Francesca Woodman Simon and Schuster

Poetry. Fiction. Art. Latino/Latina Studies. Translated from the Spanish by Stuart Krimko. As the Argentine economy went into freefall at the end of the last millennium, two young women--Fernanda Laguna and Cecilia Pavón--met and became friends. Fernanda, a painter and poet who also publishes fiction under the nom de plume Dalia Rosetti, and Cecilia, a poet and translator, soon forged the radically creative partnership now known as Belleza y Felicidad. As Belleza emerged into a movement and inspired a community, Fernanda and Cecilia broadcast its ethos--a complete program of resistance, as César Aira once described it--through a prodigious output of poetry and fiction. Now a generous selection of this work is available in English for the first time. With an introduction by translator Stuart Krimko, this authoritative volume transmits the urgency and passionate feeling at the heart of one of the most exciting artistic and literary movements to emerge from South America in recent decades. BELLEZA Y FELICIDAD, both the place and the idea, live on in the irresistible pleasures of Cecilia's and Fernanda's poems and stories. Upon revisiting them now I find that they are in fact high-precision lenses for seeing the daily utopias of reality.--César Aira Fernanda Laguna and Cecilia Pavón are legendary writers, domesticating the world in order to make it the subject of their 'domestic' poetry. They are voracious and understand everything. Stuart Krimko's translations capture the totalizing effect of their writings beautifully.--Chris Kraus This book is a paradise of love. Eminent, charismatic, & frolicsome, it's also the magic transcription of a friendship, i.e. a romance (several!), the kind I spent my misspent youth envying in Montaigne & La Boetie. Ecstasies of childlike candor & polymorphous grace, Fernanda Laguna & Cecilia Pavón are absolute women, guileless dreamers, saints in sneakers, on sidewalks, in jail, in Zara, on buses, in nightclubs, in bed, about to turn 29, & 37, & 7. I can't wait for everyone in america to read this book & never be the same again.--Ariana Reines

This pioneering volume argues that cinema and television in Spain only make sense when considered together as twin vehicles for the screen fiction that has come to dominate the twenty-first century. Offering comparative readings of films such as Pedro Almodóvar's classic *Women on the Verge of a Nervous Breakdown* with his production company's first foray into television production—a 2006 series called *Women*—alongside prize-winning workplace dramas watched by thousands on Spanish television, Alejandro Amenábar's *The Sea Inside*, and the attempts to establish the dominant Latin American genre of the telenovela in the very different context of Spanish television.

The witty and sensual *Desperate Debutantes* series continues as one of the Fairchild sisters relies on a false identity to protect her reputation and her heart—from the New York Times bestselling author Julia London. Lady Phoebe Fairchild is well aware that society is appalled by the idea of a young lady of quality involved in a trade. But desperate times call for desperate measures, so when she decides to start selling beautiful handmade gowns, she does so under a fictitious name: Madame Dupree. When she is hired to design ball gowns for the sisters of the Viscount of Summerfield, she completely assumes the false identity. Though in low circumstances, Phoebe is still discomfited in her new position as hired help, but that's nothing compared to her visceral attraction to the viscount himself. Dashing handsome and shamelessly seductive, he invites her to be his mistress and Phoebe is shockingly tempted to accept. But as their desire for each other grows and the risk of exposure becomes even greater, Phoebe is in dire danger of losing her reputation, her livelihood—and her chance of becoming the bride of the man whose passion has claimed her forever.

How psychological ideas of space have profoundly affected architectural and artistic expression in the twentieth century. Beginning with agoraphobia and claustrophobia in the late nineteenth century, followed by shell shock and panic fear after World War I, phobias and anxiety came to be seen as the mental condition of modern life. They became incorporated into the

media and arts, in particular the spatial arts of architecture, urbanism, and film. This "spatial warping" is now being reshaped by digitalization and virtual reality. Anthony Vidler is concerned with two forms of warped space. The first, a psychological space, is the repository of neuroses and phobias. This space is not empty but full of disturbing forms, including those of architecture and the city. The second kind of warping is produced when artists break the boundaries of genre to depict space in new ways. Vidler traces the emergence of a psychological idea of space from Pascal and Freud to the identification of agoraphobia and claustrophobia in the nineteenth century to twentieth-century theories of spatial alienation and estrangement in the writings of Georg Simmel, Siegfried Kracauer, and Walter Benjamin. Focusing on current conditions of displacement and placelessness, he examines ways in which contemporary artists and architects have produced new forms of spatial warping. The discussion ranges from theorists such as Jacques Lacan and Gilles Deleuze to artists such as Vito Acconci, Mike Kelley, Martha Rosler, and Rachel Whiteread. Finally, Vidler looks at the architectural experiments of Frank Gehry, Coop Himmelblau, Daniel Libeskind, Greg Lynn, Morphosis, and Eric Owen Moss in the light of new digital techniques that, while relying on traditional perspective, have radically transformed the composition, production, and experience—perhaps even the subject itself—of architecture.

'A groundbreaking work . . . Federici has become a crucial figure for . . . a new generation of feminists' Rachel Kushner, author of *The Mars Room* A cult classic since its publication in the early years of this century, *Caliban and the Witch* is Silvia Federici's history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages through the European witch-hunts, the rise of scientific rationalism and the colonisation of the Americas, it gives a panoramic account of the often horrific violence with which the unruly human material of pre-capitalist societies was transformed into a set of predictable and controllable mechanisms. It is a study of indigenous traditions crushed, of the enclosure of women's reproductive powers within the nuclear family, and of how our modern world was forged in blood. 'Rewarding . . . allows us to better understand the intimate relationship between modern patriarchy, the rise of the nation state and the transition from feudalism to capitalism' Guardian

Plebeian Prose is a key work by the pioneering Argentine Brazilian anthropologist, sociologist and poet Néstor Perlongher.

Perlongher, whose work has been highly influential in the development of Latin American cultural theory and literature, represents an original critical 'queer' voice in Latin American thought. This book is an exploration of the politics of desire, questions of identity, Latin American neo-baroque aesthetics, sexual dissidence, violence and jouissance. Prompted by his reading of Gilles Deleuze, the link between politics and desire remains central to all Perlongher's reflections and gives his writings a lasting topicality. A thinker of the streets with a keen interest in those on the margins of society, the ideas that are developed in this book offer a lucid critique of capitalism and institutional power. Perlongher's approach also reflects a particular Latin American neo-baroque style, a mode of critique whose value endures today. Providing insight into Latin American culture and politics of the late twentieth century, *Plebeian Prose* will be of particular interest to anyone working on critical theory, literary theory, anthropology, sociology and gender studies.

In *Spaces of Culture* an international group of scholars examines the implications of questions such as: What is culture? What is the relationship between social structure and culture in a globalized

and networked world? Do critical perspectives still apply, or does the speed and complexity of cultural production demand new forms of analysis? They explore the key themes in social theory: the nation state; the city; modernity and reflexivity; post-Fordism and the spatial logic of the informational city. The contributors go on to analyze the public sphere, questioning the reductive representation of technology as a form of instrumentality, and demonstrating how new technologies can offer new spaces of culture. This analysis of public space is essential to an understanding of issues like global citizenship and multicultural human rights.

With an introduction by award-winning novelist Colm Tóibín Opening with a crime of passion after a years-long love affair has soured, *The Dead Girls* soon plunges into an investigation of something even darker: Serafina Baladro and her sister run a successful brothel business in a small town, so successful that they begin to expand. But when business starts to falter, life in the brothel turns ugly, and slowly, girls start disappearing . . . Based on real events, the story of serial-killing brothel owners Delfina and María de Jesús González, whose crimes were uncovered in 1964, *The Dead Girls* is a deliciously satirical black comedy - a potent blend of sex and mayhem. Written in the laconic tones of a police report, it cleverly uncovers the hopeless pedantry of a broken justice system, and the dark world of prostitution.

Physicians recognize the importance of patients' emotions in healing yet believe their own emotional responses represent

lapses in objectivity. Patients complain that physicians are too detached. Halpern argues that by empathizing with patients, rather than detaching, physicians can best help them. Yet there is no consistent view of what, precisely, clinical empathy involves. This book challenges the traditional assumption that empathy is either purely intellectual or an expression of sympathy.

Sympathy, according to many physicians, involves over-identifying with patients, threatening objectivity and respect for patient autonomy. How can doctors use empathy in diagnosing and treating patients without jeopardizing objectivity or projecting their values onto patients? Jodi Halpern, a psychiatrist, medical ethicist and philosopher, develops a groundbreaking account of emotional reasoning as the core of clinical empathy. She argues that empathy cannot be based on detached reasoning because it involves emotional skills, including associating with another person's images and spontaneously following another's mood shifts. Yet she argues that these emotional links need not lead to over-identifying with patients or other lapses in rationality but rather can inform medical judgement in ways that detached reasoning cannot. For reflective physicians and discerning patients, this book provides a road map for cultivating empathy in medical practice. For a more general audience, it addresses a basic human question: how can one person's emotions lead to an understanding of how another person is feeling?
