How to Make Colorful

Aromatic Healing Candles Learn to Make Naturally Colorful & Aromatic Candles At Home There are plenty of books on the marketplace that show you how to make candles at home. Making candle is not a rocket science, with just a handful of ingredients you can make a variety of candles right at home. But there is no such book that shows you how to make your homemade candles dazzle with vibrant colors and has a truly sensual aroma that tickles all your senses. Your creation will be like no other homemade candles, candles that stand out among every other candle not only for their vibrant and lush colors but for their aromatic healing scent

that is as natural and healing as pure essential oil. Yes! In this book, my primary goal is to show you the ways you can make your home creations vibrantly colorful and uniquely aromatic that all your senses would wake up and salute your creativity. Most importantly, your creations will stand out among all the other home-based candle makers, and everyone will be able to identify your unique blend of rich colors and aroma. Anyone can learn and make candles at home in just a few hours, but if you are planning to sell your candle at the local craft store or make gift baskets or even trying to build a brand around it, don't you want your creation to be unique that when people see them, smell

them they will know right away that is yours and yours only? Think about a brand such as Armani or Angel, when you smell their perfume; you may identify them right away by their name. Similarly, when you see a Burberry scarf or a handbag, you will know right away that it is a Burberry right? How? Because they have something unique about their look or aroma. In candle making, we are lucky; we don't have to pick one or the other, we can have both aroma and color to make our own candles uniquely distinguish and different from the rest. Once you achieve that uniqueness, you just created a brand all for yourself. Adding color or adding scents to your candle is an art

and in this book, I show you how to be that artist. It is not a rocket science, as long as you follow through my guide and learn the basics of color wheels and the essential oil and how they act and react with each other, you will become the master candle crafter. This Book Is Divided Into Three Parts. In Part -1: I start with the basics of candle making using popular methods. I show you step by step candle making process at home. I also show you the ingredients and the equipment you will need to get started and lastly I shared a few basic candle making recipes. In Part -2: I show you how to add rich and lush colors to your soap. This part is where the fun starts. Pay attention to the

color wheel images so you can visualize various colors. You will learn how to add color from all natural herbs, plants, and other naturally sourced ingredients. This is also where you will learn, how to mix and match colors and how to create various color combinations. In Part -3: In this last part, my goal is to show you how to make your candle smell heavenly. We will do it all with all natural and therapeutic healing essential oil and other natural herbs only, no artificial stuff here. This is the section where you will learn what goes into what and what does not. Once you understand the basics, then you can create your own unique scent that is identifiable as yours only. Bonus

The Complete Book of Candles Lark Books

Candle making dates back to early America, and was created mainly as a necessity for light. Today we enjoy watching the flickering light from our candle, and are relaxed by the soothing aroma that fills the room. My desire to create candles began years

ago when we had our cabin "Up North." Our neighbor raised bees, which consequently lead to my interest in the bee hive and all its natural contents. My task began by melting the pieces of bee hive in a pot of water. After the wax cooled, I was amazed to find a thick layer of golden colored wax floating on the top. The air was filled with this great honey scented aroma. A new hobby was born.

Candle making supplies were hard to come by, and that necessitated some creative thinking and lots of trial by error. I documented my success, and began my quest for unique supplies that could be utilized for molds. The books that were available required you to purchase expensive

molds to complete your candle project. My book shows you that you can utilize supplies for molds that you probably already have around your house, or you can find what you need at a garage sale. In this book each step-by-step instruction is written so that any novice can be successful with each of my 29 candle projects. I encourage each of you to be creative by using your own ideas

for molds, not just limit yourself to my ideas. You will find that you will now look at jars, cans, or cups dreaming of how they can be used as a mold. Cathy's Candles will teach you to "Create Candles by Reusing & Recycling." Through this book I hope to inspire people to explore the joys and rewards of candle making and to keep the tradition of candle making alive!
