The stunning bestseller by Benji Davies, winner of the inaugural Oscar's First Book Prize. Noi and his father live in a house by the sea, his father works hard as a fisherman and Noi often has only their six cats for company. So when, one day, he finds a baby whale washed up on the beach after a storm, Noi is excited and takes it home to care for it. He tries to keep his new friend a secret, but there's only so long you can keep a whale in the bath without your dad finding out. Noi is eventually persuaded that the whale has to go back to the sea where it belongs. For Noi, even though he can't keep it, the arrival of the whale changes his life for the better - the perfect gift from one friend to another. This story aims to show the way of living of the biggest animal in the world: the blue whale. Blue whales lead a lonely life spending most of the time on their own and rarely joining some other whales. The blue whale in this story admires the sun and all the beauty of the ocean. He faces danger and must protect himself. The blue whale is curious of other creatures such as people. He even makes some short friendships with a boy. But it never lasts too long as whales and a boy have quite different ways of living. And time to separate comes. Such a short friendship reminds the reader that the whale is made to lead a lonely life. Finally, the whale must do his duty and give birth to other whales. In real life, the blue whales never make a family for their whole life and babies are being raised by their moms. So the story aims to stress it: maybe, whales would love to live a family life, he will even give birth to few whale babies through his life. But he will never stay with them for a long time. He has to come back to his home as he is made to live a lonely life. However, he is the biggest animal in the world, lonely but beautiful and this beauty is seen in his movement, splashing, swimming, swallowing, and leading this simple lie in the dark waters. And that's what makes him so special, so interesting, so impressive and must be shown through the illustrations.
