Study Material Based on NCERT English

Class- XII CBSE NET PAPER I

Creativity and critical thinking are key skills for complex, globalised and increasingly digitalised economies and societies. While teachers and education policy makers consider creativity and critical thinking as important learning goals, it is still unclear to many what it means to develop these skills in a school setting. To make it more visible and tangible to practitioners, the OECD worked with networks of schools and teachers in 11 countries to develop and trial a set of pedagogical resources that exemplify what it means to teach, learn and make progress in creativity and critical thinking in primary and secondary education.

Children are naturally inquisitive and eager to explore and learn about the world around them. It is important for their guardians, both Parents and Teachers, to satisfy their queries, and that too, in such a way that the children are able to understand and comprehend the concepts as well as learn from them. Also, there exists a gap in the level of information and knowledge provided to the children by the Parents vs. that provided by their Teachers.

Discrepancies might also exist in the methodology(ies) through which the

information and knowledge is relayed. This increases the possibility that the children might either not understand the concept clearly or become confused about the correct interpretation of the concepts. With these objectives in mind, and to build connectivity between the teaching methodologies by Parents and Teachers, we at Oswaal Books, have come up with this Manual for Teachers and Parents. Some benefits of using this manual are:

- It aims to aid the Teachers and Parents in simplifying the concepts studied by children as a part of their curriculum
- It equips the parents and teachers to enable the children to understand the subjects, and also evaluate their measure of understanding and creativity.
- It includes Learning and Understanding Aids along with a Lesson Plan for each Chapter
- It demonstrates Effective Teaching Techniques
- It also gives various Propositions for Step-wise Learning and Building up of Concepts

IMPORTANT FEATURES OF THE BOOK:

Strictly based on latest NCERT Textbook
The manual is based on the latest NCERT Textbook 6 Exploratory Learning objectives These provide explicit instructions to parents and teachers to teach their wards Effective Teaching Techniques The manual has tried and tested teaching techniques for higher success rate

WHAT THIS BOOK HAS FOR YOU: Lesson Plan for each Chapter This provides clarity and direction to the users Tabulated and Categorised information This helps in creating and effectively executing the lesson plan 5Es of Learning This Manual is based on the 5 Es of Learning: Engage, Explore, Explain, Elaborate & Evaluate About Oswaal Books: We feel extremely happy to announce that Oswaal Books has been awarded as 'The Most Promising Brand 2019' by The Economic Times.

Taxonomy-- 'Classification, esp. of animals and plants according to their natural relationships...' Most readers will have heard of the biological taxonomies which permit classification into such categories as phylum, class, order, family, genus, species, variety. Biologists have found their taxonomy markedly helpful as a means of insuring accuracy of communication about their science and as a means of understanding the organization and interrelation of the various parts of the animal and plant world.

As the title reflects, this non-fiction book penned by Sumathi Kulkarni is an expression of thoughts and ideas mirroring the environment and our experiences. They are universal in nature and represent an outpouring of emotions, thoughts, facts and sensitivities at different levels. The author talks about simplicity of children and education in contrast to the present complex system that complicates a child's mind. She also reflects the practical importance of English as a global language. The idea is to empower teachers frequently with introduction of skills through workshops as reinforcement as well as strengthen and refine the skills of the teacher community.

Study Guide for CTET Paper 1 (Class 1 - 5 teachers) with Past Questions 4th Edition Oswaal Books and Learning Private Limited

Teachers possess a wealth of untapped wisdom and valuable experience. Whether it's in matter of educational policy, curriculum development or textbook selection, teachers carry a trove of information and insights to share. Traditionally, teacher development has been driven by administrators of schools, and it often takes the form of a 'mentor' teaching the staff of a school. But what happens when teachers across different locations collaborate and learn together? This volume documents such an initiative, sparked off by the Covid-19 pandemic, which brought people together online. It underscores the power of teachers debating, discussing, and learning from each other. Based on an Indian experience, the book addresses a range of issues teachers and educators face across the world — encompassing pedagogy, classroom management, school culture and teacher development. A unique story of community building and teacher education, this book also contains key outcomes and insights which take us through their action research projects and showcases a

model of teacher development that can be adopted by interested readers. Above all, it brings out the crying need for a teacher's voice to be heard — for far too long, teachers have been mere implementers of decisions taken by policy makers or managements of schools. By means of networking communities such as the one described in this book, the transformation of teachers going from whispers to resonance is greatly amplified. An important intervention in the domain of teacher development, this volume will be of great interest to students, researchers and practitioners of education, teacher education, and sociology of education. It will also be useful for teacher trainees, academicians, teacher educators,

policymakers, schoolteachers, curriculum developers, teacher training institutes, and universities offering teacher education programs.
