Goose Puppet Key Education Publishing What better way to hold children's attention during storytime than with puppets? Even in an age of technical wizardry, clever dialogue and home-made puppets are all it takes to entertain children. Author Dee Anderson has presented puppet skits for sixteen

years in libraries, schools, parks, day-care centers, a mall, and other community locations. Each of these forty-two scripts has been audience tested, some more than one hundred times. You'll find programming material for ages 18 months to 12 years. A former children's librarian herself, Anderson has created scripts that are accessible and practical for busy librarians and others who work with children.

But as they watch, the angel swoops, flutters, and tumbles to the ground. Is there anything the mice can do to help the lost and lonely angel before it's too late?

Chicago : American Library Association  
Puppetry is an exciting, flexible, malleable art

form that can engage the creative forces of children or adults. Puppets can not only tell a story, they can be used to enhance the curriculum, present an idea or a concept in a compelling way, or teach any number of necessary skills. Children and adults presenting a puppet play are given a sense of their own inventive power. This reference work offers an A to Z view of working with puppets. It covers everything from the basic strategies of advertising and marketing puppet productions, to

assembling the puppets out of household materials such as paper bags, cereal boxes, or gloves, to the more elaborate sculpting of armatures. Stages, curtains and props are also discussed along with the history of puppetry. Numerous illustrations give a visual of many of the finished products. This work concludes with an annotated bibliography and index.

*Throw Your Voice* is a story of loss and recovery.

It relates how children placed in a temporary care institution make sense of their situations. Moving between a Kazakhstan government children's home, Hope House, and the Almaty State Puppet Theater, Meghanne Barker shows how children, and puppets, as proxies, bring to life ideologies of childhood and visions of a rosy future. Sites and stories run in parallel. Framed by the narrative of Anton Chekhov's "Kashtanka," about a lost dog taken in by a kind

stranger, the author follows the story's staging at the puppet theater. At Hope House, children find themselves on a path similar to *Kashtanka*, dislodged from their first homes to reside in a second. The heart of this story is about living in displacement and about the fragile intimacies achieved amidst conditions of missing. Whether due to war, migration, or pandemic, people get separated from those closest to them. *Throw Your Voice* examines how strangers

become familiar, and how objects mediate precarious ties. She shows how people use fantasy to mitigate loss.

H.R. Pufnstuf, Lidsville, Sigmund and the Sea Monsters, Land of the Lost: For a generation of children growing up in the late sixties and early seventies, these were some of the most memorable shows on Saturday morning television. At a time when television cartoons had lost some of their luster,

two puppeteers named Sid and Marty Krofft put together a series of shows that captivated children. Using colorful sets and mysterious lands full of characters that had boundless energy, the Kroffts created a new form of children's television, rooted in the medium's earliest shows but nevertheless original in its concept. This work first provides a history of the Kroffts' pretelevision career, then offers discussions of their 11 Saturday morning shows. Complete cast and credit

information is enhanced by interviews with many of the actors and actresses, behind-the-scenes information, print reviews of the series, and plot listings of the individual episodes. The H.R. Pufnstuf feature film, the brothers' other television work, and their short-lived indoor theme park are also detailed. [Mother Goose Iron-On Transfer Patterns](#)
