Nurse Matilda Goes to Hospital

Routledge

A charming portrait of one man's dreams and schemes, by "the greatest Italian writer of the twentieth century" (The Guardian). In this enchanting book of linked stories, Italo Calvino charts the disastrous schemes of an Italian peasant, an unskilled worker in a drab northern industrial city in the 1950s and '60s, struggling to reconcile his old

country habits with his current urban life. Marcovaldo has a practiced eye for spotting natural beauty and an unquenchable longing for the unspoiled rural world of his imagination. Much to the continuing puzzlement of his wife, his children, his boss, and his neighbors, he chases his dreams and gives rein to his fantasies, whether it's sleeping in the great outdoors on a park bench, following a stray cat, or trying to catch wasps. Unfortunately, the results are never quite what he anticipates. Spanning from the 1950s to the 1960s, the twenty stories in Marcovaldo are

alternately comic and melancholy, farce and fantasy. Throughout, Calvino's unassuming masterpiece "conveys the sensuous, tangible qualities of life" (The New York Times).

Animal Spirit Cornell University Press

A lyrical memoir by one of the major figures of postmodernist architecture; with drawings of architectural projects prepared especially for the book. This revealing memoir by Aldo Rossi (1937–1997), one of the most visible and controversial figures ever on the international architecture scene, intermingles discussions of Rossi's architectural projects—including the major literary and artistic influences on his work—with his personal history. Drawn from notebooks Rossi kept beginning in 1971, these ruminations

and reflections range from his obsession with theater to his concept of architecture as ritual.

Companion to Literary Myths, Heroes and Archetypes HarperPrism

Have children ever really had a literature of their own? In *Sticks and Stones*, Jack Zipes explores children's literature, from the grissly moralism of Slovenly Peter to the hugely successful Harry Potter books, and argues that despite common assumptions about children's books, our investment in children is paradoxically curtailing their freedom and creativity. *Sticks and Stones* is a forthright and engaging book by someone who cares deeply about what and how children read.

Goody Hall Routledge

First published in French in 1988, and in

English in 1992, this companion explores the nature of the literary myth in a collection of over 100 essays, from Abraham to Zoroaster. Its coverage is international and draws on legends from prehistory to the modern age throughout literature, whether fiction, poetry or drama. Essays on classical figures, as well as later myths, explore the origin, development and various incarnations of their subjects. Alongside entries on western archetypes, are analyses of non-European myths from across the world, including Africa, China, Japan, Latin America and India. This book will be indispensable for students and teachers of literature, history and cultural studies, as well as anyone interested in the fascinating world of mythology. A detailed bibliography and index are

included. 'The Companion provides a fine interpretive road map to Western culture's use of archetypal stories.' Wilson Library Review 'It certainly is a comprehensive volume... extremely useful.' Times Higher Education Supplement

Tragedy of Titus Andronicus Princeton University Press

Before leaving home he had engaged to send back dispatches to La Stampa; after appearing there, his "letters from India" were collected and issued posthumously as *Verso la cuna del mondo* (1917), now published in English for the first time. The extent of Gozzano's travels - to Ceylon, Goa, Agra, Jaipur - makes one wonder how the writer was able to visit all or even most of the places he so vividly describes.

Valerio Massimo Manfredi's Pharaoh is a thrilling archaeological mystery. Jerusalem, 586 BC. The kingdom of Judah is on the verge of annihilation by the Babylonians. In the chaos, the prophet Jeremiah saves the sacred Ark of the Covenant and hides it in a cave. He returns terrified, having made a discovery that appears to have sent him mad. The Middle East, early in the second millennium. Professor William Blake, renowned Egyptologist, has a surprising visit from representatives of an American mining corporation. They have discovered a strange Egyptian tomb, which risks exploding the powder keg of Middle Eastern geopolitics. Blake finds himself facing the most mysterious

case of his life. The tomb of the Pharaoh lies in the middle of the desert, miles from the Nile and the Valley of the Kings. As he starts to unravel the Pharaoh's story, a disturbing theory forms in Blake's mind as to the identity of this mysterious ruler - a theory that could destroy the balance of the modern world.

HarperCollins

One of the most popular and widely read books of the Middle Ages, "Physiologus" contains allegories of beasts, stones, and trees both real and imaginary, infused by their anonymous author with the spirit of Christian moral and mystical teaching. Accompanied by an introduction that explains the origins, history, and literary value of this curious text, this volume also reproduces twenty woodcuts from the 1587 version. Originally composed in the fourth century in Greek, and translated into dozens of versions through the centuries, "Physiologus" will delight readers with its ancient tales of antelions, centaurs, and hedgehogs and their allegorical significance. An elegant little book . . . still diverting to

look at today. . . . The woodcuts reproduced from the 1587 Rome edition are alone worth the price of the book. OCOO CoRaymond A. Sokolov, "New York Times Book Review"

The Oracle Eneide raccontata ai bambini

'One of the finest writers of his generation' *Financial Times* Thousands of islands rise from the rivers' rich silts, crowned with forests of mangrove, rising on stilts. This is the Sundarban, where great rivers give birth; to a vast jungle that joins Ocean and Earth. *Jungle Nama* is a beautifully illustrated verse adaptation of a legend from the Sundarbans, the world's largest mangrove forest. It tells the story of the avaricious rich merchant Dhona, the poor lad Dukhey, and his mother; it is

also the story of Dokkhin Rai, a mighty spirit who appears to humans as a tiger, of Bon Bibi, the benign goddess of the forest, and her warrior brother Shah Jongoli. *Jungle Nama* is the story of an ancient legend with urgent relevance to today's climate crisis. Its themes of limiting greed, and of preserving the balance between the needs of humans and nature have never been more timely. Written in Amitav Ghosh's interpretation of the traditional Bengali verse meter, poyar, the poem is coupled with stunning illustrations from internationally renowned artist, Salman Toor.

Playing Murder Hachette UK

What role do metaphors play in philosophical language? Are they impediments to clear thinking and clear expression, rhetorical flourishes that may well help to make philosophy more accessible to a lay audience, but that ought ideally to be eradicated in the interests of terminological exactness? Or

can the images used by philosophers tell us more about the hopes and cares, attitudes and indifferences that regulate an epoch than their carefully elaborated systems of thought? In *Paradigms for a Metaphorology*, originally published in 1960 and here made available for the first time in English translation, Hans Blumenberg (1920-1996) approaches these questions by examining the relationship between metaphors and concepts. Blumenberg argues for the existence of "absolute metaphors" that cannot be translated back into conceptual language. "Absolute metaphors" answer the supposedly naïve, theoretically unanswerable questions whose relevance lies quite simply in the fact that they cannot be brushed aside, since we do not pose

them ourselves but find them already posed in the ground of our existence. They leap into a void that concepts are unable to fill. An afterword by the translator, Robert Savage, positions the book in the intellectual context of its time and explains its continuing importance for work in the history of ideas.

No Matter What Pan Macmillan
'All the books published by a certain publisher could be seen as links in a single chain' In this fascinating memoir and manifesto the author and publisher Roberto Calasso meditates on the art of book publishing. With his signature erudition and polemical flair, Calasso transcends Adelphi to look at the publishing industry as a whole, from the essential importance of graphics, jackets

and cover flaps to the consequences of universal digitization. And he outlines what he describes as the 'most hazardous and ambitious' profile of what a publishing house can be: a book comprising many books, akin to that of other twentieth-century publishers, from Giulio Einaudi to Roger Straus, of whom the book offers brief portraits.

Petrolia A&C Black

What began as a game ends up in murder, and Anna must determine which of her friends is the killer.

The Iliad Of Homer. Translated by Mr. Pope Hachette UK

Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization,

when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified

and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.
