Fashion illustration is and always has been about far more than pretty drawings of pretty dresses. This lavish celebration of today's leading artists in the field showcases the timeless craft and amazing diversity that characterize the genre. From David Downton to Cecilia Carlstedt and from Jason Brooks to Jordi Labanda, 28 masters of fashion illustration from across the world are featured, one by one, in a grand tour of the best work currently produced. While some illustrators create daringly bold graphics, others prefer delicate watercolours and ink drawings. Throughout the volume, both hi-tech multimedia effects and traditional drawing skills are given pride of place, with many of the artists using a mixture

of techniques. Lively commentary accompanies the images, while interviews with each illustrator provide further insight into their influences and methods. A source of inspiration for aspiring illustrators, designers and advertising creatives, this gorgeous volume will also catch the eye of fashion lovers and all those who have an interest in contemporary figurative art and visual communication.

Draw Fashion Arcturus Publishing

This book's aim is to submerge the reader in the world of illustration. The first section ranges from how to start to draw a human figure to the techniques to stylize and synthesize it. This section provides a large amount of figures in different poses, as well as hands and feet-often the most difficult parts - in diverse postures and angles. However, in the field of fashion it is also essential to know how to draw fabric, and even more important to know how to draw the folds of clothing. The items of clothing are presented as much in technical drawing as in figures in movement, and forming light and shadow is also explained, as this gives quality to the illustration. The second part of the book revolves around color and the different techniques with which one can work: watercolor, wax, pastel, and so on. All the drawings that appear constitute a brief exhibition of

the changes that the fashion world has experienced and with this in mind a path has been laid which starts in 1900, illustrated in watercolors, and finishes in 2000, illustrated in pencil. The goal of this volume is to uncover the reader's desire to paint and to provide him with some of the secrets that will encourage him to do so. After all, experience is the most effective way to learn, whatever the subject.
