MOLLY BLANCHARD

Through the Lens Penguin

Spearheaded by The Duchess of Cambridge, Patron of the National Portrait Gallery, *Hold Still* was an ambitious community project to create a unique collective portrait of the UK during lockdown. People of all ages were invited to submit a photographic portrait, taken in a six-week period during May and June 2020, focussed on three core themes - Helpers and Heroes, Your New Normal and Acts of Kindness. From these, a panel of judges selected 100 portraits, assessing the images on the emotions and experiences they conveyed. Featured here in this publication, the final 100 images present a unique and highly personal record of this extraordinary period in our history. From virtual birthday parties, handmade rainbows and community clapping to brave NHS staff, resilient keyworkers and people dealing with illness, isolation and loss. The images convey humour and grief, creativity and kindness, tragedy and hope - expressing and exploring both our shared and individual experiences. Presenting a true portrait of our nation in 2020, this publication includes a foreword by The Duchess of Cambridge, each image is accompanied by an extended caption and further works show the nationwide outdoor exhibition of *Hold Still*.

'Wide-ranging and eclectic' TLS 'Seductively curious' Observer 'A visual and intellectual journey' Herald See/Saw is an illuminating history of how photographs frame and change our perspectives. Starting from single images by the world's most important photographers - from Eugène Atget to Alex Webb - Geoff Dyer shows us how to read a photograph, as he takes us through a series of close readings that are by turns moving, funny, prescient and surprising.

After beginning his career as a photojournalist for a daily newspaper in southern California, Dan Winters moved to New York to begin a celebrated career that has since led to more than one hundred awards, including the Alfred Eisenstaedt Award for

Magazine Photography. An immensely respected portrait photographer, Dan is well known for an impeccable use of light, color, and depth in his evocative images. In *Road to Seeing*, Dan shares his journey to becoming a photographer, as well as key moments in his career that have influenced and informed the decisions he has made and the path he has taken. Though this book appeals to the broader photography audience, it speaks primarily to the student of photography—whether enrolled in school or not—and addresses such topics as creating a visual language; the history of photography; the portfolio; street photography; personal projects; his portraiture work; and the need for key characteristics such as perseverance, awareness, curiosity, and reverence. By relaying both personal experiences and a kind of philosophy on photography, *Road to Seeing* tells the reader how one photographer carved a path for himself, and in so doing, helps equip the reader to forge his own.

Is photography art, documentary or both? Should images simply reveal the world we live in, or provoke us to think, act and react? *1001 Photographs You Must See Before You Die* is a visually arresting and invaluable guide to the history and practice of photography. Sweeping through the arts, fashion, society, war, peace, science and nature, the images in this enticing book are as eye-catching as the commentary is engaging. Some you have seen, others will be unfamiliar, but what all the photographs have in common is their ability to move you, shock you and open up the notion of what it is to be human. Organized chronologically by the date that each image was made, and featuring a reproduction of each photograph, the selection provides some fascinating and unexpected juxtapositions. Insightful text uncovers the creative process behind each image, revealing its visual, aesthetic and historic significance. Why was the photograph taken? Was it set up? What was the intention? How did the world react? From Roger Fenton to William Eggleston, from Henry Fox Talbot to Nick

Knight, and from Henri Cartier-Bresson to Dorothea Lange, all the photographers featured in this book transgressed the boundaries of the camera with a skill and spirit that helped to develop their field into a highly evocative art form. Packed with information that will entertain, inform, educate and surprise you, *1001 Photographs You Must See Before You Die* is an essential reference for all lovers of photography.

Understand your camera's capabilities. Master the skills of exposure, composition and focus. Take amazing photos; no post-processing, no Photoshop, just your own vision. With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. *In Camera* is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

Here is a book that indelibly captures the human pageant through the remarkable art of photojournalism. After all, we live in a visual age, when history is both made and experienced through photographs, from the flag raising at Iwo Jima to the thrill of the

first footstep on the moon. Now TIME has gathered the most significant and influential photos in history in a magnificent volume that celebrates the art and craft of photojournalism: Great Images. Here are scientific breakthroughs, political upheavals and social revolutions, from the first photographs of an embryo in a human womb to the indelible images of America's Civil Rights movement. Here are sailors kissing nurses, a single man defying a Chinese tank, firefighters raising the American flag over the ruins of the World Trade Center. Based on a highly successful 2000 book, this new edition has been completely updated to add the most significant pictures of the last decade, from hanging chads and the wars in Afghanistan and Iraq to Hurricane Katrina and the 2010 earthquake in Haiti.

100 Ways to Take Better Landscape Photographs Looking at Photographs Originally published in 1973, this marvelous collection of photographs with accompanying texts by the revered late Museum of Modern Art photography curator John Szarkowski has long been recognized as a classic. Reissued in 1999-with new digital duotones-this volume is now available to a new generation of readers. "This is a picture book, and its first purpose is to provide the material for simple delectation," says Szarkowski in his introduction to this first survey of The Museum of Modern Art's photography collection. A visually splendid album, the book is both a treasury of remarkable photographs and a lively introduction to the aesthetics and the historical development of photography. Since 1930, when the Museum accessioned its first photograph, it has assembled an extraordinary and wide-ranging collection of pictures for preservation, study and exhibition. Among the outstanding figures represented here are Hill and Adamson, Cameron, O'Sullivan, Atget, Stieglitz, Steichen, Strand, Weston, Kertesz, Evans, Cartier-Bresson, Lange, Brassai, Ansel Adams, Shomei Tomatsu, Frank, Arbus and Friedlander. Some of these photographs are classics, familiar and well-loved favorites, many are surprising, little-known works by the masters of the art.

Review The images - rich in color and visual rhythm - span 30 years and several continents. Of course, Haiti and the Mexican border are well represented, locales that opened up a new way to see. He has been able to render Haiti - a place often depicted for its chaos - with a precise eye, finding personal moments that are as still as they are complex. He can use shadows as skillfully as a be-bop musician to set the tempo. The people in his frames can look like dwarfs being stomped on by giant, disembodied feet. He can make an American street seem far more foreboding than any Third World slum. (David Gonzalez The New York Times 2011-12-18) A 30-year retrospective of a great, and often overlooked, American pioneer of colour photography who pays scant regard to genre boundaries, merging art photography, photojournalism and often complex street photographs. (Sean O'Hagan The Guardian 2011-12-13) In far-flung corners of the globe, Webb captures glimpses of beauty in impoverished lives and stoicism in the face of strife. (Jack Crager American Photo 2011-12-01).

First published in 1992 to wide critical acclaim, *Pictures From Home* is Larry Sultan's pendant to his parents. Sultan returned home to Southern California periodically in the 1980s and the decade-long sequence moves between registers, combining contemporary photographs with film stills from home movies, fragments of conversation, Sultan's own writings and other memorabilia. The result is a narrative collage in which the boundary between the documentary and the staged becomes increasingly ambiguous. Simultaneously the distance usually maintained between the photographer and his subjects also slips in an exchange of dialogue and emotion that is unique to this work. Significantly increasing the page count of the original book, this MACK design of *Pictures From Home* clarifies the multiplicity of voices - both textual and pictorial - in order to afford a fresh perspective of this seminal body of work -- Provided by the publisher.

In this groundbreaking work, Ariella Azoulay thoroughly revises our understanding of the ethical status of photography. It must, she insists, be understood in its inseparability from the many catastrophes of recent history. She argues that photography is a particular set of relations between individuals and the powers that govern them and, at the same time, a form of relations among equals that constrains that power. Anyone, even a stateless person, who addresses others through photographs or occupies the position of a photograph's addressee, is or can become a member of the citizenry of photography. The crucial arguments of the book concern two groups that have been rendered invisible by their state of exception: the Palestinian noncitizens of Israel and women in Western societies. Azoulay's leading question is: Under what legal, political, or cultural conditions does it become possible to see and show disaster that befalls those with flawed citizenship in a state of exception? *The Civil Contract of Photography* is an essential work for anyone seeking to understand the disasters of recent history and the consequences of how they and their victims are represented.

Learn to take great photos with your iPhone—the camera you always have with you!

Imagine if someone took the same photographic techniques, principles, and tools used by high-end and professional photographers, but applied them to shooting with an iPhone. Imagine the type of images you'd be able to create using those same ideas. Well, finally, somebody has.

The world's #1 best-selling photography techniques author is about to break all the rules as he shows you how to apply the same techniques today's top pro photographers use to make stunning images. You're going to learn exactly how to use these techniques to create images that people will just not believe you could actually take with a phone (but with the quality of the iPhone's camera, you absolutely can!).

Scott leaves all the techno-speak behind and, instead, treats the

whole book as if it were just you and he out on a shoot with your iPhones, using his trademark casual, plain-English writing style to help you unlock the power of your iPhone to make the type of pictures you never thought could be done with a phone. You'll learn:

- Which tools to use to make pro-quality portraits in any lighting situation.
- How to create stunning landscape shots that people will swear you took with an expensive DSLR or mirrorless camera.
- Proven posing techniques that flatter your subject and make anyone you photograph look their very best in every shot.
- How to organize and edit your photos like a pro!
- The pros' top tips for making amazing shots of everything from flowers to product shots, from food photography to travel shots, and everything in between.

Each page covers a single concept, a single tool, or a trick to take your iPhone photography from snapshots to shots that will make your friends and family say, "Wait...you took this?!"
