Frightened, she tries to flee only to discover that nobody can see her, touch her, or help her... Alisik is dead. Worse, she is trapped between worlds, between hell and paradise, awaiting a judgement which is slow to come. "A sad and sweet allegory for teenage isolation, Alisik has the look of a Tim Burton fable, but a strange morality that's all its own." – Edie Nugent, *The Comics Beat* "A charmingly beautiful foray into the afterlife... a mixture of Tim Burton, Stephen Gammell, Wang Zhijie, and Mark Ryden." – Jonathan Barkan, *Dread Central*

The campaign in the United States during the 1940s and 1950s to rid comic books of their violent content, and often-times to obliterate the medium itself, had far-reaching and deeply felt reverberations. Spearheaded by moralists, educators, politicians, and psychiatrist Dr. Fredric Wertham, anti-comics crusades led to book burnings, town meetings, periodical discourses, and the draconian Comics Code, recognized as the most oppressive act of self-censorship in this country's history. At issue was the possible link between comic books and juvenile delinquency, although then-current concerns about communist infiltration, lowered educational levels, and moral decay also crept into the arguments.

But the returning sister knew this was coming—it is how their relationship has always worked. And this time, she's determined that that will change. But our plans don't always hold up to the surprises presented by life—and when the sister finds herself about to drift into an affair with Ines's lover, the two women grow unexpectedly closer. *The Hour Between Dog and Wolf* is a tale of disorientation in a modern, fundamentally rootless society that has become increasingly erratic and self-absorbed—it is a powerful exploration of the difficulties of intimacy and addiction.

Enter once more the world of Roland Deschain—and the world of the Dark Tower...now presented in a stunning graphic novel form that will unlock the doorways to terrifying secrets and bold storytelling as part of the dark fantasy masterwork and magnum opus from #1 New York Times bestselling author Stephen King. "The man in black fled across the desert, and the gunslinger followed." With these unforgettable words, millions of readers were introduced to Stephen King's iconic character Roland Deschain of Gilead. Roland is the last of his kind, a "gunslinger" charged with protecting whatever goodness and light remains in his world—a world that "moved on," as they say. In this desolate reality—a dangerous land filled with ancient technology and deadly magic, and yet one that mirrors our own in frightening ways—Roland is on a spellbinding and soul-shattering quest to locate and somehow save the mystical nexus of all worlds, all universes: the Dark Tower. Now, in the graphic novel series Stephen King's *The Dark Tower: Beginnings*, originally published by Marvel Comics in single-issue form and creatively overseen by Stephen King himself, the full story of Roland's troubled past and coming-of-age is revealed. Sumptuously drawn by Jae Lee and Richard Isanove, plotted by longtime Stephen King expert Robin Furth, and scripted by New York Times bestselling author Peter David, *Beginnings* is an extraordinary and terrifying journey into Roland's origins—ultimately serving as the perfect introduction for new readers to Stephen King's modern literary classic *The Dark Tower*, while giving longtime fans thrilling adventures merely hinted at in his blockbuster novels. It has been nine years since the fall of Gilead, and the handful of survivors—proud young gunslingers led by Roland Deschain—have been flushed out beyond their homeland's boundaries, where they can only watch as time continues to take its toll. For time is now a cruel instrument of violence ruled by "the Good Man" John Farson and his monstrous followers, who are making their move to dominate all of Mid-World itself. But despite the forces of the Affiliation having long been broken apart, there is still rebellion left in the heart of Roland and his katet. With treachery abounding everywhere and the odds overwhelmingly against him, it is time for Roland to make his last stand for all that is good and face John Farson and his corruption of Mid-World head-on—even if he dies trying....

Using an array of media, from found photography, gouache and charcoal on paper and silkscreen to assemblage and installation, acclaimed New York-based artist Adam Helms (born 1974) explores social and military conflict and the continuities between past and present instances of injustice. Helms draws heavily on found imagery (such as online images or photographs from library archives), frequently superimposing contemporary images and drawings upon them to establish both the eerie remoteness and the relevance of the past. This volume, the artist's first monograph, consists of full-page color spreads of installation views and details of the artist's oeuvre from 2007 to the present, as installed at institutions such as The Walker Art Center, Minneapolis; Sister, Los Angeles; The Museum of Contemporary Art, Denver; Grimm Gallery, Amsterdam and Marianne Boesky Gallery, New York.

Franz Polzer is a man who is dominated by irrational fears; even a friendly smile seems to conceal a hidden menace. He keeps the world at bay by organising his life according to the meticulous routine of his work as a bank clerk. He even rejects promotion because it brings the unknown that will threaten to upset his ordered existence. But this precarious order is disturbed by the sexual demands of his landlady. Once the first breach has occurred, he is dragged inexorably down into an abyss of degradation which ends in a grisly murder. The horror of Polzer's fall is emphasised by the matter-of-fact sobriety of Ungar's narrative style. For Stefan Zweig, *The Maimed* was wonderful and horrible, captivating and repulsive, unforgettable, although one would be glad to be able to forget it. *Beyond the Blue Border* W. W. Norton & Company

Artists working in a variety of western European nations have overturned the dominant traditions of comic book publishing as it has existed since the end of the Second World War, seeking instead to instill the medium with experimental and avant-garde tendencies commonly associated with the visual arts. This book addresses this transformation.

Hanna and Andreas will do anything to leave oppressive East Germany behind. There's one escape route open to them, but can they survive it? Hanna and Andreas have always been friends. When they're expelled from school for activism directly challenging the socialist state in East Germany, they end up doing factory work. But what kind of life do they have to look forward to without education or opportunity? Especially when they aren't allowed a voice? The choice to risk imprisonment or death by escaping to the democratic West seems like a risk worth taking. They set out to swim twenty-five hours across the choppy waters of the Baltic Sea. Linke's storytelling achieves a delicate balance between heightened moments of danger--searchlights, jellyfish, a

Russian helicopter, a violent summer storm--and the monotony, ineffable fatigue, physical pain, cramping, fear, and hope that fill the rest of the journey. A memorable tale of two people risking all for a chance at freedom.

"Reduce, Reuse, Recycle, and Recover" is the sustainable guideline that has replaced the "Take, Make, Waste" attitude of the industrial age. Based on their background at the ETH Zurich and the Future Cities Laboratory in Singapore, the authors provide both a conceptual and practical look into materials and products which use waste as a renewable resource. This book introduces an inventory of current projects and building elements, ranging from marketed products, among them façade panels made of straw and self-healing concrete, to advanced research and development like newspaper, wood or jeans denim used as isolating fibres. Going beyond the mere recycling aspect of reused materials, it looks into innovative concepts of how materials usually regarded as waste can be processed into new construction elements. The products are organized along the manufacturing processes: densified, reconfigured, transformed, designed and cultivated materials. A product directory presents all materials and projects in this book according to their functional uses in construction: load-bearing, self-supporting, insulating, waterproofing and finishing products.
