JUSTICE ANIYAH

The Pisces National Geographic Books NAMED A "FALL 2020 MUST-READ" AND ONE OF THE "BEST BOOKS OF FALL 2020" BY TIME, VULTURE, THE BOSTON GLOBE, COSMOPOLITAN, WIRED, TOR AND MORE Electrifying and provocative, visceral and profound, a powerful

literary debut novel about a young woman whose compulsion to eat earth gives her visions of murdered and missing people—an imaginative synthesis of mystery and magical realism that explores the dark tragedies of ordinary lives. Set in an unnamed slum in contemporary Argentina, *Earth eater* is the story of a young woman who finds herself drawn to eating the earth—a compulsion that

gives her visions of broken and lost lives. With her first taste of dirt, she learns the horrifying truth of her mother's death. Disturbed by what she witnesses, the woman keeps her visions to herself. But when *Earth eater* begins an unlikely relationship with a withdrawn police officer, word of her ability begins to spread, and soon desperate members of her community beg for her help, anxious to

uncover the truth about their own loved ones. Surreal and haunting, spare yet complex, Earth eater is a dark, emotionally resonant tale told from a feminist perspective that brilliantly explores the stories of those left behind—the women enduring the pain of uncertainty, whose lives have been shaped by violence and loss.  BESTSELLER Winner of

Non-Fiction Selected by Emma Watson as an Our Shared Shelf Book Club Pick 'I loved it' Kate Tempest 'Astounding' Roxane Gay 'A sledgehammer' New York Times Heart Berries is a powerful, poetic memoir of a woman's coming of age on an Indian Reservation in the Pacific Northwest. Having survived a profoundly dysfunctional upbringing only to find herself hospitalised and facing a dual diagnosis of post-traumatic stress disorder and bipolar II disorder,

Terese Marie Mailhot is given a notebook and begins to write her way out of trauma. The triumphant result is Heart Berries, a memorial for Mailhot's mother, a social worker and activist who had a thing for prisoners; a story of reconciliation with her father – an abusive drunk and a brilliant artist – who was murdered under mysterious circumstances; and an elegy on how difficult it is to love someone while dragging the long shadows of shame.

Memory isn't exact, but melded to imagination. In *Heart Berries*, Mailhot discovers her own true voice, seizes control of her story, and, in so doing, re-establishes her connection to her family, to her people, and to her place in the world.

'I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of *The No Asshole Rule* and *The Asshole*

Survival Guide 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of *The Life-Changing Magic of Not Giving a F*ck* A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office

because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With

sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully navigate the stormy seas of office life.

 "Yes, Tommy Orange's new novel really is that good." --New York Times
 Here is a story of several people, each of whom has private reasons for travelling to the Big Oakland Powwow. Jacquie Red Feather is newly sober and trying to make it back to the family she left behind in shame. Dene Oxendene is pulling

his life together after his uncle's death and has come to work at the powwow to honour his uncle's memory. Opal Viola Victoria Bear Shield has come to watch her nephew Orvil Red Feather, who has taught himself traditional Indian dance through YouTube videos and has come to the powwow to dance in public for the very first time. There will be glorious communion, and a spectacle of sacred tradition and pageantry. And there will be sacrifice, and heroism, and

unspeakable loss. Fierce, angry, funny, heartbreaking, There is a relentlessly paced multi-generational story about violence and recovery, memory and identity, and the beauty and despair woven into the history of a nation and its people. An unforgettable debut.

 What will the fracturing of the United States look like? After the Revolution is an edge-of-your-seat answer to that question. In the year 2070, twenty

years after a civil war and societal collapse of the "old" United States, extremist militias battle in the crumbling Republic of Texas. As the violence spreads like wildfire and threatens the Free City of Austin, three unlikely allies will have to work together in an act of resistance to stop the advance of the forces of the white Christian ethnostate known as the "Heavenly Kingdom." Out three protagonists include Manny, a fixer that shuttles journalists in and out of war zones and

provides footage for outside news agencies. Sasha is a teenage woman that joins the Heavenly Kingdom before she discovers the ugly truths behind their movement. Finally, we have Roland: A US Army vet kitted out with cyberware (including blood that heals major trauma wounds and a brain that can handle enough LSD to kill an elephant), tormented by broken memories, and 12,000 career kills under his belt. In the not-so-distant world Evans

conjures we find advanced technology, a gender expansive culture, and a roving Burning Man-like city fueled by hedonistic excess. This powerful debut novel from Robert Evans is based on his investigative reporting from international conflict zones and on increasingly polarized domestic struggles. It is a vision of our very possible future.

unofficial Conversation Starters. [Birthright](#) Hachette UK 25th ANNIVERSARY EDITION • From the bestselling author of *The Passenger* and the Pulitzer Prize-winning novel *The Road*: an epic novel of the violence and depravity that attended America's westward expansion, brilliantly subverting the conventions of the Western novel and the mythology of the Wild West. Based on historical events that took place on the Texas-Mexico border

in the 1850s, *Blood Meridian* traces the fortunes of the Kid, a fourteen-year-old Tennessean who stumbles into the nightmarish world where Indians are being murdered and the market for their scalps is thriving. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*. *The Last Town on Earth* Blurb This poetry collections focuses on a hybridized Indigiqueer Trickster

character named Zoa who brings together the organic (the protozoan) and the technologic (the binaric) in order to re-beautify and re-member queer Indigeneity. This Trickster is a Two-Spirit / Indigiqueer invention that resurges in the apocalypse to haunt, atrophy, and to reclaim. Following oral tradition (◆ la Iktomi, Nanaboozho, Wovoka), Zoa infects, invades, and becomes a virus to canonical and popular works in order to re-centre Two-Spirit livelihoods. They

dazzlingly and fiercely take on the likes of Edmund Spenser, Shakespeare, Charles Dickens, and John Milton while also not forgetting contemporary pop culture figures such as Lana Del Rey, Grindr, and Peter Pan. Zoa world-builds a fourth-dimension, lives in the cyber space, and survives in NDN-time - they have learned to sing the skin back onto their bodies and remain #woke at the end of the world. "Do not read me as a vanished ndn," they ask, "read me as a ghostly

one." Full-Metal Indigiqueer is influenced by the works of Jordan Abel, Tanya Tagaq, Daniel Heath Justice, Claudia Rankine, Vivek Shraya, Qwo-Li Driskill, Leanne Simpson, Kent Monkman, and Donna Haraway. It is a project of resurgence for Two-Spirit / Indigiqueer folk who have been ghosted in policy, page, tradition, and hi/story - the very lives of Two-Spirit / Indigiqueer youth are rarely mentioned (and even dispossessed in our very mandates for reconciliation), our lives

are precarious but they too are precious. We find ourselves made spectral in settler and neocolonial Indigenous nationalisms - if reconciliation is a means of "burying the hatchet," Zoa seeks to unearth the bones buried with those hatched scalps and perform a ance to ghost dance Indigiqueerness into existence. Zoa world-destroys in order to world-build a new space - they care little for reconciliation but rather aim to reterroritorialize space in literature, pop

culture, and oral storytelling. This project follows in the tradition of the aforementioned authors who, Whitehead believes, utilize deconstruction as a means of decolonization. This is a sex-positive project that tirelessly works to create coalition between those who have, as Haraway once noted, "been injured, profoundly." Zoa stands in solidarity with all q poc folk who exist as ghosts with intergenerational and colonial phantom pains - they sing with Donna

Summer, RuPaul, Effie White, and Trixie Mattel. The space made is a post-apocalyptic hub of sex and decolonization - a world where making love is akin to making live. *Where the Dead Sit Talking* Algonquin Books A New York Times Book Review Notable Book of 2020 Winner of the Ernest J. Gaines Award for Literary Excellence "A comically dark coming-of-age story about growing up on the South Side of Chicago, but it's also social commentary at its finest, woven seamlessly

into the work . . . Bump's meditation on belonging and not belonging, where or with whom, how love is a way home no matter where you are, is handled so beautifully that you don't know he's hypnotized you until he's done." —Tommy Orange, *The New York Times Book Review* In this alternately witty and heartbreaking debut novel, Gabriel Bump gives us an unforgettable protagonist, Claude McKay Love. Claude isn't dangerous or brilliant—he's an average kid coping with

abandonment, violence, riots, failed love, and societal pressures as he steers his way past the signposts of youth: childhood friendships, basketball tryouts, first love, first heartbreak, picking a college, moving away from home. Claude just wants a place where he can fit. As a young black man born on the South Side of Chicago, he is raised by his civil rights-era grandmother, who tries to shape him into a principled actor for change; yet when riots consume his

neighborhood, he hesitates to take sides, unwilling to let race define his life. He decides to escape Chicago for another place, to go to college, to find a new identity, to leave the pressure cooker of his hometown behind. But as he discovers, he cannot; there is no safe haven for a young black man in this time and place called America. Percolating with fierceness and originality, attuned to the ironies inherent in our twenty-first-century landscape, *Everything You Don't*

Belong marks the arrival of a brilliant young talent. *The Death and Life of the Great Lakes* University of Oklahoma Press

Wall of Dust is a story of the human spirit-of the pain of loss and the struggle to recover. Aisha, a Palestinian schoolteacher, becomes deranged after most of her class is accidentally killed by a missile fired from an Israeli gunship. She begins a strange ritual, throwing stones at the "security barrier," the eight-meter tall concrete wall that separates much

of the West Bank from Israel. She shouts the name of each dead child and hurls a stone at the concrete monolith. Initially alone, she is soon joined by others and her little ritual takes the form of a mass protest. At several points she might be stopped, or worse, but she is helped in small but significant ways by several other characters, Israeli and Palestinian. Each character who intercedes has experienced a loss-a career dead end, a family estrangement, a crisis of

faith, a simple loss of hope-that guides their actions. The acts are small and personal: a sniper misses a shot, a teacher comforts, a stranger embraces, a father forgives, an Islamist relents. Lyrically written, full of compassion for the people of Palestine and Israel and for the land they inhabit together, Wall of Dust is a story of revelation, redemption, and the persistence of hope.

2019 "Superb...Among the best books ever written about an American corporation." —Bryan Burrough, The New York Times Book Review Just as Steve Coll told the story of globalization through ExxonMobil and Andrew Ross Sorkin told the story of Wall Street excess through Too Big to Fail, Christopher Leonard's Kochland uses the extraordinary account of how one of the biggest private companies in the world grew to be that big to tell the story of modern

corporate America. The annual revenue of Koch Industries is bigger than that of Goldman Sachs, Facebook, and US Steel combined. Koch is everywhere: from the fertilizers that make our food to the chemicals that make our pipes to the synthetics that make our carpets and diapers to the Wall Street trading in all these commodities. But few people know much about Koch Industries and that's because the billionaire Koch brothers have wanted it that way. For five decades, CEO

Charles Koch has kept Koch Industries quietly operating in deepest secrecy, with a view toward very, very long-term profits. He's a genius businessman: patient with earnings, able to learn from his mistakes, determined that his employees develop a reverence for free-market ruthlessness, and a master disrupter. These strategies made him and his brother David together richer than Bill Gates. But there's another side to this story. If you want to understand how we killed

the unions in this country, how we widened the income divide, stalled progress on climate change, and how our corporations bought the influence industry, all you have to do is read this book. Seven years in the making, Kochland "is a dazzling feat of investigative reporting and epic narrative writing, a tour de force that takes the reader deep inside the rise of a vastly powerful family corporation that has come to influence American workers, markets, elections, and

the very ideas debated in our public square. Leonard's work is fair and meticulous, even as it reveals the Kochs as industrial Citizens Kane of our time" (Steve Coll, Pulitzer Prize-winning author of *Private Empire*).

The Only Good Indians
Scribner

In this sweeping work of memoir and commentary, leading cultural critic Paul Chaat Smith illustrates with dry wit and brutal honesty the contradictions of life in "the Indian business." Raised in suburban Maryland and Oklahoma, Smith dove head first into the political radicalism of the 1970s, working with the American Indian Movement until it dissolved into dysfunction and infighting. Afterward he lived in New York, the city of choice for political exiles, and eventually

arrived in Washington, D.C., at the newly minted National Museum of the American Indian ("a bad idea whose time has come") as a curator. In his journey from fighting activist to federal employee, Smith tells us he has discovered at least two things: there is no one true representation of the American Indian experience, and even the best of intentions sometimes ends in catastrophe. *Everything You Know about Indians Is Wrong* is a highly entertaining and, at

times, searing critique of the deeply disputed role of American Indians in the United States. In "A Place Called Irony," Smith whizzes through his early life, showing us the ironic pop culture signposts that marked this Native American's coming of age in suburbia: "We would order Chinese food and slap a favorite video into the machine--the Grammy Awards or a Reagan press conference--and argue about Cyndi Lauper or who should coach the Knicks." In "Lost in Translation," Smith

explores why American Indians are so often misunderstood and misrepresented in today's media: "We're lousy television." In "Every Picture Tells a Story," Smith remembers his Comanche grandfather as he muses on the images of American Indians as "a half-remembered presence, both comforting and dangerous, lurking just below the surface." Smith walks this tightrope between comforting and dangerous, offering unrepentant skepticism and, ultimately, empathy.

"This book is called Everything You Know about Indians Is Wrong, but it's a book title, folks, not to be taken literally. Of course I don't mean everything, just most things. And 'you' really means we, as in all of us." [Summary of There There](#)
Penguin UK
One August morning in 1974, a tightrope walker makes his way, through the dawn light, between the World Trade Center towers. In the streets below, a slew of ordinary lives become extraordinary in this

stunningly intricate portrait of a city and its people. Corrigan, a radical, young Irish monk, struggles with his demons in the burning Bronx. A group of mothers gathers in a Park Avenue apartment to mourn their sons who have died in Vietnam. Farther uptown, Tillie, a thirty-eight-year-old grandmother, turns tricks alongside her teenaged daughter, determined to take care of her babies and to prove her own worth. Hailed as an American masterpiece, McCann's powerful

allegory of 9/11 comes alive in the unforgettable voices of these, and other, seemingly disparate characters, drawn together by hope, beauty and the tightrope walker's "artistic crime of the century." McCann's most ambitious work to date, *Let the Great World Spin* is a triumphant novel. There There HarperCollins The Great Lakes—Erie, Huron, Michigan, Ontario, and Superior—hold 20 percent of the world's supply of surface fresh water and provide sustenance, work, and

recreation for tens of millions of Americans. But they are under threat as never before, and their problems are spreading across the continent. The *Death and Life of the Great Lakes* is prize-winning reporter Dan Egan's compulsively readable portrait of an ecological catastrophe happening right before our eyes, blending the epic story of the lakes with an examination of the perils they face and the ways we can restore and preserve them for generations to come.
