A Modern-Day Tall-Ship Adventure Vintage Canada
 "A welcome new account of Stuart's fateful ride during the 1863 Pennsylvania campaign . . . well researched, vividly written, and shrewdly argued." —Mark Grimsley, author of *And Keep Moving On June 1863*. The Gettysburg Campaign is in its opening hours. Harness jingles and hoofs pound as Confederate cavalryman James Ewell Brown (JEB) Stuart leads his three brigades of veteran troopers on a ride that triggers one of the Civil War's most bitter and enduring controversies. Instead of finding glory and victory—two objectives with which he was intimately familiar, Stuart reaped stinging criticism and substantial blame for one of the Confederacy's most stunning and unexpected battlefield defeats. In *Plenty of Blame to Go Around: Jeb Stuart's Controversial Ride to Gettysburg*, Eric J. Wittenberg and J. David Petruzzi objectively investigate the role Stuart's horsemen played in the disastrous campaign. It is the first book ever written on this important and endlessly fascinating subject. Did the plumed cavalier disobey General Robert E. Lee's orders by stripping the army of its "eyes and ears?" Was Stuart to blame for the unexpected combat that broke out at Gettysburg on July 1? Authors Wittenberg and Petruzzi, widely recognized for their study and expertise of Civil War cavalry operations, have drawn upon a massive array of primary sources, many heretofore untapped, to fully explore Stuart's ride, its consequences, and the intense debate among participants shortly after the battle, through early post-war commentators, and among modern scholars. The result is a richly detailed study jammed with incisive tactical commentary, new perspectives on the strategic role of the Southern cavalry, and fresh insights on every horse engagement, large and small, fought during the campaign.

 International trade has shaped the modern world, yet until now no single book has been available for both economists and general readers that traces the history of the international economy from its earliest beginnings to the present day. *Power and Plenty* fills this gap, providing the first full account of world trade and development over the course of the last millennium. Ronald Findlay and Kevin O'Rourke examine the successive waves of globalization and "deglobalization" that have occurred during the past thousand years, looking closely at the technological and political causes behind these long-term trends. They show how the expansion and contraction of the world economy has been directly tied to the two-way interplay of trade and geopolitics, and

how war and peace have been critical determinants of international trade over the very long run. The story they tell is sweeping in scope, one that links the emergence of the Western economies with economic and political developments throughout Eurasia centuries ago. Drawing extensively upon empirical evidence and informing their systematic analysis with insights from contemporary economic theory, Findlay and O'Rourke demonstrate the close interrelationships of trade and warfare, the mutual interdependence of the world's different regions, and the crucial role these factors have played in explaining modern economic growth. *Power and Plenty* is a must-read for anyone seeking to understand the origins of today's international economy, the forces that continue to shape it, and the economic and political challenges confronting policymakers in the twenty-first century.

Mother of Plenty McFarland

Foreword by Nan Roman, President and CEO of the National Alliance to End Homelessness This book explains how to end the U.S. homelessness crisis by bringing together the best scholarship on the subject and sharing solutions that both local communities and national policy-makers can apply now In *In the Midst of Plenty* shifts our understanding of the phenomenon of homelessness away from issues of individual disability and embeds it in larger contexts of poverty, income inequality, housing affordability, and social exclusion. Homelessness experts Shinn and Khadduri provide guidance on how to end homelessness for people who experience it and how to prevent so many people from reaching the point where they have no alternative to sleeping on the street or in emergency shelters. The book is organized around four questions: Who becomes homeless? Why do people become homeless? How do we end homelessness? How do we prevent it? Based on a comprehensive look at relevant research, the authors show that we know how to end homelessness—if we devote the necessary resources to doing so. In *In the Midst of Plenty: Homelessness and What to Do About It* is an excellent resource for professionals and decision-makers in the homeless services system, as well as for anyone who is interested in helping to end homelessness. It also can be used as a text in undergraduate or masters courses in public policy, sociology, psychology, social work, urban studies, or housing policy. "The knowledgeable and thoughtful authors of this book—two brilliant women who know as much as anyone in the country about the nature of homelessness and its solutions—have done a great service by taking us on a journey through the history of homelessness, how our responses have changed, and how we can end it." Nan Roman, President and CEO National Alliance to End Homelessness. "Shinn and Khadduri's new book is a thorough yet concise examination of

what we know about the nature and causes of homelessness, and the crucial lessons learned. This critically important work provides a roadmap to restoring basic housing and income security as viable policy options, in the face of our daunting inequality divide that otherwise threatens millions with destitution and homelessness." Dennis Culhane, Dana and Andrew Stone Professor of Social Policy, University of Pennsylvania "Marybeth Shinn and Jill Khadduri have combined their significant expertise to create an essential guide about the history of modern homelessness and to offer a clear path forward to end this American tragedy. Their policy recommendations on ending homelessness are culled from the best about what we know works." Barbara Poppe, Executive Director US Interagency Council on Homeless, 2009-2014.

As the American Southwest faces its deepest drought in history, this book explores the provocative notion of "water bankruptcy" with a view towards emphasizing the diversity and complexity of water issues in this region. It bridges between the narratives of growth and the strategies or policies adopted to pursue competing agendas and circumvent the inevitable. A window of opportunity provided by this current long-term drought may be used to induce change by dealing with threats that derive from imbalances between growth patterns and available resources, the primary cause of scarcity. A first of its kind, this book was developed through close collaboration of a broad range of natural scientists, social scientists, and resource managers from Europe and United States. It constitutes a collective elaboration of a transdisciplinary approach to unveiling the inner workings of how water was fought for, allocated and used in the American Southwest, with a focus on Arizona. Specifically, it offers an innovative scientific perspective that produces a critical diagnostic evaluation of water management, with a particular view to identifying risks for the Tucson region that is facing continuous urban sprawl and economic growth. The book offers a diversity of complementary perspectives, including a statement of natural resources, biodiversity and their management, an analysis of water policy and its history, and a statement of ecosystem services in the context of both local biodiversity and also the economic activities that sustain economic growth. Finally, it presents a concerted effort to explore the interplay between a variety of related scientific disciplines and frameworks including climatology, hydrology, water management, ecosystem services, societal metabolism, political economy and social science.

The Magical Land of Plenty is a land of beauty and abundance, but very strange. Poppy and Mazi are reunited with Zarus, the magical flying horse in the Meadow! One day he flew them to his homeland where there is a building made out of precious emeralds. They were curious about the Emerald building and decided to enter it. As soon they did, the large doors shut! It started to spin and spin! They see beautiful vibrant colors while it is spinning, and then suddenly, it stops! The large doors open, and they see a very strange land that is called 'The Magical Land of Plenty'. It is very beautiful. They meet children of all different vibrant colors, and discover an upside down town where everything is free. When they walk into the pizza parlor and ice cream store they turn upside down! They see kids building tree houses out of the roots of trees that shoot up towards the sky, and tree branches growing into the ground! They learn of the one rule in the Magical Land of Plenty, that they must be respectful to one another. See what happens when they don't! Poppy and friends face a very mean greedy giant who puts demands on her and her friends. See who stands up to the bully mean giant and how it changes everything in the Magical Land of Plenty.

Wills' Diary of the Fateful Burke and Wills Expedition Univ of California Press

The Belfast of the first decade of the 19th century was a bustling and growing town of some 22,000 inhabitants. It was dominated by the cotton industry and the linen trade. The foundations of such potentially important enterprises as engineering and shipbuilding were being laid. Yet this was still a period when a trip to Dublin took 21 hours by coach (with a double guard for extra security) and when the inhabitants were ferried around the town by sedan chair. The directories here reprinted, from unique copies in the Linen Hall Library, vividly recreate this Belfast of cotton mills and learned societies, sailmakers and booksellers. It will be of interest both to genealogists and to those who care for the history of Belfast.

"A timely, sophisticated tale [that] explores what happens when a charmed life loses its luster." --O Magazine From the award-winning author of the new collection *Awayland*, an imaginative novel about a wealthy New England family in the 1960s and '70s that suddenly loses its fortune—and its bearings. An NPR Best Book of the Year Labor Day, 1976, Martha's Vineyard. Summering at the family beach house along this moneyed coast of New England, Fern and Edgar—married with three children—are happily preparing for a family birthday celebration when they learn that the unimaginable has occurred: There is no more money. More specifically, there's no more money in the estate of Fern's recently deceased parents, which, as the sole source of Fern and Edgar's income, had allowed them to live this beautiful, comfortable life despite their professed anti-money ideals. Quickly, the once-charmed family unravels. In distress and confusion, Fern and Edgar are each tempted away on separate adventures: she on a road trip with a stranger, he on an ill-advised sailing voyage with another woman. The three children are left for days with no guardian whatsoever, in an improvised Neverland helmed by the tender, witty, and resourceful Cricket, age nine. Brimming with humanity and wisdom, humor and bite, and imbued with both the whimsical and the profound, *Sons and Daughters of Ease and Plenty* is a story of American wealth, class, family, and mobility, approached by award-winner Ramona Ausubel with a breadth of imagination and understanding that is fresh, surprising, and exciting.

Print and public-radio journalist Wagner describes rebuilding after Hurricane Katrina...Despite Kafkaesque experiences with the infamous bureaucratic mess that threatened to undo New Orleans once and for all, the couple held on to their optimism for the city and their little piece of it. Wagner captures the nostalgia, the heartbreak and the friendships spawned in Katrina's turbulent aftermath with raw emotional honesty free of sentimentality. Unflinching, humorous and heartfelt. --Kirkus Reviews The cliché New Orleans gets into people's blood happens to be very true—just not always convenient. For Cheryl Wagner, along with her indie-band boyfriend, a few eccentric pals, and two aging basset hounds, abandoning the city she loved wasn't an option. This is the story of Cheryl's disturbing surprise view from her front porch after she moved back home to find everything she treasured in shambles. . .and her determined, absurd, and darkly funny three-year journey of trying to piece it all back together. In the same heartfelt and hilarious voice that has drawn thousands of listeners to her broadcasts on Public Radio International's *This American Life*, Wagner shares her unique yet universal story of rebuilding a life after it's been flooded, dried, and died. . . "Dark, funny, generous and jarring—occasionally tragic but never sentimental." --Paul Tough, author of *Whatever It Takes: Geoffrey Canada's Quest to Change Harlem and America* "A wonderful, touching, thoughtful, crazy, loving book." --Frederick Barthelme, author of *Waveland* and eleven other works of fiction including *Elroy Nights*, a finalist for the PEN/Faulkner Award and a *New York Times* Notable Book "A wild, blood and guts lived-to-tell-all memoir." --Porochista Khakpour, author of *Sons and Other Flammable Objects* "The book would be heartbreaking if it weren't so funny, so clear-eyed, and so beautifully fierce." --James Whorton Jr., author of *Frankland* "I love it." --Pete Jordan, author of *Dishwasher: One Man's Quest to Wash Dishes in Fifty States* "Imagine if Jack Kerouac had lived through the flood and wrote you a long, personal letter from the wreckage." --Jonathan Goldstein, author of *Ladies and Gentlemen, The Bible!* and *Host of CBC's and PRI's radio show WireTap* "Wagner writes with honesty and humor." --Annie Choi, author of *Happy Birthday or Whatever* "A work of art, unsparing of everything, including itself." --Jack Pendarvis, author of *Awesome*

In the first decades of the 1800s, white Americans entered the rugged lands of Arkansas, which they had little explored before. They established new towns and developed commercial enterprises alongside Native Americans indigenous to Arkansas and other tribes and nations that had relocated there from the East. This history is also the story of Arkansas's people, and is told through numerous biographies, highlighting early life in frontier Arkansas over a period of 200 years. The book provides a categorical look at commerce and portrays the social diversity represented by both prominent and common Arkansans--all grappling for success against extraordinary circumstances.

In 2008, Pastor Craig Goodwin and his young family embarked on a year-long experiment to consume only what was local, used, homegrown, or homemade. In *Year of Plenty*, Goodwin shares the winsome story of how an average suburban family stumbled onto the cultural cutting edge of locavores, backyard chickens, farmers markets, simple living, and going green. More than that, it is the timely tale of Christians exploring the intersections of faith, environment, and everyday life. This humorous yet profound book comes at just the right time for North American Christians, who are eager to engage the growing interest in the environmental movement and the quandaries of modern consumer culture. It speaks also to the growing legions of the "spiritual but not religious" who long for ways to connect heaven and earth in their daily lives. "Craig Goodwin invites us into a life of paying attention. This is an experiment in God's ordinary: life centered in relationship, lived in a physical world of spiritual meaning, and expressed in daily acts of attentiveness that are unhooked from patterns that degrade us and imperil the world. It turns out to be a wonderful and complicating adventure. Free from grandiosity, sentimentality, or ideology, this book tells its story with captivating humanity and motivating honesty." --Mark Labberton Director, Ogilvie Institute for Preaching Fuller Theological Seminary Author of *The Dangerous Act of Worship* "As someone who had gotten good at resisting grumpy calls to reject our consumerist culture, I found this book delightfully refreshing and compelling. Craig Goodwin describes an experiment in 'familial art'—a creative effort to seek out new and very practical experiments living as more faithful stewardship of the earth's resources. I haven't started raising chickens or making

homemade butter (yet!) after reading this wonderful book—but I have learned some profound lessons." --Richard J. Mouw President and Professor of Christian Philosophy Fuller Theological Seminary "Many clergy and other church leaders ask for examples of how and where missional work is actually taking place. Here is a leader faithfully engaging this work in a practical, local, on-the-ground way that leads to new expressions of church in mission. This is the kind of story about a church-in-process we need to hear." --Alan J. Roxburgh Founder of the Missional Network Author of *The Missional Leader* Adjunct Professor at Fuller Theological Seminary "I heartily recommend Goodwin's charming, thoughtful, and extremely funny book. With remarkable insight and refreshing humility, Craig Goodwin takes us with him and his family as they learn who and what is behind the things we so often thoughtlessly purchase. Goodwin reminds us how much of community and life we have sacrificed in the name of convenience and low price. Through engaging narrative he skillfully integrates lessons on faith, life, and God, integrating the spiritual with the material and the local with the global. This is an important contribution to the ongoing conversation about our role as Christians in taking care of and enjoying God's creation." --Scott Sabin Executive Director, Plant With Purpose Author of *Tending to Eden: Environmental Stewardship for God's People* Review in *Eco-Journey*

The Paradox of Plenty explains why, in the midst of two massive oil booms in the 1970s, oil-exporting governments as different as Venezuela, Iran, Nigeria, Algeria, and Indonesia chose common development paths and suffered similarly disappointing outcomes. Meticulously documented and theoretically innovative, this book illuminates the manifold factors—economic, political, and social—that determine the nature of the oil state, from the coherence of public bureaucracies, to the degree of centralization, to patterns of policy-making. Karl contends that oil countries, while seemingly disparate, are characterized by similar social classes and patterns of collective action. In these countries, dependence on petroleum leads to disproportionate fiscal reliance on petrodollars and public spending, at the expense of statecraft. Oil booms, which create the illusion of prosperity and development, actually destabilize regimes by reinforcing oil-based interests and further weakening state capacity. Karl's incisive investigation unites structural and choice-based approaches by illuminating how decisions of policymakers are embedded in institutions interacting with domestic and international markets. This approach—which Karl dubs "structured contingency"—uses a state's leading sector as the starting point for identifying a range of decision-making choices, and ends by examining the dynamics of the state itself.

Poverty of Plenty John Wiley & Sons

Among scholars who focus on the politics of natural resources, conventional wisdom asserts that resource-scarce states have the strongest interest in securing control over resources. Counterintuitively, however, in *Perils of Plenty*, Jonathan N. Markowitz finds that the opposite is true. In actuality, what states make influences what they want to take. Specifically, Markowitz argues that the more economically dependent states are on resource extraction rents for income, the stronger their preferences will be to secure control over resources. He tests the theory with a set of case studies that analyze how states reacted to the 2007 exogenous climate shock that exposed energy resources in the Arctic. Given the dangerous potential for conflict escalation in the Middle East and the South China Sea and the continued shrinkage of the polar ice cap, this book speaks to a genuinely important development in world politics that will have implications for understanding the political effects of climate change for many years to come.

Using Walt Whitman's *Leaves of Grass* as a springboard, Corinne Lee's second book of poetry is an eco-epic that investigates and

embodies the deterioration of America's environment due to industrial agriculture, fossil fuels, war, racism, and technology. Lee's book-length work draws upon a variety of poetic forms and histories—especially events in 1892, which included a surge in

lynching in America and the beginning of our coup d'état of Hawaii—to examine how modern technology facilitated the Holocaust, sustains America's racist prison industrial complex, fuels climate change, and ultimately underlies what has been called the Sixth Extinction. A daring and dazzling narrative of

great originality, Plenty advocates a feminist ecobuddhist perspective: only by dismantling false hierarchies, especially those of patriarchal capitalism, are we able to recognize that all agents of environmental collapse are one with us.
