Mental Health Disorders in Adolescents provides essential information to help parents, educators, and general practitioners find effective ways to identify and treat psychiatric disorders that many teens face. The first of two reader-friendly sections, "Recognizing the Problem, Finding Help, and

Negotiating the System," is designed to help caregivers navigate the often confusing adolescent mental health system. Readers will find comprehensive information about when and how to seek help and the kinds of treatments that are available, including a detailed discussion of psychiatric medications and psychotherapy options. "Common Psychiatric Problems in Adolescence," the second section, offers information on specific psychiatric disorders, including symptoms and warning signs, diagnostic evaluations, treatment options, prognosis, and associated risks for each disorder. Additionally, Eric P. Hazen, Mark A. Goldstein, and Myrna Chandler Goldstein have compiled two practical appendices-one provides a list of resources, organizations, books, websites, and phone numbers for further information and support. The other serves as a "treatment organizer" to help parents know what school and medical data to bring to a psychiatric evaluation and teach them how to keep track of important discussions related to their child's treatment. By recognizing the early symptoms of a psychiatric disorder, adults may be able to save a teen's life. Mental Health Disorders in Adolescents offers real options to anyone searching for ways to help at-risk teens.

The new edition of Psychiatric and Mental Health Nursing focuses on practice in mental health and psychiatric care integrating theory and the realities of practice. Mental wellness is featured as a concept, and the consideration of a range of psychosocial factors helps students contextualise mental illness and psychiatric disorders. The holistic approach helps the student and the beginning practitioner understand the complex causation of mental illness, its diagnosis, effective interventions and treatments, and the client's experience of mental illness.

Smart. Funny. Fearless."It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented" --Dave Eggers. "It's a piece of garbage" --Donald Trump.

"Schizophrenia" is by many accounts the most devastating illness of our time. In this book, Elahe Hessamfar uses her personal encounter with her daughter's illness to bring the reader to experience the pain and anguish of those who suffer so intensely. She candidly discusses the gripping and dark realities her family has faced in the midst of this journey and exposes that the ride isn't easy, but it can be fruitful and purposeful, and it can be a journey of joy and peace if understood from the intended perspective. This is a fascinating and deeply theological portrayal of madness under the mighty hand of God. It challenges and awakens the reader to a heightened awareness about self, community, pain, brokenness, sin, grace, and redemption. This is the first truly biblically based, theological interpretation of madness in conversation with psychiatry and social sciences. Hessamfar passionately discusses the shortcomings of our current medical model of mental illness and directs the reader's attention to the mistreatment of those the medical community labels with "schizophrenia." She argues that not only is "schizophrenia" not pathological but it touches on the most fundamental fragilities of the human soul, and hence, it is a critical pastoral issue. Hessamfar offers tangible, inspiring, and life-changing solutions for those dealing with this most elusive and mysterious phenomenon--solutions that would bring hope and healing to the hopeless people chained in the abyss of madness.
