The Trumpet Courier
Corporation
This famous "Trumpet
Tune and Air" was

originally written for keyboard but seems like it was meant for a more grand orchestration! The somber, minor Air is sandwiched between the celebratory Trumpet Tune. The repeats have been removed on the return to the Trumpet Tune as the work drives to a joyous conclusion.

Baroque & Classical Trumpet Concertos

Alfred Music

The trumpet has always maintained a central role in the jazz genre. However, throughout the history of chamber music the trumpet was overlooked until the mid-twentieth century when brass chamber music and mixed chamber ensembles rose to popularity. An

infiltration of the popular American style, jazz, into classical chamber music changed composers' treatment of the trumpet. This thesis focuses on the role and treatment of the trumpet in selected jazz-influenced classical chamber works in order to highlight that the trumpet's prominence in jazz helped to establish its place in twentieth-century chamber music. A brief history of classical brass chamber music and the origins and development of jazz is given. Trumpet performance techniques and compositional practices idiomatic to the different jazz style periods, ranging from ragtime to cool jazz, are given. These

techniques are then traced through selected chamber music works of Stravinsky, Martinù, Schuller, Babbitt, and Wilson. Selected works were chosen based on the degree of jazz influence and are representations of the jazz style period they emulate. A comparison of how classical composers in Europe and the United States viewed the trumpet in jazz, in regards to chamber music, is detailed over the course of the twentieth century.

Some of the passages may be played up an octave where marked. Free audio downloads are available for use with this title.

Further Notes on the Classic Trumpet
(Instrumental Folio).

The First Book of Classical Trumpet offers a selection of 100 melodies from classic repertoire, the result of Andrea Cappellari's many years of research and experience in music teaching. Students of any age will be able to perform melodies by classical composers

from the very first lessons. All 100 short melodies consist of a minimum of three and a maximum of eight notes. Only basic rhythmic note values are used, from the eighth note to the whole note. The pieces are presented in progressive order of difficulty, and are in the most appropriate keys for the instrument. The simple piano accompaniments encourage ensemble playing at a beginner level and the recorded piano accompaniments are an excellent tool for practicing. A few selected melodies also have a second trumpet part as part of the recorded accompaniment. The book also includes a separate instrumental pull-out part. Audio is accessed online using

the unique code inside the book and can be streamed or downloaded. The audio files include PLAYBACK+, a multi-functional audio player

that allows you to slow down audio without changing pitch, set loop points, change keys, and pan left or right.
