This report reviews the available information on the use, environmental fate, and toxicity of spent lead shot and lost lead fishing weights. The report begins with a summary of information on the production, import, and use of lead shot and fishing sinkers in Canada. It then discusses the fate of these products in the environment, including chemical transformation of metallic lead in the environment, lead concentrations in soils and biota, and factors affecting the environmental mobility of lead compounds. The next section assesses the toxicity of lead shot and sinkers to waterfowl and non-waterfowl species, effects of lead shot ingestion in cattle, and human health concerns about hunting with lead shot. The report ends with a discussion of options for managing the negative impacts of those products, including using alternatives to lead, restricting use of lead shot, and alternative fishing sinker products.

Stock Fitter's Bible was written for one purpose, to help clay target shooters improve their scores. As you read you will understand why the book has received so many rave reviews. Coaches and trainers teach specific gun mounts, stances and body postures (shooting forms). To shoot up to your full potential, you must use a correct form. To do that, your gun must have stock dimensions that allow someone of your individual size and shape to use the form. If your gun doesn't fit you, a correct form cannot be used - it's that simple. To help you shoot better, the book explains step by step, how your gun can be made to fit you. When it fits, you can expect smoother, more accurate swings, higher, more consistent scores and reduced felt recoil. It also explains how to see targets better, how to effectively visualize targets before calling for them, ways to reduce stress and to postpone fatigue. Almost anyone can improve their shooting. Stock Fitter's Bible explains how to do it.

Exploding onto the eschatological scene with a deafening roar, Endgame shatters the status quo with respect to endtime Bible prophecy, detonating centuries' worth of assumption and subjective "fact." By providing the Bible space to interpret itself, the key which unlocks the mysteries of Revelation is revealed to have been within the possession of mankind all along, hidden for millennia in "plain sight." Although Man has long preferred to lean upon his own understanding, the logic of mortals is not equal to the task of assembling the pieces of a Divinely-constructed image, a fact which accounts for the numerous conflicting views and failed predictions of establishment experts. The true account has been set down in God's own hand, scattered throughout His Word which the prophets were inspired to utter, and which holy men of old were moved to record.
