After his science fair experiment accidentally takes out the principal, Simon Snotwen finds himself seated in the office of the strange and mysterious Dr. Rosen. What Simon doesn't know is that Dr. Rosen is far more than Lincoln Academy's assistant principal; he is the leader of a secret

organization called the Science Squad. Simon soon learns it was more than chance that brought him to his new school, as he is thrown into a series of tests that involve battling an acid-spitting mutant, unveiling secret writings, and defusing a bomb that threatens to blow up the entire building! Join Simon on his quest and discover some cool science along the way, as you try the same experiments used by The Squad. This book will teach you how to: create invisible ink; cause a bubbling chemical reaction; and make your own acid/base testing solution!
