 Gulp, gulp, gulp: one toy after another disappears into the mouth of the hungry wolf. Now he's almost full, just a last little fly for dessert--uh-oh! The Wolf and the Fly combines story and guessing game. Together you can guess which object on the shelf will be eaten next, then, when everything re-emerges, the game starts anew. This is an original and delightful guessing, memory, observation and naming game from award-winning author and illustrator Antje Damm, whose *The Visitor* was a New York Times Illustrated Book of the Year.

My Big Wimmelbook - On the Farm: A Look-and-Find Book (Kids Tell the Story) (My Big Wimmelbooks) Storyplay

Brigitte Kronauer's kunstvoll komponierte Prosa ist inhaltlich durch eine offensive Lust am Alltäglichen und - durchaus im Sinne einer neuen politischen Literatur - ein ästhetisches Engagement für die Belange einer bedrohten Natur charakterisiert. Der Band beleuchtet, wie Kronauer Nebensächlichkeiten und Naturdinge in multiperspektivischen Narrationen zusammenführt. Worin bestehen sie also, die "Tricks der Diva"?

Fox's Socks NorthSouth Books

 Vergleichsarbeiten und das Wort "Kompetenz" bestimmen die aktuelle Diskussion zum Mathematikunterricht der Grundschule. Ist deshalb alles Bisherige zu verwerfen? Handelt es sich beim Begriff "Kompetenz" nur um alten Wein in neuen Schläuchen? Das sind nur zwei Fragen, denen im vorliegenden Buch nachgegangen wird. Der Leser findet hier eine auf die Unterrichtspraxis zugeschnittene Auseinandersetzung mit den Bildungsstandards. Sie umfasst die historischen Wurzeln der Kompetenzdiskussion ebenso wie fachliche Hintergründe der inhaltsbezogenen Kompetenzen und unterrichtspraktische Ideen. Exemplarisch wird gezeigt, welche Schwerpunkte im Unterricht gesetzt werden sollten, damit Kinder kompetent im Umgang mit Mathematik werden. Zu jedem inhaltlichen Bereich bietet das Buch mit einer Fülle von Aufgaben und mit Lösungswegen der Kinder Anregungen für den tagtäglichen Unterricht. Dabei wird deutlich, dass sich Kompetenz nicht auf das richtige Lösen einer Aufgabe reduzieren lässt, sondern dass erst die Lösungswege der Kinder Aussagen über erreichte Kompetenzen ermöglichen.

Pierre the Maze Detective: The Search for the Stolen Maze Stone One Day on Our Blue Planet

A captivating series of board books with amazing real-life sounds! *Laura's Star* John Benjamins Publishing

Co-founder of the Women's March makes her YA debut in a near future dystopian where a young girl and her brother must escape a xenophobic government to find sanctuary. It's 2032, and in this near-future America, all citizens are chipped and everyone is tracked--from buses to grocery stores. It's almost impossible to survive as an undocumented immigrant, but that's exactly what sixteen-year-old Vali is doing. She and her family have carved out a stable, happy life in small-town Vermont, but when Vali's mother's counterfeit chip starts malfunctioning and the Deportation Forces raid their town, they are forced to flee. Now on the run, Vali and her family are desperately trying to make it to her tía Luna's in California, a sanctuary state that is currently being walled off from the rest of the country. But when Vali's mother is detained before their journey even really begins, Vali must carry on with her younger brother across the country to make it to safety before it's too late. Gripping and urgent, co-authors Paola Mendoza and Abby Sher have crafted a narrative that is as haunting as it is hopeful in envisioning a future where everyone can find sanctuary.

All Around Bustletown: Winter Little Tiger Press

This edited volume constitutes the first serious, sustained examination of the study of children's books for children aged from 0 to 3 with contributions by scholars working in different domains and attempting to assess the recognition of the role and influence of children's literature on the cognitive, linguistic, psychological and aesthetic development of young children. This collection achieves a balance between theoretical, empirical, historical and cross-cultural approaches by examining the broad range of children's books for children under three years of age, ranging from early-concept books through wimmelbooks and ABC books for small children to picture books that support the young child's acquisition of behavioral norms. Most importantly, the chapters proffer new insights into the strong relationship between children's books for young children and emergent literacy, drawing on current research in children's literature research, visual literacy, cognitive psychology, language acquisition, picture theory and pedagogy."
