The death of Ernest Hemingway in 1961 ended one of the most original and influential careers in American literature. His works have been translated into every major language, and the Nobel Prize awarded to him in 1954 recognized his impact on contemporary writing. While many people are familiar with the public image of Hemingway and the legendary accounts of his life, few knew him as an intimate. With this collection of letters, presented for the first time as a Scribner Classic, a new

Hemingway emerges. Ranging from 1917 to 1961, this generous selection of nearly six hundred letters is, in effect, both a self-portrait and an autobiography. In his own words, Hemingway candidly reveals himself to a wide variety of people: family, friends, enemies, editors, translators, and almost all the prominent writers of his day. In so doing he proves to be one of the most entertaining letter writers of all time. Carlos Baker has chosen letters that not only represent major turning points in Hemingway's career but also exhibit character, wit, and the writer's typical enthusiasm for hunting, fishing, drinking, and eating. A few are ingratiating, some downright truculent. Others present his views on writing and reading, criticize books by friend or foe, and discuss women, soldiers, politicians, and prizefighters.

Perhaps more than anything, these letters show Hemingway's irrepressible humor, given far freer rein in his correspondence than in his books. An informal biography in letters, the product of forty-five years' living and writing, Ernest Hemingway: Selected Letters leaves an indelible impression of an extraordinary man. Ernest Hemingway was born in Oak Park, Illinois, in 1899. At seventeen he left home to join the Kansas City Star as a reporter, then volunteered to serve in the Red Cross during World War I. He was severely wounded at the Italian front and was awarded the Croce di Guerra. He moved to Paris in 1921, where he devoted himself to writing fiction, and where he fell in with the expatriate circle that included Gertrude Stein, F. Scott Fitzgerald, Ezra Pound, and Ford Madox Ford. His novels include *The Sun Also Rises* (1926), *A Farewell to Arms* (1929), *To Have and Have Not* (1937), *For Whom the Bell Tolls* (1940), and *The Old Man and the Sea* (1952). He was awarded the Nobel Prize for literature in 1954. He died in Ketchum, Idaho, on July 2, 1961.

Codification of Statements on Auditing Standards Jason Daniel Kilhoffer

Since 1789, when George Washington became the first president of the United States, forty-three men have held the nation's highest office. Four were killed by assassins, and serious attempts were made on the lives of eight others. Add to that list Martin Luther King, Jr. and Malcolm X, and it is reasonable to conclude that political prominence in the U.S. entails grave risks. In *Defining Danger*, James W. Clarke explores the cultural and psychological linkages that define assassinations and a new era of domestic terrorism in America. Clarke notes an upsurge in political violence beginning with the assassination of John F.

Kennedy in 1963. Since then, there have been ten assassination attempts on nationally prominent political leaders. That is two more than the eight recorded in the previous 174 years of the nation's presidential history. New elements of domestic terror in American life were introduced in the 1990s by Timothy McVeigh, the "Oklahoma City Bomber," Ted Kaczynski, the "Unabomber," and Eric Rudolph, the abortion clinic bomber. These men were politically motivated; their crimes were unprecedented. These events and the perpetrators behind them are among the subjects of this book. *Defining Danger* conveys two central themes. The first is that individual acts of violence directed toward America's democratically elected leaders represent a defining element of American politics. The second addresses how danger is defined, through an analysis of the motives and characteristics of twenty-one perpetrators responsible for these acts of political violence where shots were fired, or bombs detonated, and in most instances, victims died. The book is written in an accessible and engaging style that will appeal to the informed general reader, as well as to professionals in a variety of fields—especially in the wake of recent events and the specter of future violence that, sadly, haunts us all.

*Incompatible with God's Design* is the first comprehensive history of the Roman Catholic women's ordination movement in the United States. Mary Jeremy Daigler explores how the focus on ordination, and not merely "increased participation" in the life and ministries of the church, has come to describe a broad movement. Moving well beyond the role of such organizations as the Women's Ordination Conference, this study also addresses the role of international and local groups. In an effort to debunk a number of misperceptions about the movement, from its date of origin to its demographic profile, Daigler explores a vast array of topics. Starting with the movement's historical background from the early American period through the early twentieth century to Vatican II and afterward, she considers the role of women (especially Catholicism's more religious adherents) in the movement's evolution, the organization of the ordination movement in the United States, the role and response of clergy and Vatican teachings, the reality of international influences on the U.S. movement, and the full range of challenges—past and present—to the ordination movement. *Incompatible with God's Design* is compelling reading for any student of theology and women's studies, as well as those interested in staying abreast with the changing role of women within the U.S. Roman Catholic Church.

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of

practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

In 1983, following a military dictatorship that left thousands dead and disappeared and the economy in ruins, Raúl Alfonsín was elected president of Argentina on the strength of his pledge to prosecute the armed forces for their crimes and restore a measure of material well-being to Argentine lives. Food, housing, and full employment became the litmus tests of the new democracy. In *Search of the Lost Decade* reconsiders Argentina's transition to democracy by examining the everyday meanings of rights and the lived experience of democratic return, far beyond the ballot box and corridors of power. Beginning with promises to eliminate hunger and ending with food shortages and burning supermarkets, Jennifer Adair provides an in-depth account of the Alfonsín government's unfulfilled projects to ensure basic needs against the backdrop of a looming neoliberal world order. As it moves from the presidential palace to the streets, this original book offers a compelling reinterpretation of post-dictatorship Argentina and Latin America's so-called lost decade.

In little over a century, the Pentecostal movement has emerged from small bands of revival seekers to become one of the largest Christian groups in the world. Primarily a movement within Western Christianity for much of its brief history, it is increasingly

characterized as a global movement. Pentecostal theology and ministry in a Western context must engage global Pentecostalism and be willing to rethink its traditional patterns of thought and practice in light of the evolving nature of the movement. The essays in this book come mainly from the McMaster Divinity College 2008 Pentecostal Forum: "The Many Faces of Pentecostalism: Pentecostalism and Globalization." The first section outlines the nature of globalization and establishes it as the context for contemporary Pentecostal theology and ministry. The other contributions explore the impact of globalization on traditional areas of Pentecostal theology, such as Spirit baptism and speaking in tongues, and twenty-first-century Pentecostal ministry.

Would it surprise you to know that New Testament scholars, missiologists, and church-planting authorities cannot agree on how to define tentmaking, whether or not the church should be practicing it today, or even why Paul did it in the first place? It's true. In *Tentmaking*, the widespread confusion and overall disagreement within the church regarding Paul's self-support are exposed. Commonly held assumptions are removed from their entrenched positions and myths are debunked. In their place, *Tentmaking* offers an unadorned yet powerfully convincing presentation of Paul's own self-disclosed reasons for intentionally selecting to support himself in some ministry contexts, but not others. This well-researched book provides answers to crucial questions that currently surround tentmaking, as well as a practical guide intended to lead to the recovery of biblical

tentmaking within the church. Readers who pick up this book should be prepared to embark on an engrossing journey that will reward them with clarity on the often-misunderstood topic of Paul's tentmaking.
