Rural Tourism and Sustainable Business Brill
 The novel is the ultimate bestseller in Georgia and is based on

one of the most tragic events of the 1980s when seven young people hijacked an airplane in an attempt to escape from the Soviet Union. It was a reckless move at that time when even to think about escape was forbidden. The Soviet government sentenced most of them to death. The public reaction was split. Some people would consider the young rebels as terrorists, whilst for others they were heroes. Flight from the USSR allows the reader to closely follow the leading characters, and learn more about their motivations and aspirations. Jeans were a symbol of freedom at the time, as it was as rejected to wear as the idea of a free world. The novel has been adapted for stage and is one of the most successful plays at Georgian Free Theater. Quotation "The book is not a canonization. Turashvili describes, colors and romanticises, but he does not condemn or glorify his characters anywhere. Flight from the USSR is a beautiful novel and it deserves a large readership." (c) 8Weekly "He is confident and the storytelling style of Turashvili is sober and direct. The reader does not remain untouched by his story." (c) Literair Nederland *A Morphological Study of Egyptian Colloquial Arabic* Corwin Press This very practical and applied K-8 reading methods book has a focus on issues of diversity (developmental, cultural, and

linguistic) and new literacies. Written by one of the most dynamic author teams in the field of Reading and Literacy, the fourth edition of *All Children Read* continues to offer K-8 teachers the best practices for developing reading and writing in all students. Ancient Iran and Its Neighbours Oxford University Press
Only a highly comparative study of medieval literature can help us to comprehend how much fundamental ideas and concepts were shared throughout the entire period. The idea of the trail as an epistemological vehicle for the protagonists proves to be critical in reaching a deep understanding of medieval values and ideals.

Space and Time in Language Arx Publishing, LLC
My brother, Jonathan, knew that I was going to die. 'How can things be so terrible,' I asked. 'That some people have to die, when they're not even ten years old?' 'I don't think it's that terrible,' said Jonathan. 'I think you'll have a marvellous time.' A tender story of courage, love, and life after death.

Educators' Handbook Longman Publishing Group
Harry is furious that he has been abandoned at the Dursleys' house for the summer, for he suspects that Voldemort is gathering an army, that he himself could be attacked, and that his so-called friends are keeping him in the dark. Finally rescued by wizard bodyguards, he discovers that Dumbledore is regrouping the Order of the Phoenix - a secret society first formed years ago to fight Voldemort. But the Ministry of Magic is against the Order, lies are being spread by the wizards' tabloid, the Daily Prophet, and Harry fears that he may have to take on this epic battle against evil alone.

All Children Read IDEA
The dictionary offers a complete compilation and a historical-comparative reflection of the hereditary lexis of the Kartvelian (South Caucasian) language family. It represents the latest stage of etymological research, contains a wealth of new lexical entries, corrections of earlier attempts and new reconstructions. The introduction provides a survey of general data of the four Kartvelian languages (Georgian, Mingrelian, Laz, Svan), characterizes the historical-comparative research in short and provides a detailed description of the system of regular phoneme correspondences. The main chapter presents the Kartvelian lexis in separate entries. The reconstructed forms of the root- and affix morphemes are listed in alphabetical order followed by instances of the Kartvelian languages. Each entry covers the phonological development of the lexical item from its original form to its present state and is supplemented by references.

The Brothers Lionheart Regnery Publishing
Turning the envelope over, his hand trembling, Harry saw a purple wax seal bearing a coat of arms; a lion, an eagle, a badger and a snake surrounding a large letter 'H'. Harry Potter has never even heard of Hogwarts when the letters start dropping on the doormat at number four, Privet Drive. Addressed in green ink on yellowish parchment with a purple seal, they are swiftly confiscated by his grisly aunt and uncle. Then, on Harry's eleventh birthday, a great beetle-eyed giant of a man called Rubeus Hagrid bursts in with some astonishing news: Harry Potter is a wizard, and he has a place at Hogwarts School of Witchcraft and Wizardry. An incredible adventure is about to begin! Having become classics of our time, the Harry Potter eBooks never fail to bring comfort and escapism. With their message of hope, belonging and the enduring power of truth and love, the story of the Boy Who Lived continues to delight generations of new readers.

Addresses a range of human diversity found in schools - including nationality, ethnicity, race, religion, gender, class, language, sexual orientation, and ability levels. Based on the assumption that change begins with the individual teacher, this text argues that prospective teachers need to incorporate issues of diversity in all of their work.

The fourth millennium BC was a critical period of socio-economic and political transformation in the Iranian Plateau and its surrounding zones. This period witnessed the appearance of the world's earliest urban centres, hierarchical administrative structures, and writing systems. These developments are indicative of significant changes in socio-political structures that have been interpreted as evidence for the rise of early states and the development of inter-regional trade, embedded in longer-term processes that began in the later fifth millennium BC. Iran was an important player in western Asia especially in the medium- to long-range trade in raw materials and finished items throughout this period. The 20 papers presented here illustrate forcefully how the re-evaluation of old excavation results, combined with much new research, has dramatically expanded our knowledge and understanding of local developments on the Iranian Plateau and of long-range interactions during the critical period of the fourth millennium BC.

Tracing the Trails in the Medieval World OUP Oxford

I think this book is a great achievement. It is packed with useful information and thought-provoking analysis and discussion. The work on technological development is, especially, a very valuable original contribution to the work in this field. The book illuminates the technological trajectory so often ignored by economists, but which underlies Schumpeter's "clusters" of innovations, and the emphasis on trunk innovations and analysis of their role is of particular interest. Christopher Freeman, SPRU Science and Technology Policy Research, University of Sussex, UK and Maastricht University, The Netherlands This pathbreaking book addresses the economics of technological change as revealed by a unique methodology that uncovers the true nature of technological development. Masaaki Hirooka bases this new approach to the economics of technological change on the recognition of the nonlinear dynamic nature of innovation. In order to provide a richer understanding of technological development, the book focuses on the period of innovation prior to market launch, grounding the analysis within a distinct innovation paradigm. This is expressed using three logistic trajectories technology, development and diffusion which make it possible to interpret and better understand technology foresight, infrastructure formation, long business cycles and national innovation systems. The author emphasizes the importance of the timing of innovation commitment, knowledge transfer between and within these trajectories, and the evolutionary character of innovation. Those with an interest in economics, macroeconomics, technological change and evolutionary economics will find this book to be a highly stimulating and fascinating read.
