Here is a book to change your life. It is a method for losing weight through positive thinking and the changing of attitudes toward life and food. "This, of course, is no ordinary 'diet' book... This is an extraordinary approach to weight loss--a diet of forgiveness, a fast from negative thought--and if followed one can achieve bodily perfection. The theory is simple. Though we might think it is our negative eating habits that have kept us unattractive and unhealthy, it is really our negative thoughts and feelings. It is the latter we must change for that is what is aging and killing us. If we do... we drop our fat as well, for the same mechanism that holds on to negative thoughts and feelings holds on to fat." --from the Preface

Nothing is hotter than desire . . . Raised as an army brat, bush pilot Lyndie Anderson has always been independent-and alone. Living only for her plane and the open sky, she eagerly rushes to help save the people of a small Mexican town from a raging wildfire. Yet when her cargo is a drop-dead gorgeous fireman, Lyndie suddenly feels a burning desire-one that may ground her for the first time in her life. Firefighter Griffin Moore has been haunted by the loss of his crew in an Idaho inferno. Scarred by survivor's guilt, he became a recluse who hid himself away from working-or being close to anyone. But when his brother convinces him to volunteer for another fire, he encounters a brave, beautiful woman who sparks a simmering passion. Now in the hot, dangerous conflagration of the Mexican jungle, Griffin and Lyndie must discover a way to rescue a town-and a love that may save them . . . (84000 words)

Poultry production continues to make tremendous advances. This thoroughly revised fifth edition of Scanes' seminal, comprehensive text presents students and professionals alike with valuable, research-based material relevant to all stages of a poultry career. Areas covered include global and commercial poultry production; poultry business organization; and production of meat chickens (broilers), turkeys, eggs, ducks, geese, game birds, and other poultry. Other chapters cover the fundamental science behind production: poultry biology, genetics, behavior, diseases/health, housing, ventilation, and processing. New or greatly expanded sections cover biosecurity; poultry stress/welfare; feed additives; food safety; incubation; controlling pests; poultry waste and environmental issues; brooding; and organic, free-range, and niche poultry production. "Points for Discussion" and "Deeper Dive" sections highlight key examples and provide further context and empirical data for critical areas in poultry production, giving students a first-hand look at issues in both small and large operations. The book concludes with an in-depth, invaluable chapter on applying for internships and positions for the start of a successful career.

History of the University of North Carolina Heinle & Heinle Publishers

De Re Aedificatoria, by Leon Battista Alberti (1404-1472), was the first modern treatise on the theory and practice of architecture. Its importance for the subsequent history of architecture is incalculable, yet this is the first English translation based on the original, exceptionally eloquent Latin text on which Alberti's reputation as a theorist is founded.
