Increasingly under scrutiny, non-Indigenous perceptions of the Beothuk have had especially dire and far-reaching ramifications for contemporary Indigenous people in Newfoundland and Labrador. *Tracing Ochre* reassesses popular beliefs about the Beothuk. Placing the group in global context, Fiona Polack and a diverse collection of contributors juxtapose the history of the

Beothuk with the experiences of other Indigenous peoples outside of Canada, including those living in former British colonies as diverse as Tasmania, South Africa, and the islands of the Caribbean. Featuring contributions of Indigenous and non-Indigenous thinkers from a wide range of scholarly and community backgrounds, Tracing Ochre aims to definitively

shift established perceptions of a people who were among the first to confront European colonialism in North America."--

Library of Alexandria  
When they prepare for college, few candidates take the time to acquire the caliber of recommendation letters they will need to distinguish themselves in a highly competitive applicant pool. This book, which was written by an Ivy League admissions expert, offers detailed advice to write (and get)

persuasive letters that highlight the personal, academic and professional strengths the committee expects to see. It also includes 45 successful recommendation letters for students who have distinguished themselves as scholars, leaders, volunteers, athletes, and performers. Finally, there are also persuasive letters that explain extenuating circumstances in a candidate's

history (such as disappointing grades and a low SAT score). At top colleges, where the competition is fierce, the quality and depth of a candidate's recommendation letters can make the difference between acceptance and rejection. Whether you are an applicant who needs a persuasive letter of recommendation, or someone who has been asked to write one, this

exceptional book is mandatory reading.

Martin's Griffin  
Here is an  
antidote to  
the talk about  
failing schools,  
education  
reform, test  
scores,  
teacher-value,  
curricular  
controversies,  
school choice.  
It is about  
what counts—a  
young  
person's self-  
formation and  
a teacher's  
work to  
support it. It's  
a quiet book,  
an illustration  
of what  
happens as

thoughtful  
students  
interact with  
sensitive  
adults. Its  
title, *Letters of  
Recommendation*, hints at  
the angst felt  
about getting  
accepted by  
college,  
employer, and  
the world at  
large. But that  
angst hides  
the real  
challenge-  
forming an  
aware,  
purposeful  
sense of self.  
*Letters of  
Recommendation* shows this  
pedagogical  
problem when  
all the  
externals are  
right. Emilia, a  
girl who  
seemingly has

it all, asks an  
admired  
teacher, Doc,  
for a letter of  
recommendation supporting  
early  
admission to a  
top college.  
Emilia  
withdraws the  
request,  
beginning to  
doubt what  
she's doing,  
and why, and  
what she  
really wants in  
life. Doc  
senses her  
unease.  
*Letters result,*  
back and forth  
through the  
school year,  
with subtle  
attention to  
the girl's  
emerging  
sense of self  
and the  
teacher's

presence, both humane and professional. The year ends, the exchange stops; life's externals appear settled for now, with the larger questions deepened, but still open, as they always are. Letters offers no easy steps, no how-to's, no magic methods. Instead, it heightens awareness of what goes on as good education takes place. It affirms a student's self-reliance in the face of felt

uncertainties and a teacher's trust that her presence as a full, human person has value and meaning in the work of education. The letters themselves do not exemplify an instructional method, but serve to direct attention to the inner lives of a student and her teacher. The letters create a thought-provoking book, a pedagogical dialogue. And the dialogue's privileged setting does

not celebrate the rich and famous. It is a way to set aside the material complications, which intrude in our lives and make it difficult to concentrate on what is essential, not only for the few, but for each and all. *A Letter in Reference to the Recent Trial of Murray V. Kelly and Shew Boohar* Research Institute When they prepare for medical school, few candidates take the time to acquire the

University of California Press  
Bringing together an international team of historians,

classicists, and scholars of religion, this volume provides the first comprehensive overview of the extant Greek and Latin letter collections of late antiquity (ca. 300–600 c.e.). Each chapter addresses a major collection of Greek or Latin literary letters, introducing the social and textual histories of each collection and examining its assembly,

publication, and transmission. Contributions also reveal how collections operated as discrete literary genres, with their own conventions and self-presentational agendas. This book will fundamentally change how people both read these texts and use letters to reconstruct the social history of the fourth, fifth, and sixth centuries.
