The Colorado River Plateau is home to two of the best-known landscapes in the world: Rainbow Bridge in southern Utah and Monument Valley on the Utah-Arizona border. Twentieth-century popular culture made these places icons of the American West, and advertising continues to exploit their significance today. In *Rainbow Bridge to Monument Valley*, Thomas J. Harvey artfully tells how Navajos and Anglo-Americans created fabrics of meaning out of this stunning desert landscape, space that western novelist Zane Grey called "the storehouse of unlined years," where a rugged, more authentic life beckoned. Harvey explores the different ways in which the two societies imbued the landscape with deep cultural significance. Navajos long ago incorporated Rainbow Bridge into the complex origin story that embodies their religion and worldview. In the early 1900s, archaeologists crossed paths with Grey in the Rainbow Bridge area. Grey, credited with making the modern western novel popular, sought freedom from the contemporary world and reimagined the landscape for his own purposes. In the process, Harvey shows, Grey erased most of the Navajo inhabitants. This view of the landscape culminated in filmmaker John Ford's use of Monument Valley as the setting for his epic mid-twentieth-century Westerns. Harvey extends the story into the late twentieth century when environmentalists sought to set aside Rainbow Bridge as a symbolic remnant of nature untainted by modernization. Tourists continue to flock to Monument Valley and Rainbow Bridge, as they have for a century, but the landscapes are most familiar today because of their appearances in advertising. Monument Valley has been used to sell perfume, beer, and sport utility vehicles. Encompassing the history of the Navajo, archaeology, literature, film, environmentalism, and tourism, *Rainbow Bridge to Monument Valley* explores how these rock formations, Navajo sacred spaces still, have become embedded in the modern identity of the American West—and of the nation itself.

Beyond the Rainbow by Prabhakar is a work of fiction. Each story

is a poetic experience, aesthetic as well as elevating. The story connotes as a whole without any annotation. The moral and aesthetic coalesce. The stories are a portrayal of simple characters that come and go as silently as the day or the night. The stories approximate to an Indian macrocosm of vision and variety without any prejudice to their universal extent and intent. A pervasive sense of irony is ever there to chasten any romantic pigmentation. The book serves a sumptuous cocktail of romance and symbolism, humour and irony, realism and religion with a sympathetic human concern. It betrays a simple soul's predicament and pride. Going through the book the reader would hear the echoes of the past, the present, and the future of humanity. A journey from 'The Champion' to 'The Mahakumbha' is a pilgrimage through India.

Mrs. Gene Stratton-Porter has carried out this idea and really unearthed a "Crock of Gold" for the lover of the beautiful in fiction. It is a charming tale of the two greatest things in the world, Love and Friendship, with delicate pen pictures of "God's Country" interwoven. The touch of nature that makes the whole world kin was never better exemplified than in this story of Dannie, Jimmy and Mary, who lived and loved by the banks of the Wabash. A book to be thankful for and to remember all one's life.

At the Rainbow's End is about the lives of Jefferson and Mary Bright, plantation owners, about their struggles and the struggles of recently freed slaves to survive in a newly ordered society. Lurking in the background is the Ku Klux Klan, who kill and threaten all who would oppose them in a desperate effort to restore the old order, an insurgency that fosters, among other things, jealousy and murder, and events that threaten Jefferson and Mary with more than the loss of a way of life.

INSIDE THE RAINBOW by Sandy Sinclair, Alaskan bush teacher Not just memoirs of an ol' teacher but the author deals with how the events of the past may be connected to our current life. Beside the Alaska adventures there are some significant points made throughout the book: - There is a word for word interview with OSAMA bin LADEN as repeated from this author's contact with Peter Bergen of CNN, the only western journalist ever to personally talk with the jihadist in his cave back in 1997. This clearly explains the nature of our current conflict. - Rosa Parks not going to the back of the bus affected America. - Passengers of flight 93 had the foresight to sacrifice themselves for preservation of their fellow Americans in Washington DC, targeted by the hijackers of that flight. - The Sec. of State stood against a belligerent congress in 1867 to purchase Alaska from Russia proving the "collective wisdom" of our congress is often totally wrong. - JFK challenged us to do the impossible (go to the moon). This success gave us confidence to attempt other "impossibles." - Our total dependence on modern technical devises may be a big gain. But let us evaluate what we have lost in doing so. - There are productive ways for us all to deal with the national tragedy of Sept 11th 2001.

Rainbows Shadow and the *tablets of fate* is an adventure/fantasy tale about two novels, *Rainbow Alley* and *The Sorcerers Shadow* which have been mysteriously melded together creating an alternative dimension that has begun to write itself. The first novel, *Rainbow Alley*, is a mythical and magical novel of pure paradise as told and written by Joseph Collins to his grandson, Will Collins. The second novel, *The Sorcerers Shadow* is an adventure filled novel full of evil, sorcery and mayhem spewed throughout its pages and is the favorite story of Wills brother, Bryan Collins. As these two novels unify, they become more than mere pages,

as a blend of good and evil begin to emerge into reality. Rainbow Alley is a surreal paradise Grandpa Joe has claimed to actually visited when he was younger. It can only be accessed through a golden portal by bringing four critical elements together. One magical night, as the four elements are sought to come together to gain access to Rainbow Alley, the unthinkable happens. By accidentally placing *The Sorcerers Shadow* novel underneath the Rainbow Alley novel during the joining of only three of the four critical elements, Bryan has unknowingly set off the melding of these two stories. This creates their access to a new story and a land unlike anything the boys could ever imagine. However, this access would prove to be near fatal for Grandpa Joe, as he is stricken by a mythical force that sends him into a mysterious coma. Will and his best friend and neighbor, Jimmy Foster, set off on a journey, through the golden portal and into the merged stories in an effort to save his stricken grandfather. While in this new and sometimes foreboding and pleasurable land, Will is driven by a voice, claiming to show him the way to heal his grandfather. What the boys encounter is incomprehensible, as they experience a blend of paradise, infiltrated by evil, sorcery and mayhem first hand.

They are intelligent, compassionate, loyal, and protective. [Shadows Point to Rainbows: An Unwanted Dog Becomes an Injured Boy's Best Friend](#) is a tribute to one German shepherd, who was providentially assigned to a young man living in north-central Oregon. With a tap at the door, "Champion" came into young Jed Franklin's life. His mother faithfully recounts how this loving and faithful friend stood by his master, helping him recover from a life-threatening, life-changing accident when he was eight years old so he could grow into manhood. This touching and faith-building story about a gift of God wrapped in fur was written to share lessons and encouragements from the providential events of the life of a boy growing up with his dog. Rather than withdrawing into himself, the young man was able to see the

rainbows of life that follow the clouds.

A fictional re-creation of a day in the life of a Rainbow character named Sunflower begins the book, illustrating events that might typically occur at an annual North American Rainbow Gathering. Using interviews with Rainbows, content analysis of media reports, participant observation, and scrutiny of government documents relating to the group, Niman presents a complex picture of the Family and its relationship to mainstream culture - called "Babylon" by the Rainbows. Niman also looks at internal contradictions within the Family and examines members' problematic relationship with Native Americans, whose culture and spiritual beliefs they have appropriated.
