14 Fun Facts About the Galilean Moons of Jupiter Learning Island

Does Neptune have a lot of winds? What is at the core or center of Neptune? Neptune is slowly turning itself into what precious mineral? What is the coldest place in our solar system? (Hint: It isn't the planet,) Learn the answer to these questions and many more fun facts in this 15-Minute Book. Neptune is the last planet in our solar system. It is so far away that scientists do not know much about it, but here are some things they do know. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

Learning Island

You see it every night in the night sky, but how much do you really know about the moon? Here are some things you may not know. Do you know: What one thing is different about our moon from every other moon we have found? What kind of atmosphere is there on the moon? How many sides of the moon do we see? What happened to the footprints of the astronauts that stood on the moon? Find out in this book, and surprise and amaze your friends with these fun facts about our moon. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About Neptune Learning Island

It was once thought that our solar system ended at Saturn. Then the first telescopes revealed Uranus and Neptune. Differences in the calculations of the gravity of these giants set off another search and Pluto was discovered. Pluto was then thought to be the last planet of our solar system. Beyond it was empty space - until astronomers started looking at comets. Huge balls of ice, zipping through the solar system, past the planets, around the sun and back out again. Where did they come from? Where did they go? And what made them come back? That's when scientists discovered the Kuiper Belt and the Oort Cloud. Read this book and find out: How many types of comets are there? What formed the Kuiper Belt? How big is the Kuiper Belt? What is the Oort Cloud? How big is the Oort Cloud? How long does it take sunlight to reach the Oort Cloud? Find out the answers to these questions and more and amaze your family and friends with these fun facts. Ages 8 and up. All measurements in American and metric. The Educational Version has activities that meet Common Core Curriculum Standards. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About Mars Learning Island

You may think the Solar System consists of the sun and the eight planets that orbit around it. However, there are other things out there. There are comets, moons, asteroids, meteors, dust, ice, rock and much more. Plus there is a whole lot of man made junk. How much do you know about the solar system? Which planet had the potential to become a star? How many asteroids are there in the asteroid belt? How average is our sun? How far does the sun's gravity extend? How old is our solar system? The Educational Version has activities that meet Common Core Curriculum Standards. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About Uranus Learning Island

Animal teeth are often very different from our own. They are not only shaped differently, they also work differently. Here are some strange things scientists have discovered about animal teeth. What animal has the strongest bite force of any mammal? What do lemurs use your teeth for? What is strange about the water deer's teeth? How much would a single mammoth tooth weigh? What color are a beaver's teeth? Who has the biggest teeth of any land animal? Find out the answers to these questions and more in this fun 15-minute book about animal teeth. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About the Yangtze: A 15-Minute Book Learning Island

How old is Earth? How fast does Earth spin? What is happening to Mount Everest, the highest place on Earth? What is the lowest place on Earth? Learn the answer to these questions and many more fun facts in this 15-Minute Book. Earth is the only planet in the universe that has life. It orbits an ordinary star in the outer edge of The Milky Way Galaxy. It is a small rocky planet, third in line from its sun. Seventy percent of it is covered by water. It is our home. But how much do you really know about it? The Educational Version has activities that meet Common Core Curriculum Standards. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About the Lighthouse of Alexandria Learning Island

Alexander the Great was a Greek ruler. He conquered many lands. He also built or named 17 cities Alexandria - after himself. One of these cities is in Egypt, 20 miles west of the Nile. In this a massive, ancient lighthouse was built. The Lighthouse of Alexandria is one of the Seven Wonders of the Ancient World. Amaze your family and friends with these fun facts about the Lighthouse of Alexandria.

14 Fun Facts About Animal Eyes Learning Island

You may think the Solar System consists of the sun and the eight planets that orbit around it. However, there are other things out there. There are comets, moons, asteroids, meteors, dust, ice, rock and much more. Plus there is a whole lot of man made junk. Do you know the answers to these questions about the Solar System? Where is The Main Asteroid Belt? Are all the dwarf planets out beyond Pluto? What is Ison? What formed the Kuiper Belt? Why do scientists say Pluto was “discovered by mistake”? Which planet had the potential to become a star? This book is a set of seven 14 Fun Facts books, plus additional facts. The books are: 14 Fun Facts About the Solar System 14 Fun Facts About the Sun 14 Fun Facts About Pluto 14 Fun Facts About Comets 14 Fun Facts About Dwarf Planets 14 Fun Facts About Asteroids 14 Fun Facts About the Kuiper Belt and the Oort Cloud Learn about our solar system with these books of fun facts. Ages 9 and up. Measurements in both American and Metric. Educational Versions include exercises designed to meet Common Core standards. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About the Sphinx: A 15-Minute Book Learning Island

How much of America’s rainfall ends up in the Mississippi River? Which mountain range grew around the Danube River? Are there more kinds of fish in the Amazon or in the ocean? The Thames was once a tributary of what European river? What is the “Ghost City” of the Yangtze? Learn the answer to these questions and many more fun facts in this group of seven 15-Minute Books. Rivers can have many fascinating facts. Surprise your friends, and even your parents with these fun facts. This compilation includes the following 15-minute books: 14 Fun Facts About the Amazon 14 Fun Facts About the Nile 14 Fun Facts About the Danube 14 Fun Facts About the Yangtze River 14 Fun Facts About the Mississippi River 14 Fun Facts About the River Thames 14 Fun Facts About Australia’s Murray River Reading Level: 6.9 All measurements in American and metric. minutes a day.

14 Fun Facts About the U.S. One Dollar Bill: A 15-Minute Book Learning Island

The Tiber River begins in the Apennine Mountains in Central Italy. It flows through Umbria, Tuscany, Lazio and Rome before emptying into the Tyrrhenian Sea near Ostia. The Tiber carries a lot of mud and silt, which constantly blocks its mouth. It floods often, providing fertile land for agriculture and burying cities. It has also been a dumping ground for executed criminals. Do you know: Why does the Tiber River flood? Who is the Tiber River named after? What geographic feature of Rome was created by the Tiber River? How has the Tiber River raised many sections of Rome? Find out the answers to these questions and more and amaze your family and friends with these fun facts. Ages 8 and up. All measurements in American and metric. Reading Level: 6.9 Learning Island believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About Earth Learning Island

Our sun is an average star in our galaxy. It is a sphere of burning gas that provides light and heat. It makes our plants grow and allows them to turn carbon dioxide into breathable oxygen. If our sun were to shine a little less or a little more brightly, life as we knew it would not exist. A drop of less than 2% of the sun’s energy output would turn Earth into an ice-covered planet. So how much do you know about this glowing sphere that controls our world. Can you answer these questions: What is the sun made up of? How long does it take the sun to orbit the center of our galaxy? How many layers of atmosphere does the sun have? What are solar winds and what do they do to Earth? What impact do solar flares have on Earth? Find out more about the Sun and amaze your family and friends with these fun facts. All measurements in American and metric. The Educational Version has activities that meet Common Core Curriculum Standards. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About Uranus: A 15-Minute Book Learning Island

On January 7, 1610, Italian astronomer Galileo Galilei turned his newly developed telescope to Jupiter. He discovered four objects orbiting the giant planet. It took him another night’s observations to clearly distinguish between two of them. He called them “The Medicean planets”, after the Medici family (who ruled Italy at the time), and gave them numbers. German astronomer Simon Marius also claimed to have seen these objects at about the same time. He never published any documentation, and the credit was given to Galileo. It was nearly 250 years later before they were given names. They are now known as the Galilean moons, Io, Europa, Ganymede and Callisto. They were created at the same time as Jupiter and contain 99.999 percent of all the mass in orbit around Jupiter. How much do you know about these moons? What would Ganymede be called if it did not orbit Jupiter? What is the most volcanic place in our solar system? Why does Europa have spots? Which moon is a good candidate for containing life? Find out the answers to these questions and more and amaze

your family and friends with these fun facts. Ages 8 and up. All measurements in American and metric. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. Open the world of reading to a child by having them read for 15 minutes a day.

14 Fun Facts About the Statue of Liberty: A 15-Minute Book Learning Island

The Yangtze River is known by many names. From its headwaters in the glaciers of Tibet, it drops nearly 16,000 feet (5000 metres) on its journey to the East China Sea. For millions of years it has cut its path through the land. It flows through mountains and deep gorges and along broad, flat valley plains, taking water from thousands of rivers and lakes. It is shrouded in mists and mountains, stories and legend. Its basin is home to nearly one third of the population. To the Chinese, the Yangtze is more than a river; she is a living, breathing part of their very lives. How much do you know about the Yangtze River? Can you answer these questions: Where does the Yangtze start? How many rivers and streams empty into the Yangtze? What is the "Ghost City" of the Yangtze? What happened to the City of Fengdu? Find out the answers to these questions and more and amaze your family and friends with these fun facts. Ages 8 and up. All measurements in American and metric. The Educational Version has activities that meet Common Core Curriculum Standards.

LearningIsland.com believes in the value of children practicing reading for 15 minutes every day.
