French Creoles: A Comprehensive and Comparative Grammar is the first complete reference to present the morphology, grammar and syntax of a representative selection of French Creoles in one volume. The book is organised to promote a thorough understanding of the grammar of French Creoles and presents its complexities in a concise and readable form. An extensive index, cross-referencing and a generous use of headings provides readers with immediate access to the information they require. The varieties

included within the volume provide a representative collection of French Creoles from the Indian, Atlantic and Pacific Oceans, including: Mauritian Creole, Seychelles Creole, Reunion Creole (where relevant), Haitian Creole, Martinique Creole, Guadeloupe Creole, Guyanese French Creole, Karipuna, St. Lucia Creole, Louisiana Creole and Tayo. By providing a comprehensive description of a range of French Creoles in a clear and non-technical manner, this grammar is the ideal reference for all linguists and researchers with an interest in Creole studies and in French, descriptive and historical linguistics.

Each chapter of *First French Reader for Students* is filled with words that are organized by topic, then used in a story

in French. Questions and answers rephrase information and text is repeated in English to aid comprehension. The quick and easy-to-use format organizes many of everyday situations from knowing your way around the house, studying at university, or going shopping. *First French Reader for Students* makes use of the so-called ALARM or Approved Learning Automatic Remembering Method to efficiently teach its reader French words, sentences and dialogues. '[The] consistent interplay between theoretical and applied pursuits has always been a defining feature of systemic functional theory... This kind of mutual enrichment is clearly demonstrated in Alice Caffarel's work. The result is a description which penetrates to the heart of the language, revealing it at one and the same time as a specimen of the human semiotic and a unique resource for the continuous creation of meaning.' Jules Verne, a 19th-century French author, is famed for such revolutionary science-fiction novels as "Around the World in Eighty Days" and "Twenty Thousand Leagues Under the Sea". He has sometimes been called the "Father of Science Fiction", a title that has also been given to H. G. Wells and Hugo Gernsback. In all, Verne authored more than 60 books (most notably the 54 novels comprising the "Voyages Extraordinaires"), as well as dozens of plays, short stories and librettos. He

conjured hundreds of memorable characters and imagined countless innovations years before their time, including the submarine, space travel, terrestrial flight and deep-sea exploration. Verne is generally considered a major literary author in France and most of Europe, where he has had a wide influence on the literary avant-garde and on surrealism. Verne has been the second most-translated author in the world since 1979, ranking between Agatha Christie and William Shakespeare. Some of the works appear only in their original French texts, due to copyright restrictions. Table of Contents

 Spring 1625. Jack, a young Scottish  
 baker longing for adventure, seizes the  
 opportunity to work on a trading boat,  
 the Eagle, bound for Belgium and  
 France. When the Eagle is forced to halt

in La Rochelle for repairs, Jack discovers that his childhood friend Robin has gone missing after fighting for the Huguenots in the Battle of Blavet. Feeling obliged to seek him out, Jack's new journey takes him across northern Spain, where suspicion of both foreigners and non-Catholics is widespread. After encountering thieves masquerading as pilgrims, Jack discovers that possessing a book by Galileo can be dangerous: he needs to leave in a hurry! Set in the turbulent world of 17th century Europe, this story draws on real historical figures in a Britain and Europe uncannily like our own.

Mystère à Whitehorse, B.J. Daniels Une carcasse d'avion abandonnée au fond d'un ravin depuis plus de trente ans : c'est là une découverte qu'Eve Bailey aurait préféré ne jamais faire. Car non seulement elle trouve des ossements parmi les débris, mais également des

éléments venant étayer la conviction qu'elle s'est forgée depuis des années : elle n'est pas la fille de ses parents. Soupçonnant que l'affaire la dépasse et relève sans doute de la police, elle se résout à faire appel à Carter Jackson, le shérif de la ville. Non sans hésitation. Car Carter est aussi l'homme qu'elle a passionnément aimé dans sa jeunesse. Un homme qui l'a trahie, et qu'elle voudrait ne jamais revoir... Protection privée, Julie Miller Le jour où son supérieur lui demande de surveiller la demeure d'une certaine Cassandra Maynard, ancienne championne de patinage artistique, Mitch Taylor est désespéré : pourquoi lui confier une mission si routinière, à lui, qui brigue le poste de nouveau chef-adjoint de la police ? D'autant que sa protégée, loin

de lui faciliter la tâche, se montre terriblement hautaine à son égard, et refuse de lui dire pourquoi elle se barricade derrière les hauts murs de sa propriété. Pourtant, Mitch ne peut s'empêcher d'être attiré par son élégance si féminine et la douceur qu'elle tente de masquer sous son apparente froideur.

As humans, our many levels of language use distinguish us from the rest of the animal world. For many scholars, it is the recursive aspect of human speech that makes it truly human. But linguists continue to argue about what recursion actually is, leading to the central dilemma: is full recursion, as defined by mathematicians, really necessary for human language? Language and

Recursion defines the elusive construct with the goal of furthering research into language and cognition. An up-to-date literature review surveys extensive findings based on non-verbal communication devices and neuroimaging techniques. Comparing human and non-human primate communication, the book's contributors examine meaning in chimpanzee calls, and consider the possibility of a specific brain structure for recursion. The implications are then extended to formal grammars associated with artificial intelligence, and to the question of whether recursion is a valid concept at all. Among the topics covered: • The pragmatic origins of recursion. • Recursive cognition as a prelude to language. • Computer simulations of

recursive exercises for a non-verbal communication device. • Early rule learning ability and language acquisition. • Computational language related to recursion, incursion, and fractals • Why there may be no recursion in language. Regardless of where one stands in the debate, Language and Recursion has much to offer the science community, particularly cognitive psychologists and researchers in the science of language. By presenting these multiple viewpoints, the book makes a solid case for eventual reconciliation.

En décembre 1858, refusé par l'institution jésuite de Vaugirard, Jack, fils adultérin d'Ida de Barancy, une demi-mondaine, échoue dans le collège insalubre du mulâtre Moronval. Ida succombe au charme d'un des professeurs, le rimailleur d'Argenton, et quitte son riche amour pour son poète. Jack s'enfuit du collège et rejoint le couple après maintes tribulations. L'intelligence de l'enfant se développe au contact du docteur Rivals. Mais d'Argenton, qui ne l'aime pas, décrète qu'il sera ouvrier. Dans une île bretonne, Jack apprend son dur métier de fondeur chez les Roudic... Roman noir, comme le Petit Chose, inspiré par une histoire authentique, Jack reprend la trame d'une

enfance malheureuse, alors à la mode. La narration se centre sur le destin de Jack et en souligne l'implacable et fatal développement. Extrait : Son vieux devait être très riche, car madame ne regardait à rien, et il y avait un coulage énorme dans la maison, que dirigeait Mlle Constant, une femme de chambre factotum, seule et véritable influence du logis. C'était cette Constant qui donnait à sa maîtresse des adresses de fournisseurs, qui guidait son inexpérience de la vie parisienne et de la bonne société ; car, avant tout, le rêve, le désir de cette déclassée, désir qui lui était venu sans doute avec la fortune, était de passer pour une femme comme il faut, distinguée, noble, irréprochable.
