the new PNG Upper Secondary courses at Grades 11 and 12. This book gives students concise coverage of the information needed to successfully complete the Grade 11 Biology course. The order of Units in the book follows the order of Units in the Biology Grade 11 syllabus exactly: Unit 11.1 Living Things; Unit 11.2 Nutrition; Unit 11.3 Transport Systems; Unit 11.4 Respiration and Gas Exchange; Unit 11.5 Response to Stimuli; Unit 11.6 Reproduction. Plants, animals and humans are studied within each of the above Units, but coverage of micro-organisms in relation to the topics in the Units above, is given in a separate Supplementary Unit. The

Glossary/Index at the end of the book, explains the specific scientific terminology that students need to learn for the study of Biology.

Math Starters Roedurico Trust

Revolutionary Struggles and Girls' Education: At the Frontiers of Gender Norms in North-Ethiopia argues that at the base of girls' poorer performance than boys at secondary school level when puberty has set in, is the "symbolic violence" entailed in sanctioned femaleness. Informed by the modesty of Virgin Mary in Orthodox Christian veneration, it instructs girls to internalize a "holding back" which impinges on her self-efficacy and ability to be an active learner. Neoliberally-informed educational policies and plans which have co-opted liberal feminism also in Ethiopia, do not address "hard-lived" gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity. Despite women's courageous contribution at a literal "frontier" during the Tigrayan liberation struggle (1975-91) where they fought on equal terms with men, and despite the tendency that girls' outnumber boys at secondary level in the present context, sanctioned femaleness constitutes a "frontier" for girls' educational success and transition to higher education. In fact, when teaching-learning continues to be based on memorization rather than critical thinking, the very transformative potential of education is undermined - also in a gendered sense.
