The Motives of Proteus W W Norton & Company Incorporated
 She's an innocent. Caught in the wrong

place at the wrong time. My Angel is the one who got away-the only person in the world I love. When she is caught in an unsanctioned bank robbery in my territory, only my reputation protects her. She should have stayed away. Instead, she charges back into my life like a shining beacon in my otherwise bleak existence. She has no place in my world where hardened criminals toy with the lives of the innocent. A better man would let her go - again. There's no white picket fence in life with a Bellandi, and she deserves so much more. I pushed her away once, but now that she's back I won't let anything else come between us. Not even Ivory herself. Disclaimer: Bloodied Hands is a full-length standalone novel with crime syndicate members and dark content. The Bellandi Crime Syndicate Series includes several full-length standalones with HEA that can be read in any order, but would

present a better reading experience following the suggested reading order.

 In 1902, the young German writer Rainer Maria Rilke travelled to Paris to write a monograph on the sculptor Auguste Rodin. He returned to the city many times over the course of his life, by turns inspired and appalled by the high culture and low society. Paris was a lifelong source of inspiration for Rilke. Perhaps most significantly, the letters he wrote about it formed the basis of his prose masterpiece,

The Notebooks of Malte Laurids Brigge. This volume brings together a new translation of Rilke's essay on poetry, Notes on the Melody of Things, and the first English translation of Rilke's experiences in Paris as observed by his French translator, Maurice Betz. "

A Drifting Year finds Haitian expatriate Laferrière plagued by his recollections. In this short novel written in stanzas, the young exile arrives in the unfamiliar city of Montreal. Here, he quickly discovers all the things endemic to the Canadian immigrant experience; racism, poverty, and disorientation plague the budding writer. Here is an author at his best when fiction and memoir exploit each other. The dreamscape at the end of the longer novel easily eclipses the cold streets of Montreal and the stinking slums of Port-au-Prince. If A Drifting Year is exploratory surgery, Dead Men is life-saving trauma. Despite all advances in medicine, time will not be cheated. Only writers like Laferrière can hope to make the living walk the earth forever. -Excerpt from Hal Niedzvieck's review in Quill and Quire, November 1997
The Spirit of Laws Lindhardt og Ringhof
In World War II, the French Resistance played a vital role in the Allied victory. Supported by Britain's Special Operations Executive, Resistance networks were formed, led and equipped by SOE agents. The Auduc family provided essential support to the network formed around Le Mans, France, by an American OSS agent and a French SOE agent. The Auduc's oldest son, Jean-Jacques, became the

youngest Resistance fighter to be awarded the Croix de Guerre. He was also awarded the U. S. Medal of Freedom and the French Legion of Honor for heroism as a 12 year old. The downing of two B-17's on July 4, 1943, brought the Auduc's face to face with the five surviving U. S. airmen. The airmen were first sheltered and then repatriated to England. The Auduc family and their fellows teach us how much people will sacrifice to gain freedom from an oppressor. American, British, Canadian and French worked in cloaked secrecy and harmony to rid the world of the greatest evil in recorded history.

Although the past two decades have seen a wide recognition of the notable fiction written in French by African women, little attention has been given to their equally significant poetry. A Rain of Words is the first comprehensive attempt to survey the poetic production of these women, collecting work by forty-seven poets from a dozen francophone African countries. Some are established writers; others are only beginning to publish their work. Almost none of the poems here have been published outside of Africa or Europe or been previously translated into English. The poems are accompanied by brief biographies of the poets. Supplementing these are a critical introductory essay by Irène Assiba d'Almeida that places women's poetry in the context of recent African history, characterizes its thematic and aesthetic features, and traces the process by which the anthology was compiled and edited, an essay by Janis A. Mayes discussing language politics, the cultural contexts within which the poetry emerges, and literary translation strategies, and an extensive bibliography. This landmark bilingual collection--the result of ten years of research, collection, editing, and translation--offers readers of English and French entry into a flourishing and essential genre of contemporary African literature.

Long neglected in mainstream history books, the Haitian Revolution (1791-1804) is now being claimed across a range of academic disciplines as an event of world-historical importance. The former slaves'

victory over their French masters and the creation of the independent nation of Haiti in 1804 is being newly heralded not only as a seminal moment in the transnational formation of the 'black Atlantic' but as the most far-reaching manifestation of 'Radical Enlightenment'. The best known Haitian writer to emerge in the years after the revolution is Baron de Vastey (1781-1820), who authored over ten books and pamphlets between 1814 and his murder in 1820. His first and most incendiary work, *Le système colonial dévoilé* (1814), provides a moving invocation of the horrors of slavery in pre-revolutionary Saint-Domingue. Its trailblazing critique of colonialism anticipates by over a hundred years the anticolonial politics (and poetics) of Césaire, Fanon, and Sartre. Translated here for the first time, Vastey's forceful unveiling of the colonial system will be compulsory reading for scholars across the humanities.

In the current context of globalization, relocation of cultures, and rampant technologizing of communication, orality has gained renewed interest across disciplines in the humanities and the social sciences. Orality has shed its once negative image as primitive, non-literate, and exotic, and has grown into a major area of scientific interest and the focus of interdisciplinary research, including translation studies. As an important feature of human speech and communication, orality has featured prominently in studies related to pre-modernist traditions, modernist representations of human history, and postmodernist expressions of artistry such as in music, film, and other audiovisual media. Its wide appeal can be seen in the variety of this volume, in which contributors draw from a range of disciplines with orality as the point of intersection with translation studies. This book is unique in its exploration of orality and translation from an interdisciplinary perspective, and sets the groundwork for collaborative research among scholars across disciplines with an interest in the aesthetics and materiality of orality. This book was originally published as a special issue of *Translation Studies*.
