**ONE CAPTIVE.** Blindfolded, gagged, and bound, 17-year-old Haylie Summers has only one goal: stay alive. Nothing about her abduction makes sense. Deaf since birth, she can't hear her captors and can only guess why they would take her. Is she about to be thrown into the dark abyss of human trafficking? Or was she kidnapped by the protestors who marched at the wildlife rescue center where she volunteers? Haylie fights the harsh reality that her capture resulted from Nathan's unexpected text.  
**ONE SUSPECT.** After a childhood of disruptions, Peruvian-born Nathan Boliva likes to keep life simple. Haylie is not simple. She is beautiful. She is brilliant. And she is worth the risk of breaking out of his comfort zone. But days after asking Haylie on a date, Nathan finds himself targeted by

the FBI for a crime he didn't commit. Far worse, anything could be happening to Haylie as the search continues.

"Brown offers a powerful look into the world of hearing loss... a notable and groundbreaking debut by an author to watch. An empowering and satisfying romance." -

- Kirkus Reviews Do you know what hearing loss sounds like? I do. All my life I've tried to be like you. I've failed. So I keep it hidden. But on the day my world crashed down around me, Reed was there. He showed me just how loud and vibrant silence can be, even when I struggled to understand. He's unlike anyone I've ever known. His soulful eyes and strong hands pulled me in before I knew what was happening. And as I saw those hands sign, felt them sparking on me, I knew: imperfect could be perfect. Reed makes me feel things I've never felt. It's exciting . . . and terrifying. Because he sees me like no one else has, and I'm afraid of what he'll find if he looks too closely. The only thing that scares me more than being with him? Letting him go. An Avon Romance

In Victorian Cornwall, a doctor risks her marriage to fight for female asylum patients: "One of the most memorable heroines of recent fiction" (The Times, London). Shortlisted for the Wellcome Book Prize for Historical Fiction Ally Moberley, a recently qualified doctor, never expected to marry until she met architect Tom Cavendish. But only weeks into their marriage, Tom sets out for Japan, leaving Ally as she begins work at the Truro Asylum in Cornwall. Horrified by the brutal attitudes of male doctors and nurses toward their female

patients, Ally plunges into the institutional politics of women's mental health at a time when madness is only just being imagined as treatable. She has to contend with a longstanding tradition of permanently institutionalizing women who are deemed difficult, all the while fighting to be taken seriously in a profession dominated by men. Meanwhile, Tom is overseeing the building of lighthouses, and has a commission from a wealthy collector to bring back embroideries and woodwork. As he travels Japan in search of these enchanting objects, he begins to question the value of the life he left in England. As Ally becomes increasingly absorbed in the moral importance of her work, and Tom pursues his interests on the other side of the world, they will return to each other as different people. From the blustery coast of Western England to the landscape of Japan, *Signs for Lost Children* offers a "fine exploration of marriage and the complex minds of 'lost children'—that is, all of us" (The New York Times Book Review).

A modern guide to

connecting with the other

side, Signs is full of stories

of hope. It teaches us how

to recognise and interpret

the life-changing

messages from loved

ones and spirit guides, by

a renowned psychic

medium. Laura Lynne

Jackson is a psychic

medium and the author of

the New York Times

bestseller *The Light*

*Between Us*. She

possesses an incredible

gift: the ability to

communicate with loved

ones who have passed, convey messages of love and healing, and impart a greater understanding of our interconnectedness. Though her abilities are exceptional, they are not unique, and that is the message at the core of this book. Understanding 'the secret language of the universe' is a gift available to all. As we learn to ask for and recognise signs from the other side, we will start to find meaning where before there was only confusion, and see light in the darkness. We may decide to change paths, push toward love, pursue joy, and engage with life in a whole new way. In *Signs*, Jackson is able to bring the mystical into the everyday. She relates stories of people who have experienced uncanny revelations and instances of unexplained synchronicity, as well as others drawn from her own experience. There's the lost child who appears to her mother as a deer that approaches her unhesitatingly at a highway rest stop; the name written on a dollar bill that lets a terrified wife know that her husband will be okay; the Elvis Presley song that arrives at the exact moment of Jackson's own

father's passing; and many others. This is a book that is inspiring and practical, deeply comforting and wonderfully motivational, in asking us to see beyond ourselves to a more magnificent universal design. **Signs** Macmillan Jane, a superstitious fangirl, takes an anonymous babysitting job to avoid an unpaid internship with her college-obsessed mom.
