How to Draw What You See Handprint Books

The 35th anniversary edition of the classic how-to book that has helped millions of artists learn to draw. When it was originally published in 1970, *How to Draw What You See* zoomed to the top of Watson-Guptill's best-seller list—and it has remained there ever since. "I believe that you must be able to draw things as you

see them—realistically," wrote Rudy de Reyna in his introduction. Today, generations of artists have learned to draw what they see, to truly capture the world around them, using de Reyna's methods. *How to Draw What You See* shows artists how to recognize the basic shape of an object—cube, cylinder, cone, or sphere—and use that shape to draw the object, no matter how much detail it contains.

Drawing with Children Walter Foster Jr
After a family friend bought one of his drawings for 20p, six-year-old Jack came up with the idea to 'draw anything' in return for donations to the hospital that treats his two-year-old brother. His parents set up a website and thought they might make £100. After two weeks, Jack had over 500 picture requests and had raised over £10,000 for the Sick Kids Friends Foundation. Parents Ed and Rose with Jack, Toby and Noah appeared on the Fern Britton Show and Jack's project was featured on Russell Howard's Good News four times. Coverage by STV news, BBC news, and CBBC Newsround have all helped spread the word about this creative and generous little boy. Jack is slowly but steadily drawing the requested pictures which range from a 'dinosaur diving into a pool of jelly' (#1) to 'my (extremely bald) friend Brian dancing like a crazy man' (#80). He doesn't draw every day, only when he wants to, and his parents estimate that he'll finish at the end of August. For the latest drawings, or to make a donation yourself, visit jackdrawsanything.com.

Don't Ask a Dinosaur is about a party that goes wildly awry when a pack of dinosaurs with very unique physical attributes attempt to help set up. Written in a masterfully-executed rhyme, the book presents a cavalcade of lesser-known dinos and pairs their odd characteristics with little tasks that are hilariously impossible because of those features. "Don't ask Deinocheirus to set the forks and spoons," because his hands were enormous, "Therizinosaurus cannot blow up balloons," because he had very long claws. In the end they find the one thing everyone can help do is to blow out the candles on the cake...but will it create yet another mess?

A quest for the ultimate prize. Are you ready? It's the year 2044, and the real world has become an ugly place. We're out of oil. We've wrecked the climate.

Famine, poverty, and disease are widespread. Like most of humanity, Wade Watts escapes this depressing reality by spending his waking hours jacked into the OASIS, a sprawling virtual utopia where you can be anything you want to be, where you can live and play and fall in love on any of ten thousand planets. And like most of humanity, Wade is obsessed by the ultimate lottery ticket that lies concealed within this alternate reality: OASIS founder James Halliday, who dies with no heir, has promised that control of the OASIS - and his massive fortune - will go to the person who can solve the riddles he has left scattered throughout his creation. For years, millions have struggled fruitlessly to attain this prize, knowing only that the riddles are based in the culture of the late twentieth century. And then Wade stumbles onto the key to the first puzzle. Suddenly, he finds himself pitted against thousands of competitors in a desperate race to claim the ultimate prize, a chase that soon takes on terrifying real-world dimensions - and that will leave both Wade and his world profoundly changed. _____ Readers can't get enough of *Ready Player One* . . . *****
