Papers in ITJEMAST 11(8) 2020 BFC Publications

Started in 1958, Sanathana Sarathi is a monthly magazine devoted to Sathya (Truth), Dharma (Righteousness), Shanti (Peace) and Prema (Love) - the four cardinal principles of Bhagawan Baba's philosophy. It is published from Prasanthi Nilayam (the Abode of Highest Peace) and acts as a mouthpiece of Baba's Ashram as it speaks of the important events that take place in His sacred Abode, besides carrying Divine Messages conveyed through Divine Discourses of Bhagawan Sri Sathya Sai Baba. The word meaning of Sanathana Sarathi is the 'Eternal Charioteer'. It signifies the presence of the Lord in every being as the atma guiding

their lives like a charioteer. It implies that he who places his life, the body being likened to a chariot, in an attitude of surrender in the hands of the Lord, will be taken care of by the Lord even as a charioteer would take the occupant of his chariot safely to its destination. The magazine is an instrument to disseminate spiritual knowledge for the moral, physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal. The fifteen Vahinis - streams of sacredness - known as the Vahini Series comprising annotation and interpretation of the Upanishads and other scriptures, Itihasas like the Ramayana, the Bhagavatha and the Mahabharata, and authentic explanations on Dhyana, Dharma, Prema, etc., have been serially published in this magazine as and when they emanated

from the Divine pen of Bhagawan Baba. This magazine is published in almost all Indian languages, English and Telugu from Prasanthi Nilayam and others from respective regions. Every year Sanathana Sarathi comes out with a special issue in November commemorating the Divine Birthday. The English and Telugu magazines are posted on the 10th and 23rd respectively, of every month, from Prasanthi Nilayam. This magazine has wide, ever increasing circulation in India as well as abroad, as the study of it brings the reader closer to the philosophy of the Avatar in simple understandable language THUS SPAKE SAI... Discoursing during the launch of Sanathana Sarathi... From this day, our Sanathana Sarathi will lead to victory the cohorts of truth - the Vedas, the Sastras and similar scriptures of all faiths, against the forces of the ego such as injustice, falsehood, immorality and

cruelty. This is the reason why it has emerged. This Sarathi will fight in order to establish world prosperity. It is bound to sound the paean of triumph when universal Ananda is achieved.

Contemporary Advances in Science and Technology Vol-II S. Chand Publishing

This edited volume breaks new ground and opens up new perspectives by capturing the role played by claims to authenticity in populist discourses in Brazil, India and Ukraine. By conceiving of both triumphant populism and increasing demands for authenticity as expressions of crisis, the volume seeks to satisfy the need to take a closer look at yearnings for orientation in a globalised world that is often associated with rapid social change and the disappearance of old certainties. Starting from the assumption that media play a crucial role for populist discourses of authenticity, the volume moves beyond conventional and social media by expanding its focus to media in formal education, notably school textbooks and curricula. These two particular media formats lastingly shape younger generations and thus the future. The proposed volume adopts global perspectives from three postcolonial countries that are often beyond the scope of studies dealing with populist discourses and media entanglements – insights that contribute new aspects to international scholarly debates.

Words of Worth is an attempt by 25 amazing writers, who have given their best of diction to prove the title of book.

Enzyme Technology Springer Nature SGN. The book covers all sections of the exam.

Ideology and Hegemony of English Foreign Language Textbooks Springer Nature

This volume investigates ideological and hegemonic practices in globally and locally written English as a Foreign Language (EFL) textbooks, and explores whether these textbooks reflect the values, beliefs and norms of the native-speaker society by examining their ideological components and the hegemonic practices by means of which the source society or state seeks to influence learners of the language. It also attempts to clarify EFL teachers' and students' views on the underlying ideology and hegemonic practices in globally and locally written EFL textbooks. Studies on the relationship between ideology, hegemony and textbooks in applied linguistics have become more prevalent in recent decades, as the emergence of critical theory, critical pedagogy, and critical thinking skills from the 1920s onwards has led scholars to adopt a more critical perspective towards EFL textbooks, especially with regard to elements of ideology and hegemony. These two terms encompass a plethora of components, ranging from nationalism to religion. At the same time, the importance of metanarratives originating from the tenets of modernism has declined from the 1960s onwards, the assumption being that the world has entered a new age called postmodernism and post-structuralism that emphasizes the role of individuals and rejects efforts to reinforce post-colonialism, the effects of which can be seen in EFL textbooks. Accordingly, taking the elements of ideology and hegemony into account remains a vital aspect in the analysis of EFL textbooks.

Pratiyogita Darpan Lulu.com

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic

science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
