Routledge  
Now long out  
of print, John  
Dunning's  
Tune in  
Yesterday was  
the definitive  
one-volume  
reference on

old-time radio  
broadcasting.  
Now, in *On the  
Air*, Dunning  
has  
completely  
rethought this  
classic work,  
reorganizing  
the material  
and doubling  
its coverage,  
to provide a  
richer and  
more

informative  
account of  
radio's golden  
age. Here are  
some 1,500  
radio shows  
presented in  
alphabetical  
order. The  
great  
programs of  
the '30s, '40s,  
and '50s are  
all here--Amos  
'n' Andy,

Fibber McGee and Molly, The Lone Ranger, Major Bowes' Original Amateur Hour, and The March of Time, to name only a few. For each, Dunning provides a complete broadcast history, with the timeslot, the network, and the name of the show's advertisers. He also lists major cast members, announcers, producers, directors, writers, and sound effects people--even the show's theme song. There are also

umbrella entries, such as "News Broadcasts," which features an engaging essay on radio news, with capsule biographies of major broadcasters, such as Lowell Thomas and Edward R. Murrow. Equally important, Dunning provides a fascinating account of each program, taking us behind the scenes to capture the feel of the performance, such as the ghastly sounds of

Lights Out (a horror drama where heads rolled and bones crunched), and providing engrossing biographies of the main people involved in the show. A wonderful read for everyone who loves old-time radio, *On the Air* is a must purchase for all radio hobbyists and anyone interested in 20th-century American history. It is an essential reference work for libraries and radio stations.

Dorling Kindersley Ltd  
Major Tim Andrews is

stationed at a top-secret facility on the outskirts of Fort Bragg, North Carolina. Thomas Edison and his attending physician, Dr. Hubert S. Howe, co-invent the time accelerator. Almost 100 years after President Woodrow Wilson legalizes time travel, the Department of Inquiry assigns the Edison Project (specific topics of interest) to research both past and

future events, which are detailed in a highly classified government report. With it, the USG (United States Government) now holds over its citizens the key to ultimate power and control: their destiny!
