 Signals and Systems is a  
 comprehensive textbook

designed for  
 undergraduate students  
 of engineering for a  
 course on signals and  
 systems. Each topic is  
 explained lucidly by  
 introducing the concepts  
 first through abstract

mathematical reasoning  
 and illustrations, and then  
 through solved examples-

easy! This book contains downloadable, bonus content! Included with this book is a code that will allow you to download topic cards which can be printed and placed in strategic locations, such as a mirror, refrigerator or in your pocket, to remind you and your child to start talking! We've made it easy to engage your child in conversations about relationships, affection, anatomy, boundaries, predators, online dangers and many other vital topics. Using the numerous questions and conversation starters we have provided, you can launch these essential talks with your child and interject your personal thoughts, feelings and cultural beliefs. Written by parents and reviewed by professionals, the 30 Days of Sex Talks program makes it simple for you and your child to talk about sex in the context in which it belongs; as part of a healthy relationship that also includes joy, laughter and the full range of emotion that defines human intimacy. Remember that having these talks with your child will establish a pattern of healthy conversations for the future. Your goal is that your child will feel

comfortable talking to you about anything as he or she grows into the healthy, knowledgeable person he or she will become.
