The designs are simple

and the style is straightforward and pleasing. ...The photos are exceptional... you will be pleased with the designs.”—The Woodworker’s Gazette. Nature Form & Spirit Lyons Press Includes how-to information. **Studio Furniture** GMC Publications Woodworkers use these books as a source of inspiration and project ideas. Interior designers and

architects use them as a means to keep up with the latest trends in furniture design. The series has been published since 1977, to date, seven Design Books have been published, the last in 1996. The series is being expanded in response to reader requests. Past design books were basically a catalogue of woodworking projects selected by a panel of experts. "Design Book Eight" will

depart from that tradition by featuring fewer examples, but offering design talk about each piece as well as detail shots. The book is organized by class of furniture: Tables, Chairs, Desks, Cabinets, Book cases, Home Entertainment Furniture, Beds and Bureaus. *Classic American Furniture* Kodansha Explores the philosophy, career, and the pivotal

moments of struggle and inspiration of ten top craftspeople. This title shines the spotlight on some of the world's best woodworkers, including John Makepeace, John Cederquist, Jack Larimore, Gary Knox Bennett, and Peter Danko. 'Furniture with Soul' follows in the grand tradition of two other classic Kodansha books, 'Sam Maloof: Woodworker' and 'The Soul of a Tree: A Master

Woodworker's Reflections' by George Nakashima. Both books have inspired several generations of contemporary artists working in wood, including **Furniture with Soul** Kodansha Amer Incorporated "With its emphasis on the author's personal philosophy... this book aims to appeal to all levels of woodworkers. [The] author relates tales of his own mistakes...while providing encouragement

nt...his furniture is quite beautiful and superbly made. I sense that his greatest satisfaction comes from launching an apprentice's career."--"Fine Woodworking. "
Modern Furniture Projects GMC Publications
On a farmlike compound near New Hope, Pennsylvania, the author, his family, and fellow woodworkers create exquisite furniture from richly grained, rare timber.

This book is an intimate look at his artistry, his philosophy, his life. The author's search for the meaning of life took him as a young man to Paris, Tokyo, and Pondicherry, India. In India, he found the inner peace for which he had been searching and began to find ways to work with timber. He writes about the grandeur of ancient trees and stunning figured woods and explains how he selects and prepares

his materials. Above all, he impresses us with his devotion to discovering the inherent beauty of wood so that noble trees might have a second life as furniture.
