The time of Carnival represents a “wild” time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear

assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.

Giuseppe Garibaldi, the Italian revolutionary leader and popular hero, was among the best-known figures of the nineteenth century. This book seeks to examine his life and the making of his

cult, to assess its impact, and understand its surprising success. For thirty years Garibaldi was involved in every combative event in Italy. His greatest moment came in 1860, when he defended a revolution in Sicily and provoked the collapse of the Bourbon monarchy, the overthrow of papal power in central Italy, and the creation of the Italian nation state. It made him a global icon, representing strength, bravery, manliness, saintliness, and a spirit of adventure. Handsome, flamboyant, and sexually attractive, he was worshiped in life and became a cult figure after his death in 1882. Lucy Riall shows that the emerging cult of Garibaldi was initially conceived by revolutionaries intent on overthrowing the status quo, that it was also the result of a collaborative effort involving writers, artists, actors, and publishers, and that it became genuinely and enduringly popular among a broad public. The book demonstrates that Garibaldi played an integral part in fashioning and promoting himself as a new kind of “charismatic” political hero. It analyzes the way the Garibaldi myth has

been harnessed both to legitimize and to challenge national political structures. And it identifies elements of Garibaldi's political style appropriated by political leaders around the world, including Mussolini and Che Guevara.

The Story of Vajont Simon and Schuster

As seen in the New York Times Book Review. Set in the passionate, intense, and crumbling neighborhood known as the Spanish Quarter of Naples, comes a tale of two students searching for love and belonging in the city they so desperately want to call home. Years after leaving Naples with a broken heart, Heddi receives an email from her first love. Although she now lives in New Zealand, just the thought of the Spanish Quarter's narrow, winding streets sparks the pain of longing. Heddi had found her place in that city built on Roman ruins and set against a sleeping

volcano. A place she wants to call home despite being l'americana or the American. For Heddi's group of university friends, Naples is either a refuge from their familial responsibilities or an entryway to a wider world. But for all of them, Naples was their real university of life: the setting of their unrestrained youth. When Heddi first met Pietro at a party hosted by her bohemian roommates, she was inexplicably drawn to the serious geology student. Despite coming from wildly different backgrounds—Heddi, a nomadic American; Pietro, an Italian farm boy—the two fell into a liberating romance. She was searching for the roots she never had, while he tried to escape his. Yet even after the two were doomed to part ways, their story isn't finished just yet. Inspired by her own 10-year search for belonging in Naples, author Heddi Goodrich gives readers a passionate tale of a life caught between two worlds and a heartfelt ode to first love—of a place, of a person— where languages and cultures collide while dreams soar

and crash in unexpected ways.

Il grande libro della divinazione. 50 tecniche

per predire il futuro con illustrazioni e spiegazioni pratiche

Scholastic UK
The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. Economy of the Unlost begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre-

and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences-- Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

The explosive novel of Italy's revolutionary 1969 It was 1969, and temperatures were rising across the factories of the north as workers demanded better pay and conditions. Soon, discontent would erupt in what became known as Italy's Hot Autumn. A young worker from the impoverished south arrives at Fiat's Mirafiori factory in Turin, where his darker complexion begins to fade from the fourteen-hour workdays in sweltering industrial heat. His bosses try to withhold his wages. Our cynical, dry-witted narrator will not bend to their will. "I want everything, everything that's owed to me," he tells them.

"Nothing more and nothing less, because you don't mess with me." Around him, students are holding secret meetings and union workers begin halting work on the assembly lines, crippling the Mirafiori factory with months of continuous strikes. Before long, barricades line the roads, tear gas wafts into private homes, and the slogan "We Want Everything" is ringing through the streets. Wrought in spare and measured prose, Balestrini's novel depicts an explosive uprising. Introduced by Rachel Kushner, the author of the best-selling *The Flamethrowers*, *We Want Everything* is the incendiary fictional account of events that led to a decade of revolt.
