" This book is both spiritual and savage.

This book makes you believe in
immortality." - Kalki Koechlin December
1970, midnight. In a deserted Munich
suburb, at a dismal bus stop, a young
rebel shivers under a driving sleet. His
long hair gathers icicles while he ponders:
should he burn his bridges and flee
impending prison time? As the bus
appears out of the swirling mist and stops,
he shakes off any lingering self-doubt and
steps in. Little does he know he is
embarking on an adventure far more
demanding than his free spirit can
imagine. It is the start of a journey that
will take him half-way round the globe to

distant India and the most remote reaches
of the Himalayas. Embracing the life of a
spiritual mendicant, he is forced into
choices he never knew himself capable of,
as he plunges headlong into a Quest that
began centuries ago, and may find its
conclusion in a far-off, uncharted future.
Only when he confronts the spectre of
violent death, will he understand that all
his life experiences must be integrated
into one rich, all-encompassing Sweep of
Existence that stretches infinitely across
the ages, in an unstoppable ascent of
perpetual evolution. Experience the
spiritual journey of Lionel across space

and time in this literary fiction by Joel Koechlin.

Gujarat Files is the account of an eight-month long undercover investigation by journalist Rana Ayyub into the Gujarat riots, fake encounters and the murder of state Home Minister Haren Pandya that brings to the fore startling revelations. Posing as Maithili Tyagi, a filmmaker from the American Film Institute Conservatory, Rana met bureaucrats and top cops in Gujarat who held pivotal positions in the state between 2001 and 2010. The transcripts of the sting operation reveal the complicity of the state and its officials in crimes against humanity. With sensational disclosures about cases that run parallel to Narendra Modi and Amit Shah's ascent to power and their journey from Gujarat to New Delhi, the book tells you the hushed truth of the state in the words of those who developed amnesia while speaking before commissions of

enquiry, but held nothing back in the secretly taped videos which form the basis of this remarkable read.

Secret Wars is the first book to systematically analyze the ways powerful states covertly participate in foreign wars, showing a recurring pattern of such behavior stretching from World War I to U.S.-occupied Iraq. Investigating what governments keep secret during wars and why, Austin Carson argues that leaders maintain the secrecy of state involvement as a response to the persistent concern of limiting war. Keeping interventions “backstage” helps control escalation dynamics, insulating leaders from domestic pressures while communicating their interest in keeping a war contained. Carson shows that covert interventions can help control escalation, but they are almost always detected by other major powers. However, the shared value of limiting war can lead adversaries to keep secret the interventions they detect, as when American leaders concealed clashes with Soviet pilots during the Korean War. Escalation concerns can also cause leaders to ignore covert interventions that

have become an open secret. From Nazi Germany’s role in the Spanish Civil War to American covert operations during the Vietnam War, Carson presents new insights about some of the most influential conflicts of the twentieth century. Parting the curtain on the secret side of modern war, *Secret Wars* provides important lessons about how rival state powers collude and compete, and the ways in which they avoid outright military confrontations.

This is the first book to tackle the diverse styles and multiple histories of popular musics in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond

the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks.

Sex and the Single Girl Harper Collins 'We need to create a home to return to. And when I say home, I'm not talking about a physical place or somewhere where pants are optional. I'm talking about a set of beliefs after a day full of, well, anything. We need to dig a foundation so deep that it will exist and thrive even if our surface-level efforts fail.' Ever wondered

what the point of all those school maths lessons about triangles was? Youtuber and comedian Lilly Singh has finally discovered the answer: triangles are the perfect model for building your self-esteem and getting to know your own values. Triangles have a strong base, they're hard to knock-over and always retain their own shape, even when they grow. With her incomparable sense of humour and fun, Lilly explains how she has put the ethos of the triangle to work in her own life, and shows how you can do the same. Complete with playful illustrations and inspiring ideas, this book is like a best friend cheering you on as you find your purpose and get to know yourself.

"The Covid-19 pandemic disrupted the education of an estimated 90 percent of the world's school-aged children. [This report] is based on over 470 interviews with students, parents, and teachers in 60 countries between April 2020 and April 2021. It documents how Covid-related school closures did not affect all children

equally, as governments failed to provide all children with the opportunity, tools, or access needed to keep learning during the pandemic. Students from groups already facing discrimination and exclusion from education even before the pandemic were disproportionately adversely affected. Governments' long-term failures to remedy discrimination and inequalities in their education systems, and often to ensure basic government services, such as affordable, reliable electricity in homes, or facilitate affordable internet access, meant schools entered the pandemic ill-prepared to deliver remote education to all students equally. Children from low-income families were more likely to be excluded from online learning because they did not have reliable electricity or sufficient access to the internet or devices. Historically under-resourced schools particularly struggled to reach their students."--Page 4 of cover.

The Jungle Book (1894) is a collection of stories by the English author Rudyard Kipling. Most of the characters are animals such as Shere Khan the tiger and Baloo the bear, though a principal character is the boy or "man-cub" Mowgli, who is raised in the jungle by wolves. The stories are set in a forest in India; one place mentioned repeatedly is "Seonee" (Seoni), in the central state of Madhya Pradesh.

Hindi cinema was trapped in formulaic cliches for decades: lost-and-found themes, sacrificing mothers, brothers on opposite sides of the law, villains lording over their dens, colourful molls, six songs, the use of rape as a plot pivot, and cops who always arrived too late. It hit an all-time low in the 1980s. Then, in 1991, came liberalization, and a wave of openness and aspiration swept across urban India. Dilwale Dulhania Le Jayenge

was released in 1995 - and Hindi cinema became Bollywood. A new crop of film-makers began to challenge and break away from established rules. Over the next twenty years, a number of Hindi films consistently pushed the envelope in terms of content and technique to create a new kind of cinema. Among other innovations, film-makers came up with ways of crowd funding a film (Ankhon Dekhi), did away with songs if the narrative did not need them (Gangaajal), addressed different sexual preferences (My Brother ... Nikhil) and people with special needs (Black) like no one had ever done before. As film critic with the Indian Express, Shubhra Gupta has stayed the course these twenty years and more and experienced the transition first-hand. In 50 Films That Changed Bollywood, 1995-2015, she looks at the modern classics that have redefined Hindi cinema - from DDLJ and Rangeela to Satya and Dev D to Queen and Bajrangi Bhaijaan. Gupta offers a fascinating glimpse into how these films spoke to their viewers and how the viewers reacted to them - and, ultimately, how they changed us and how we changed them.

Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member,

policymaker, or journalist seeking to dive into the evidence and policies on girls' education.
