Madame et Alice is written by a high school teacher of French along with one of her students who studied five years of French. Dr. Soper, the teacher-author, opens the book by describing her responsibilities along with different teaching techniques for promoting and enhancing student learning. At the end of each chapter Alice, the student co-author, adds a student's perspective to Dr. Soper's teaching techniques. The book concludes with two chapters that depict Dr. Soper's educational and personal philosophies. As a 32-year educator, Dr. Soper incorporates

change into her teaching by being the same person.

Cet ouvrage à destination des étudiants en médecine et des praticiens, qui comporte plus de 1600 schémas en couleurs, a 3 objectifs : - Présenter, en un seul volume, l'ensemble de l'anatomie humaine descriptive, topographique, fonctionnelle et clinique. - Segmenter l'anatomie du corps humain en 206 « leçons » synthétiques et homogènes dans une suite logique de chapitres. - Pouvoir corréler rapidement les textes explicatifs et les schémas classiques de l'anatomie humaine. Ainsi, les légendes sont intégrées dans un texte simple et didactique.

The purpose of this research monograph is to build up a modern value distribution theory for complex analytic mappings between abstract Riemann surfaces. All results presented herein are new in that, apart from the classical background material in the last chapter, there is no overlapping with any existing monograph on meromorphic functions. Broadly speaking the division of the book is as follows: The Introduction and Chapters I to III deal mainly with the theory of mappings of arbitrary Riemann surfaces as

developed by the first named author; Chapter IV, due to Nakai, is devoted to meromorphic functions on parabolic surfaces; Chapter V contains Matsumoto's results on Picard sets; Chapter VI, predominantly due to the second named author, presents the so-called nonintegrated forms of the main theorems and includes some joint work by both authors. For a complete list of writers whose results have been discussed we refer to the Author Index.
