Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. THE SECOND SEX stands, five decades after its first appearance, as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

This book is the first cultural history of papal authority in late antiquity. While most traditional histories posit a 'rise of the papacy' and examine popes as politicians, theologians and civic leaders, Kristina Sessa focuses on the late Roman household and its critical role in the development of the Roman church from c.350-600. She argues that Rome's bishops adopted the ancient elite household as a model of good government for leading the church. Central to this phenomenon was the classical and biblical figure of the steward, the householder's appointed agent who oversaw his property and people. As stewards of God, Roman bishops endeavored to exercise moral and material influence within both the pope's own administration and the households of Italy's clergy and lay elites. This original and nuanced study charts their manifold interactions with late Roman households and shows how bishops used domestic knowledge as the basis for establishing their authority as Italy's singular religious leaders.

Selling French Sex is an illuminating account of the cultural, social, and economic history of the sale of 'French sex'. It explores the discourses and experiences surrounding the early twentieth century debate on sex trafficking, which mobilized various international reform movements to combat the coerced prostitution of young women abroad. According to popular legend and empirical studies, French women were present in brothels all over the world, where they were the most desired and best paid in the business. But were they trafficking victims or willing migrants? In this timely book, Elisa Camiscioli reconstructs the networks and mechanisms of cross-border migrations for sexual labor; elucidates women's motives for leaving and

staying; and explains why French migrant sexual labor occupied such a prominent place in the underworld of prostitution, as well as in the imaginaries of anti-trafficking campaigners, immigration officials, and ordinary consumers of vice.

In the age of the Grand Tour, foreigners flocked to Italy to gawk at its ruins and paintings, enjoy its salons and cafés, attend the opera, and revel in their own discovery of its past. But they also marveled at the people they saw, both male and female. In an era in which castrati were "rock stars," men served women as ciccisbei, and dandified Englishmen became macaroni, Italy was perceived to be a place where men became women. The great publicity surrounding female poets, journalists, artists, anatomists, and scientists, and the visible roles for such women in salons, academies, and universities in many Italian cities also made visitors wonder whether women had become men. Such images, of course, were stereotypes, but they were nonetheless grounded in a reality that was unique to the Italian peninsula. This volume illuminates the social and cultural landscape of eighteenth-century Italy by exploring how questions of gender in music, art, literature, science, and medicine shaped perceptions of Italy in the age of the Grand Tour.

A comprehensive and instructional guide to the new sexual landscape, covering "new territories" such as bondage, role playing, and sex toys that would make your parents blush. Since the publication of *The Joy of Sex* in 1972, the sexual landscape's boundaries have been expanded to include a host of practices that are unthinkable in that classic tome. Although it also covers the basics, *The Boudoir Bible* fills those niches missing from other sex guides nicely, with full, elaborated chapters on rope bondage, restraints of sound and sight, erotic flagellation, and the stimulation of new erogenous zones, among innumerable other offerings. Well-researched, *The Boudoir Bible* is written from a joyful, sex-positive point of view. Going beyond the "lovemaking" of older guides, this witty and uninhibited tome expands the sexual act to encompass "verboten" topics, with chapters entitled "The Genital Gym," "Nipple Tease," "Male Ejaculation Control," and "The Anthems of Anal Sex." Illustrated by the renowned artist François Berthoud, whose provocative creations have graced both Prada campaigns and museum exhibitions, *The Boudoir Bible* provides a fresh view of sexuality in the twenty-first century.

Those Who from Afar Look Like Flies is an anthology of poems and essays that aims to provide an organic profile of the evolution of Italian poetry after World War II. Beginning with the birth of *Officina* and *Il Verri*, and culminating with the crisis of the mid-seventies, this tome features works by such poets as Pasolini, Pagliarani, Rosselli, Sanguineti and Zanzotto, as well as such forerunners as Villa and Cacciatore. Each section of this anthology, organized chronologically, is preceded by an introductory note and documents every stylistic or substantial change in the poetics of a

Italian Gothic horror films of the 1970s were influenced by the violent giallo movies and adults-only comics of the era, resulting in a graphic approach to the genre. Stories often featured over-the-top violence and nudity and pushed the limits of what could be shown on the screen. The decade marked the return of specialist directors like Mario Bava, Riccardo Freda and Antonio Margheriti, and the emergence of new talents such as Pupi Avati (*The House with the Laughing Windows*) and Francesco Barilli (*The Perfume of the Lady in Black*). The author examines the Italian Gothic horror of the period, providing previously unpublished details and production data taken from official papers, original scripts and interviews with filmmakers, scriptwriters and actors. Entries include complete cast and crew lists, plot summaries, production history and analysis. An appendix covers Italian made-for-TV films and mini-series.

This book brings together most of the information available concerning two species that diverged 2-3 million years ago. The objective was to try to understand why two sibling species so similar in several characteristics can be so different in others. To this end, it was crucial to confront all data from their ecology and biogeography with their behavior and DNA polymorphism. *Drosophila melanogaster* and *Drosophila simulans* are among the two sibling species for which a large set of data is available. In this book, ecologists, physiologists, geneticists, behaviorists share their data on the two sibling species, and several scenarios of evolution are put forward to explain their similarities and divergences. This is the first collection of essays of its kind. It is not the final point of the analyses of these two species since several areas remain obscure. However, the recent publication of the complete genome of *D. melanogaster* opens new fields for research. This will probably help us explain why *D. melanogaster* and *D. simulans* are sibling species but false friends.

The handbook on lithiasis edited by Kurt Boshamer and originally brought out in 1961 was for more than two decades the standard work in this field for researchers and clinicians alike. However, our knowl edge of urolithiasis has been increased so enormously - by worldwide interdisciplinary research into the genesis of urinary calculi, by the new treatment possibilities opened up principally by advances in tech nology, and by the success achieved in prevention of recurrence - that it is almost impossible to take in all the relevant journal articles, books chapters, monographs, and proceedings. It was therefore our aim in this, the first of two independent vol umes, to provide a concise but comprehensive summary of current knowledge concerning the morphology and composition of calculi, epidemiology, pathogenesis, and diagnostic techniques. The most re cent developments are described, and nothing in the world literature is ignored. A second volume will cover medical therapy, operative, in strumental and noninvasive treatment, and prophylaxis. To have any chance of success, treatment and prophylaxis must be based on knowledge of calculus formation. Study of the composition of calculi has yielded important information regarding the conditions for formation, and this underlines once again the great value of analy sis of urinary concretions. Evaluation of epidemiological data has im portant consequences for the individual patient. Census Reports Eleventh Census: 1890: Vital and social statistics: pt. 1. Analysis and rate tables. pt. 2. Gilmour delves deep into Italy's cultural past to discover not only the effects of Risorgimento, but what, if anything, earlier generations have said about the concept of Italy. He examines what the Enlightenment thinkers believed, what Dante thought, what Machiavelli wanted and what the emperors made of it.
