Lives saved. Rights protected. Aris and Phillips Classical Te English summary: Salvatore Romano (1875-1955) was one of the most important art collectors of the early twentieth century. In 1946, as homage to the city that had become his home, he offered his collection to Florence. Romano himself, along with his son, determined the exhibition of the different objects, juxtaposing famous works with pieces by anonymous medieval craftsmen, often from places peripheral to Italy's more noted artistic centers. The detailed descriptions provided in this volume provide a useful guide to the museum and its collection. Appendix with English translation Italian description: Salvatore Romano (1875-1955) fu uno dei massimi cultori d'arte della prima metà del Novecento. Nel 1946 donò a Firenze, la città che lo aveva ospitato fin dal 1924, un nucleo coerente di oggetti, come contributo morale e culturale alle profonde ferite inferte dalla guerra

al paese, in memoria del padre e del paese natio, Meta di Sorrento. Il progetto di allestimento fu pensato dallo stesso collezionista - le cui spoglie sono conservate al centro dell'ambiente in un sarcofago dal coperchio paleocristiano - in collaborazione con il figlio Francesco, accostando opere di artisti di grande fama a manufatti di anonimi medievali, spesso provenienti da luoghi periferici rispetto all'Italia artisticamente più nota. Le dettagliate descrizioni di Serena Pini, Raffaella Calamini e Silvia De Luca accompagnano il visitatore attraverso la collezione. Gli argomenti spaziano dalla vicenda del fondatore alla storia del museo e della sua sede, l'antico Cenacolo di Santo Spirito. Glossario, biografie degli artisti e un ricco apparato arricchiscono il volume. Appendix with English translation *Play and Learn with Mr Green. Per la Scuola Elementare* Random House "Breaching the Bronze Wall deals with the idea that the word of honorable Muslims constituted proof and with the concept that written documents and the word of non-Muslims were

inferior. Foreign merchants in cities like Istanbul, Damascus or Alexandria could barely prove any claim, as neither their contracts nor their words were of any value if countered by Muslims. Francisco Apellániz explores how both groups labored to overcome these 'biases against non-Muslims' in the courts and markets of Mamluk Egypt and Syria of the 14th and 15th centuries, and how the Ottoman conquest (1517) imposed a new, orthodox view on the problem. The book dives into the Middle Eastern archive and the Ottoman *Dīvān*, and scrutinizes the intricacies of sharia and the handling of these intricacies by consuls, dragomans, *qaḍīs* and other legal actors"-- *The Leopard Council of Europe* With a unique focus on the South African experience, this is a comprehensive work on the rules and principles of international law and examines the ways in which they are applied within South Africa. This fourth edition considers both international and South African sources and provides an expanded focus on an array of topics, including secession, immunities of

senior officials for international crimes, diplomatic protection, universal jurisdiction, the responsibility of international organizations, reservations to treaties, the Human Rights Council, the SADC Tribunal, the responsibility to protect, a review of Security Council action, self-defense against terrorism, the definition of aggression in the Statute of the International Criminal Court, the jurisprudence of the International Criminal Court, the African Court of Human Rights, and the protection of civilians in armed conflict. *Silver Economy in the Viking Age* Casa Editrice Tredici Srl

In what ways did the rituals associated with death in Renaissance Florence serve as an indicator of how Florentine society saw itself? In *Death and Ritual in Renaissance Florence*, Sharon Strocchia shows how these death rites - especially civic funerals - reflected Florence's quick rise to commercial wealth in the fourteenth century and steady progression toward displays of princely power in the fifteenth and sixteenth centuries. Strocchia begins by examining the

basic components of civic funerary rites and their symbolic meaning. Taking an interdisciplinary approach, she then traces the changes and continuities of these rites throughout the Renaissance. She shows how the rise of funeral pomp in the late fourteenth century as linked to social mobility, the redistribution of wealth, corporate politics, and the psychology of the post-plague decades. She analyses the impact of "elitism, statism, and civism" on civic and family rites after 1400 and charts the social effects of rising assumption trends. And she focuses on the complex cycles of change stemming from the establishment and rejection Medici control, which by entrenching patrician domination helped pave the way for the Medici principate. "Rather than simply recasting the traditional history of the city," Strocchia writes, "the history of death rites shows us the sheer intricacy of how ritual and society defined each other. These episodes point us toward culture in action: the tangled, dense, and decidedly unstable relations binding

family and state, gender and politics, word and image."

Death and Ritual in Renaissance Florence Edward Elgar Publishing

Che ci fa Cappuccetto Rosso tra le fumose mura della Londra del terzo millennio? Certo, il pericolo per lei non è rappresentato dal lupo cattivo, ma ci sono mille altre insidie in agguato. Come il Cappuccetto Rosso della fiaba, la nostra Ketty sta recandosi da una vecchina per portarle compagnia e conforto. Ma viene avvicinata da un tizio affascinante che, sotto i modi gentili, nasconde delle intenzioni piuttosto

losche. E inizia così la sua avventura che tra emozioni, colpi di scena, non senza un condimento di ironia, giunge ad una conclusione inattesa. Un minitriller da leggere tutto d'un fiato.

The Malice of Herodotus can perhaps best be described as the world's earliest known book review. But it is much more than that, for in the course of 'correcting' with considerable vituperation what he saw as Herodotus' anti-Greek bias, Plutarch tells us much about his own attitude to writing history. So that together with Lucian's How to Write History (see Lucian A Selection in this series) it forms a basic text for the study of Greek historiography. It is also perhaps the most revealing example of Plutarch's prose style with its rhetorical variety and energy and odd mixture of good and bad argument. But in citing lost works, Plutarch has preserved valuable fragments which don't exist elsewhere and need to be assessed by all students of the Persian Wars. Greek text with translation, introduction and commentary.

In the late eleventh century, Sicily - originally part of the Islamic world - was captured by Norman, French and Italian adventurers, led by Roger de Hauteville. For the next 150 years, Roger and his descendants ruled the island and its predominantly Arabic-speaking Muslim population. Jeremy Johns' 2002 book represents a comprehensive account of the Arabic administration of Norman Sicily. While it has generally been assumed that the Normans simply inherited their Arabic administration from the Muslim governors of the island, the author uses the unique Sicilian Arabic documents to demonstrate that the Norman kings restructured their administration on the model of the contemporary administration of Fatimid Egypt. Controversially, he also suggests that, in doing so, their intention was not administrative efficiency but the projection of their royal image. This is a compelling and accessible

account of the Norman rulers and how they related to their counterparts in the Muslim Mediterranean.

Wittgenstein's**Tractatus** Cambridge University Press

These new studies of Wittgenstein's 'Tractatus' represent a significant step beyond recent polemical debate. They cover a wide range of themes, and show that close investigation into the composition of the work, and into the various influences on it, has much to yield in revealing the complexity and fertility of Wittgenstein's early thought.

Focusing on the practices and politics of heritage-making at the individual and the local level, this book uses a wide array of international case studies to argue for their potential not only to disrupt but also to complement formal heritage-making in public spaces. Providing a much-needed clarion call to reinsert the individual as well as the transient into more collective heritage processes and practices, this strong contribution to the field of Critical Heritage Studies offers insight into benefits of the 'heritage from below approach' for researchers, policy makers and practitioners. The Leopard is a modern classic which tells the spellbinding story of a decadent, dying Sicilian aristocracy threatened by

Then comes Garibaldi's landing in Sicily and the Prince must decide whether to resist the forces of change or come to terms with them. 'Every once in a while, like certain golden moments of happiness, infinitely memorable, one stumbles on a book or a writer, and the impact is like an indelible mark. Lampedusa's The Leopard, his only novel, and a masterpiece, is such a work' Independent INCLUDES RECENTLY DISCOVERED NEW MATERIAL 'Perhaps the greatest novel of the century' L.P. Hartley 'The poetry of Lampedusa's novel flows into the Sicilian countryside...a work of great artistry' Peter Ackroyd
