**Mathematics - Applications and Interpretation** Oxford University Press, USA

Developed in cooperation with the IB, this student-friendly, concept-based Course Book has been comprehensively updated to support all aspects of the new English A: Literature syllabus, for first teaching in September 2019. With in-depth coverage of the new Areas of Exploration, concepts and global concerns, the resource provides a clear and accessible route through the course - from text selection and analysis to assessment. The IB English A: Literature Course Book is available in print, online and as a print and online pack.

**Oxford IB Diploma Programme: IB Theory of Knowledge Course Book** Oxford University Press - Children

A best-seller now available in full colour, covering the entire IB syllabus. This best-selling fifth edition is now available in full colour. It has been written for the IB student and covers the entire IB syllabus, including all the options at both Standard Level and Higher Level. The student-friendly design makes this comprehensive book easy to use and the accessible language ensures that the material is also suitable for students whose first language is not English. It includes: answers to the end-of-chapter questions; worked examples highlighting important results, laws, definitions and formulae; and a glossary of key terms.

**Comprehensive Chemistry** Cambridge University Press  
 Drive achievement in the MYP and strengthen scientific confidence. Equipping learners with the confident scientific understanding central to progression through the MYP Sciences, this text is fully matched to the Next Chapter curriculum. The inquiry-based structure immerses learners in a concept-based approach, strengthening performance. Develop comprehensive scientific knowledge underpinned by rich conceptual awareness, equipping learners with the confidence to handle new ideas Fully integrate a concept-based approach with an inquiry-based structure that drives independent thinking Build flexibility interwoven global contexts enable big picture understanding and ensure students can apply learning to new areas Fully mapped to the Next Chapter curriculum and supports the Common Core Strengthen potential in the MYP eAssessment and prepare learners for IB Diploma

[Oxford IB Diploma Programme: Chemistry Course Companion](#)  
 Oxford University Press, USA

Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. This workbook is specifically for the IB Chemistry syllabus, for examination from 2016. The Chemistry for the IB Diploma Workbook contains straightforward chapters that build learning in a gradual way, first outlining key terms and then providing students with plenty of practice questions to apply their knowledge. Each chapter concludes with exam-style questions. This structured approach reinforces learning and actively builds students' confidence using key scientific skills - handling data, evaluating information and problem solving. This helps empower students to become confident and independent learners. Answers to all of the questions are on the CD-ROM.

[Objective General English](#) Prentice Hall  
 Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. The Second edition of this well-received Coursebook is fully updated for the IB Chemistry syllabus for first examination in 2016, comprehensively covering all requirements. Get the best coverage of the syllabus with clear assessment statements, and links to Theory of Knowledge, International-mindedness and Nature of Science themes. Exam preparation is supported with plenty of sample exam questions, online test questions and exam tips. Chapters covering the Options and Nature of Science, assessment guidance and answers to questions are included in the additional online material available with the book.

**Physics for the IB Diploma Full Colour** Hodder Education

**Chemistry for the IB MYP 4 & 5** OUP Oxford

Fully revised and updated content matching the Cambridge International AS & A Level Chemistry syllabus (9701). Endorsed by Cambridge International Examinations, the Second edition of the AS/A Level Chemistry Coursebook comprehensively covers all the knowledge and skills students need for AS/A Level Chemistry 9701 (first examination 2016). Written by renowned experts in Chemistry, the text is written in an accessible style with international learners in mind. The Coursebook is easy to navigate with colour-coded sections to differentiate between AS and A Level content. Self-assessment questions allow learners to track their progression and exam-style questions help learners to prepare thoroughly for their examinations. Contemporary contexts and applications are discussed throughout enhancing the relevance and interest for learners.

*Higher Level Chemistry* Oxford University Press - Children  
 This comprehensive and engaging text, developed in cooperation with the IB, follows the new curriculum for first assessment in 2022. With accessible, engaging lessons students will actively relate economics to real-world issues and the global economy. The international examples and case studies encourage students to analyse economics in terms of present-day challenges and concerns. Conceptual links are provided to help students understand the over-arching big questions that relate economics to the multi-faceted challenges of the world economy including how it works and changes over time. Through inquiry-based tasks and links to TOK and ATL activities students will gain a deep understanding of economics. Practice activities will develop the skills required to succeed in the IB assessment including exam-style questions and data response questions. Clear explanations will help students achieve assessment success. About the Series: Oxford's IB Diploma Course Books are essential resource materials designed in cooperation with the IB to provide students with extra support through their IB studies. Course Books provide advice and guidance on specific course assessment requirements, mirroring the IB philosophy and providing opportunities for critical thinking.
