Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent. - Booklist

How do you make a garden grow? In this playful companion to the popular Tap the Magic Tree and Touch the Brightest Star, you will see how tiny seeds bloom into beautiful flowers. And by tapping, clapping, waving, and more, young readers can join in the action! Christie Matheson masterfully combines the wonder of the natural world with the interactivity of reading. Beautiful collage-and-watercolor art follows the seed through its entire life cycle, as it grows into a zinnia in a garden full of buzzing bees, curious hummingbirds, and colorful butterflies. Children engage with the book as they wiggle their fingers to water the seeds, clap to make the sun shine after rain, and shoo away a hungry snail. Appropriate for even the youngest child, Plant the Tiny Seed is never the same book twice—no matter how many times you read it! And for curious young nature lovers, a page of facts about seeds, flowers, and the insects and animals featured in the book is included at the end. Fans of Press Here, Eric Carle, and Lois Ehlert will find their next favorite book in Plant the Tiny Seed.

Today Is Monday Raintree

One fine morning, a rooster decided he wanted to travel. In this mini-book edition, using strikingly designed, colorful collage illustrations and a beguiling simple text, Eric Carle takes his young readers on a trip with the rooster and his companions. As he travels, the rooster is joined by two cats, three frogs, four turtles, and five fish, offering the child a graphic introduction to the meaning of numbers, number sets, and addition within the context of an entertaining story. When night falls, the rooster's friends find he has made no provisions for their food or shelter and, disappointed, they abandon the expedition—once again in sets of five, four, three, and two, but this time in a declining series. Finally the rooster, too, decides that he has seen enough of the world and that he is, in fact, a little bit homesick. Eric Carle believes in letting children make learning discoveries at their own pace. This book can be read and enjoyed for its story and its beautiful illustrations alone; however, the child who is ready to begin to think mathematically will find additional pleasures in the opportunities presented in the text, the pictures and the diagrams for learning basic arithmetic concepts.
