*What's Hot in Literacy* University of Toronto Press  
 #1 NATIONAL BESTSELLER • "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy

socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports

his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since Into Thin Air's denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."

Explore the language of storytelling and discover the meaning and purpose of literature with Literary Devices. Definitions of important terms and many opportunities to practice the skills being taught make our resource user-friendly and easy to understand. Examine the fundamental devices that make up any story, starting with characterization. Break down a character into their simple parts: dialog, appearance, thoughts, actions, and reactions. Take a look at the time, place and conditions of a story. Learn how setting can help establish the mood or atmosphere. Use graphic organizers to map out the plot. Find out how a story unfolds with the rising action, climax and resolution. Next, dissect a story's main purpose by identifying its theme and point of view. Aligned to your State Standards and written to Bloom's Taxonomy, reproducible writing tasks, crossword, word search, comprehension quiz and answer key are also included.

Winner of the 2015 NAGC Curriculum Studies Award *Interactions in Ecology and Literature* integrates ecology with the concept of interactions and the reading of fictional and informational texts. This unit, developed by Vanderbilt University's Programs for Talented Youth, is aligned to the Common Core State Standards for English Language Arts and Next Generation Science Standards. Students will research questions such as "Should animals be kept in zoos?" and "Should humans intervene to control overpopulation of species?" They will examine relationships among living things and the environment as well as relationships between literary elements in texts through accelerated content, engaging activities, and differentiated tasks. Ideal for gifted classrooms or gifted pull-out groups, the unit features fictional texts from Lynne Cherry, Katherine Applegate, and Jacqueline Woodson; art from Mark Rothko and Georges Seurat; informational texts about deforestation and a variety of animals; biographies about Michael Jordan, J. K. Rowling, and Walt Disney; and videos about food chains, food webs, and more. Grades 2-3

Despite being a source of continuing interest to educational scholars, research into the literary understanding of elementary school students has emphasized written materials over multimodal mediums such as picturebooks. Focusing on students in Grades one and five, this book describes children's interpretations of and responses to a variety of contemporary picturebooks, specifically those books that employ Radical Change characteristics and metafictional devices. In dealing with picturebooks, Sylvia Pantaleo seeks to show the ways in which literature teaches artistic codes and conventions, critical thinking skills, visual literacy skills, and interpretative strategies. Aside from investigating specific picturebooks, Pantaleo discusses the broader implications of reading, viewing, and creating print and digital texts in schools. These exercises, she argues, reflect the changing nature of communication and representation in the world of elementary school students. Incorporating postmodernism, social constructivism, and other theoretical frameworks, Pantaleo contextualizes her research and examines ways in which literature highlights broader social and cultural characteristics. An extensively researched look at the pedagogical value of literature in the classroom, this book introduces new dimensions to discussions of contemporary picturebooks in elementary education and the social nature of intertextuality.

**Literary Devices: Using Graphic Organizers to Identify Characterization** Simon and Schuster

A veteran hockey writer takes on hockey culture and the NHL--addressing the games most controversial issue Whether its on-ice fist fights or head shots into the glass, hockey has become a nightly news spectacle--with players pummeling and bashing each other across the ice like drunken gladiators. And while the NHL may actually condone on-ice violence as a ticket draw, diehard hockey fan and expert Adam Proteau argues against hockey's transformation into a thuggish blood sport. In *Fighting*

the Good Fight, Proteau sheds light on the many perspectives of those in and around the game, with interviews of current and former NHL stars, coaches, general managers, and league executives, as well as medical experts. One of the most well-known media figures on the hockey scene today, famous for his funny, feisty observations as a writer for the Toronto Star and The Hockey News and commentator on CBC radio and TV, Adam Proteau is also one of the few mainstream media voices who is vehemently anti-fighting in hockey. Not only is his book a plea to the games gatekeepers to finally clamp down on the runaway violence that permeates the sport even at its highest level, he offers realistic suggestions on ways to finally clean the game up.

- Includes interviews with medical experts on head injuries and concussions, as well as with other members of the media
- The author not only wages an attack on the value of fighting in hockey—but also on the establishment hockey culture

Covering the most polarizing issue in hockey today, *Fighting the Good Fight* gives hockey fans and sports lovers everywhere a reason to stamp their feet and whistle—at a rare display of eloquence and common sense. [WebCatUpdater-Profile\\_5@1326742169646](#)

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Help students appreciate texts and write about them with conviction. Responding to a comprehension question is a surprisingly complex task. It draws on multiple skills: students must be able to read and analyze a text passage; consider what aspect of the text the question addresses; and then quickly and concisely write about their ideas, citing evidence to support them. Hence the prominence of constructed-response questions in standardized testing. In this refreshingly clear and upbeat

guide, literacy consultant Nancy Boyles gives a step-by-step demonstration of how to help students achieve success with this task—and in the process of unpacking the steps involved, demonstrates how the instruction can inspire teachers' creativity as well as deepen students' literacy skills. Filled with ready-to-use scaffolds for every stage of instruction—sets of sample questions, anchor charts, cue cards, answer frames—this is a one-stop resource for teaching students how to organize their thoughts about what they've read, and then set them down in writing.
