*SBA MCQs for the  
MRCS MCQs for FRCS*  
The authors of these  
books have all recently  
passed FRCS and are  
on junior surgical  
training programmes

at various hospitals in  
the UK. The FRCS  
examination now  
consists of three parts.  
Part A is composed of  
an MCQ paper on basic  
medical sciences which  
must be passed before  
proceeding. One third  
of candidates fail at  
this stage and must go  
to the expense of

resits. These books fulfil the need for sample MCQs for FRCS candidates.

*MCQs for ENT* Oxford University Press, USA

The aim of this book is to provide a selection of representative MCQs together with a detailed explanation of each answer covering the topic in depth.

Each chapter has been written by experienced Urological surgeons who have already been successful in passing the examination. The scope of this book will be an invaluable addition to individuals sitting the FEBU and similar exams in the USA, Australia and Asian countries.

Established consultants may also find the text useful as a 'refresher' in areas outside their subspecialist interest.

**Succeeding in the**

**FRCS (T and O) CRC Press**

This book has been written specifically for candidates sitting the oral part of the FRCS (Tr & Orth) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts, evidence-based medicine and major exam topics. Edited by the team behind the successful Candidate's Guide to the FRCS (Tr & Orth) Examination, the book is structured according to the four major sections of the examination; adult elective orthopaedics, trauma, children's/hands and upper limb and applied basic science. An introductory section

gives general exam guidance and end section covers common diagrams that you may be asked to draw out. Each chapter is written by a recent (successful) examination candidate and the style of each reflects the author's experience and their opinions on the best tactics for first-time success. If you are facing the FRCS (Tr & Orth) you need this book.

**MCQs and EMQs in Surgery: A Bailey & Love Companion Guide** Radcliffe

Publishing

What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not

this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics. Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for

the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams.

*MCQs for the FRCS(Urol) and Postgraduate Urology Examinations* JP Medical Ltd

The syllabus for the FRCS (ORL-HNS) is vast, and a sound preparation for the exams has traditionally involved assimilating knowledge from a wide range of sources. This book provides a focussed guide for exam candidates. More than a question and answer book, this book is a coaching manual. Each section features a combination of model answers, pearls of wisdom, checklists and pointers for further reading. Detailed advice is provided for both Part 1 and Part 2

of the examination.

Viva topics that have featured in the exam in recent years have been included. and have then been supplemented by invaluable editorial contributions from leaders in each of the subspecialties.

Trainees frequently comment that exam preparation is an enlightening process and the knowledge gained would have served them well during their time as an ENT registrar or Otorhinolaryngology resident. This book will also serve as a valuable learning tool for trainees as early as ST3 and facilitate their development of effective and safe clinical practice.

Medical Ltd  
 Indispensable  
 neurosurgical board  
 examination book  
 mirrors ABNS Q&A  
 format Comprehensive,  
 but small enough to  
 take on rounds, the  
 updated second edition  
 of this popular  
 neurosurgical board  
 review provides a  
 robust study  
 companion for the  
 American Board of  
 Neurological Surgery  
 (ABNS) primary  
 examination. The text  
 includes an impressive  
 number of questions  
 with concise and well-  
 delineated  
 explanations. Suitable  
 for thorough board  
 preparation, the  
 question and answer  
 format enables busy  
 neurosurgical residents  
 to efficiently practice,  
 review, and improve  
 upon their  
 comprehension. In

addition to all the  
 fundamental  
 disciplines that are  
 relevant to the practice  
 of neurosurgery, this  
 edition encompasses  
 the latest advances in  
 the field including  
 endovascular  
 approaches, minimally  
 invasive spinal surgery  
 techniques, and  
 genetics. The diverse  
 and challenging  
 questions encourage  
 the acquisition of  
 factual knowledge and  
 application of logic.  
 This is the definitive  
 ABNS study book  
 because it most closely  
 mimics the written  
 board examination  
 format. Key Highlights  
 Multiple choice Q&A  
 format provides highly  
 effective study tool  
 Questions organized  
 randomly, thereby  
 simulating the written  
 examination Short  
 explanations provide

readers with a clear understanding of the correct answers This is a must-have primer that will help neurosurgeons and neurosurgical residents study and pass the rigorous written board exam. Board-certified neurosurgeons will also find it a handy and useful resource to prepare for MOC examinations or to brush up on clinical know-how.

Orthopaedic Basic Science for the Postgraduate Examination Libra Pharm/Petroc Press  
MCQs for ENT: Specialist Revision Guide for the FRCs is a key resource for candidates preparing to sit the FRCs (ORL-HNS). It contains over 300 single best answer questions and over 70 extended matching

questions to help candidates prepare for all aspects of ENT they may face in this challenging exam. Written by expert consultants who have succeeded in the exam, this resource provides comprehensive coverage of theory and practice, including new questions on challenging topics such as electroneurography and voice clinic procedures, and questions on rare topics such as oropharyngeal cancers. All answers have full explanations, providing candidates with high-quality self-assessment in order to maximize exam success. Providing a thorough assessment of the reader's ENT knowledge, this is an essential revision book

for any candidate facing the FRCS ORL-HNS exam.

MCQs in Applied Basic Sciences Cambridge

University Press

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery.

The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-s

A study guide for candidates of the Fellowship of the Royal College of Surgeons examination. Contains revision notes, MCQs and SBAs.

**Postgraduate Orthopaedics** CRC Press

Authors: Prof M Rafique Anjum FRCS (Edinburgh) FRCS (Glasgow) DipUrol (London) Dr Shoaib Rafique MCh Urology (Cambridge), MSc Advanced Surgical Practice (Cardiff) MCQs in Urology is an ideal, up-to-date and authentic resource for preparing for postgraduate exams in

Urology such as American Board exams, Fellowships of the Royal Colleges of Surgeons of UK FRCS(Urol) and professional exams in countries across the globe. The book has the following qualities:

- Authentic and current: Most of the MCQ's have been framed from recently published standard urology textbooks, guidelines of major urological organisations and authentic literature including systematic reviews and meta-analyses.
- Thorough: Through 25 chapters and 650 MCQ's, the book covers all avenues of the vast speciality of Urology. The number of MCQ's in each chapter is varied according to the importance of the

subject. Each chapter is divided into two parts i.e. questions and answers.

- High-standard MCQ's: Each chapter contains MCQ's to evaluate the knowledge, cognitive acumen and clinical skills of the residents. Numerous questions based on real-life scenarios feature frequently in each chapter. The questions feature themes commonly tested in postgraduate examinations.
- Comprehensive explanations: The residents will appreciate the detailed explanation of each question in the book, providing utmost clarity regarding why the chosen option is correct. Unlike MCQs in Urology, detailed explanations are often missing from most

MCQ books, leaving students with some queries about the asked question and subject. - Relevant figures and tables: To enhance learning and retention, figures and tables are duly included where necessary for added clarity of the subject. These are presented separately in an appendix at the end of the book. - References and further study: Authentic sources of all detailed explanatory answers, whether from high-standard textbooks, published literature or clinical guidelines, are given in italics. At the end of each chapter, suggestions for further study on the subject are listed. Excerpt from an editorial review by the world-renowned Urologist Dr Noor NP

Buccholz MBBS, MD, FSSU, FKNMG, Founder & chairman of U-merge (Urology for emerging countries) and ESD (Experts in Stone Disease); former Director of Stone Services & Endourology at The Royal London Hospital, UK. "I have to congratulate the authors of "MCQ's in Urology" for the enormous effort they have put into compiling a mountain of knowledge into a comprehensive, easy to use and well-thought-through learning resource. All aspects of urology have been tackled in a comprehensive way, yet easy to understand. In particular, the explanations to each question are extensive whilst to-the-point. So

much so, that this book could be used as a practical handbook for students and urologists alike..... It is my honour to recommend this book to the apt reader."

*Postgraduate*

*Orthopaedics Medipass*

This is the first revision book to be published specifically for candidates sitting the FRCS(Urol) examination, which tests the required standard of a recognised Urology specialist. It provides a selection of common clinical scenarios together with a guide to answering the FRCS(Urol) questions. Each chapter is written by Consultant Urological Surge

FRCS MCQS APPLIED  
BASIC SCIENCES  
Oxford University Press  
This unique collection

of multiple choice questions (MCQs) is specifically written to help surgical trainee candidates prepare for Part One of the FRCS general surgery exit examination, which features MCQs on general surgery. The book helps candidates gauge the types of questions likely to be asked and the extent of preparation required for this examination. The wide range of surgical topics covered, including general surgery and emergency surgery in addition to endocrine, vascular, upper GI, hepatobiliary, colorectal and transplant surgery, also makes it a useful revision text for MRCS examination candidates.

Essential Revision  
Notes FrCs Urol

Churchill Livingstone  
 This collection of standard MCQs in general pathology is a perfect study and revision tool for postgraduates studying for the MRCS and MRCPATH examinations, and for keener medical students. Multiple Choice Questions are a basic part of medical exams worldwide and this book gives candidates the chance to practice and perfect their skills in this crucial area.

**MCQs for the FRCS Examinations in Applied Basic Sciences** CRC Press

A comprehensive set of practice questions for trainees preparing for the FRCS Trauma & Orthopaedics exam. [MCQs and EMQs in Surgery](#) OUP Oxford  
 This text is a revision aid for candidates for

the MCQ papers of the FRCS (ORL-HNS) examination, and the DO-HNS. The style and format of the questions mirror the format of the exam questions, covering all the relevant topics.

*MCQs in Applied Basic Sciences for the Primary FRCS* CRC Press

Specifically designed to help candidates revise for the MRCS exam, this book features 350 Single Best Answer multiple choice questions, covering the whole syllabus.

Containing everything candidates need to pass the MRCS Part A SBA section of the exam, it focuses intensively on the application of basic sciences (applied surgical anatomy, physiology, and pathology) to the

management of surgical patients. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to Single Best Answer multiple choice questions are used, giving effective exam practice and

guidance through revision and exam technique. This includes clinical case questions, 'positively-worded' questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as 'factual recall' questions, prompting basic recall of facts.
