 Best known as the founder of the Bible College of Wales, Rees Howells was a man of little worldly fame, yet through Norman Grubb's best-selling biography, his life story is known to millions. Born in a Welsh mining village, he left school at twelve and worked in a tin mill and a coal mine. As he came to know the redeeming power of his Lord and Saviour he faced the implications of an entire surrender, learned to love the unlovely and found the key to the power of prayer. As a result he became a man of great Christian inspiration to others in both Britain and Southern Africa where he became the channel of a mighty revival.

Norman Grubb describes all this, but also the foundation of the Bible College of Wales at Swansea, perhaps the greatest monument of his work, and the intercessory prayer that became the hallmark of Rees Howells, impacting as it did on national policy and international affairs. Rees Howells' life was so great that the Church of Christ still feels the impact of his truths of the Spirit and the Scriptures in a unique and amazing way. Every chapter in this biography is full of drama and light. Rees Howells, Intercessor is an enthralling story, told with simplicity, humanity and humour, and it has proved an inspiration for nearly half a century. He said, ..". wait for the promise of the Father ... ye shall be baptized with the Holy Ghost not many days hence." Acts 1:4-5. (See also Acts 1:8-9) Luke records the last words of Christ as, "Behold I send the promise of my Father upon you; but tarry ye in the city of Jerusalem until ye be endued with power from on high." Luke 24:49. This message must have been of utmost importance, or Christ would never have reserved it until just before He ascended." Asa A. Allen was a controversial evangelist with a Pentecostal healing and deliverance ministry. He was associated with the "Voice of Healing" movement founded by Gordon Lindsay. Allen became one of the first to develop a national television ministry. His television programs frequently included excerpts from his "healing line" ministry. [Home Away from Home](#) Legare Street Press "The Last Times and the Great Consummation" is a detailed treatise on the numeric patterns in the last twelve verses of the Gospel according to Mark, which have been widely omitted from Scripture by numerous scholars, editors, and translators. Ivan Nikolayevitch Panin (12 December 1855 - 30 October 1942) was a Russian-born emigrant to the United States who became famous for his discover of various numeric patterns hidden in the Greek and Hebrew Bible, as well as for his extensive work based on his related research. This fascinating volume by the 'father of Bible numerics' will appeal to those with an interest in numerology and Christian Scripture. Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this volume now in an affordable, modern, high-quality edition complete with the original text and artwork.

**BOOK ONE: THE BOY AND HIS DEPRIVATION (1909-1932)** William Branham is one of the greatest healing evangelists in Church history. From the minute he was born, William Branham was set apart from the ordinary. Plagued by poverty and rejection, he became a nervous child. Unusual things kept happening to him, mystifying and spiritual things...but he did not start thinking about God until he was 14, when he nearly lost both legs in a shotgun accident. As he lay dying in a pool of blood, he saw a terrifying vision of hell - saw himself falling constantly deeper into that region of lost and drifting souls. He cried out to God for mercy and miraculously was given a second chance - a chance which later he almost failed to grasp. [Click Here To Purchase..](#)**BOOK TWO: THE YOUNG MAN AND HIS DESPERATION (1933-1946)** As a young pastor, William Branham struggled to understand his peculiar life. Why was he the only minister in town who saw visions? When God first called him into nation-wide evangelism in 1936, he refused, only to pay dearly for his mistake by losing his wife and daughter to tuberculosis. The visions continued. Ministers told him that these visions came from Satan. Desperation finally drove him to seek a supernatural being. The angel gave him a commission from God to take a gift of Divine healing to the peoples of the world. When William Branham questioned whether the people would believe an angel had really met him, the angel said he would be given two supernatural signs to prove his calling. Then they would have to believe. And believer they did!**BOOK THREE: THE MAN AND HIS COMMISSION (1946-1950)** Soon after the angel visited William Branham and told him he was ordained to take a gift of healing to the peoples of the world, the first sign appeared - a physical reaction in his hand that happened only when he touched the hand of someone suffering from a germ-caused disease. Within two months of his commission, William Branham's extraordinary gift had gained national attention. People by the thousands flocked to his meetings, where he preached salvation and Diving healing in the Name of Jesus Christ. Miracles abounded. The world had not seen anything like it since the days when Jesus walked through Galilee, casting out demons and healing all who were sick and afflicted. Even so, some people still questioned whether an angel had really met this humble man. Then the second sign appeared...and they had to believe!

This book brings together a cutting-edge selection of the most current applications of mindfulness-based cognitive therapy (MBCT), giving clinicians as well as researchers a concise guide to current and

future directions. Each chapter begins with an illustrative case study to give readers an example of how MBCT would be used in the clinical setting, followed by an overview of the condition, the theoretical rationale for using MBCT, modifications of MBCT for that disorder, evidence for MBCT use. Chapters also discuss practical considerations of MBCT, including patient selection, home practice, group size, format, and facilitator training. Written by some of the world's leading physicians using MBCT, *Mindfulness-Based Cognitive Therapy: Innovative Applications* is of great value to psychiatrists, psychologists, social workers, and therapists.

Climate changes, particularly warming trends, have been recorded around the globe. For many countries, these changes in climate have become evident through insect epidemics (e.g., Mountain Pine Beetle epidemic in Western Canada, bark beetle in secondary spruce forests in Central Europe), water shortages and intense forest fires in the Mediterranean countries (e.g., 2005 droughts in Spain), and unusual storm activities (e.g., the 2004 South-East Asia Tsunami). Climate changes are expected to impact vegetation as manifested by changes in vegetation extent, migration of species, tree species composition, growth rates, and mortality. The International Panel on Climate Change (IPCC) has included discussions on how forests may be impacted, and how they may be used to mitigate the impacts of changes in climate, to possibly slow the rate of change. This book provides current scientific information on the biological and economical impacts of climate changes in forest environments, as well as information on how forest management activities might mitigate these impacts, particularly through carbon sequestration. Case studies from a wide geographic range are presented. This information is beneficial to managers and researchers interested in climate change and impacts upon forest environments and economic activities. This volume, which forms part of Springer's book series *Managing Forest Ecosystems*, presents state-of-the-art research results, visions and theories, as well as specific methods for sustainable forest management in changing climatic conditions.

An estimated two-thirds of Caribbeans live outside their homeland. 'Home Away from Home' identifies the different forms of

Caribbean diasporan identity and argues that the faith Caribbean people brought with them into the diaspora plays a central role in their development. The study provides a theological interpretation of the diasporan experience, and outlines the principles of diasporan theology and the distinctiveness of its church. Focusing on the Caribbean diaspora in the US, and analysing aspects of the Caribbean British diaspora, the book forges a Black Atlantic theology. The volume also engages with wider discourse on the Black diaspora to offer an inclusive Caribbean diasporan ecclesiology that overcomes Black African-American/Euro-American binaries.

In spite of all the efforts made in fire prevention and suppression, every year about 45 000 forest fires occur in Europe, burning ca. 0.5 million hectares of forests and other rural lands. The management of these burned forests has been given much less attention than fire prevention or fire suppression issues, but the post-fire management of burned areas raises strong concerns (economic and social impacts, soil erosion and water quality, biodiversity loss, forest restoration). Although there are a few publications which address post-fire management, the focus of these has been either on general approaches to restoration or specific topics such as preventing post-fire soil erosion. This book is about the post-fire management of fire-prone forest types in southern Europe. It provides the first comprehensive overview of the topic, ranging from stand-level to landscape-level management, and from emergency actions to long-term restoration

approaches.

Samuel Rees Howells, A Life of Intercession: The Legacy of Prayer and Spiritual Warfare of an Intercessor by Richard A. Maton, Paul Backholer and Mathew Backholer Rees Howells, a powerful intercessor, taught his son Samuel the principles of intercession and commissioned him some weeks before his death, stating, "Whatever you do, stand and maintain these intercessions." For the next fifty-four years, Samuel Rees Howells exercised a powerful intercessory ministry as he focused prayer on gospel liberty, in order for the good news of the Gospel of Jesus Christ to be given to every creature. With the mantle of intercession weighing heavily upon him, Samuel spent decades participating with others in their own countries, in profound spiritual struggles that shook world events and shaped history for God's glory! Discover how Samuel was led by the Holy Spirit to exercise authority over the principalities and powers, and to 'pray through' until God's purposes were fulfilled in many lethal world conflicts. Learn how God still intervenes in world history, from the Korean War to the Cuban Missile Crisis, and from the Six-Day War to the fall of the Soviet Union! Beginning in the days of Rees Howells, this book continues this powerful story of intercession and traces its effectual legacy into the twenty-first century. Filled with principles of

intercession, faith and spiritual warfare, this book provides a fascinating insight into what is possible when the Holy Spirit finds an individual, who will stand in the gap and become a channel for His intercession. Ezekiel 22:30, Romans 8:26-27, Ephesians 6:12. Richard A. Maton worked under Samuel's ministry for forty-seven years and provides us with an eyewitness account of Samuel's life of intercession. Richard is married to Kristine who joined Rees Howells' Bible College in 1936 and prayed alongside him. Together

Richard and Kristine spent more than 120 years at the College!
