Qu'est-ce qui peut inciter sept générations de Blanchet à choisir un métier triste à mourir aux yeux du commun des mortels? Quelles sont leurs motivations fondamentales? La morosité ou la vitalité? L'appât du gain ou un souci insatiable de servir le prochain? Le respect de la tradition ou le goût du risque? La routine ou le désir de variété? La facilité ou les défis? Ou encore, au-delà des perceptions, est-ce la passion pour une profession vieille comme le monde et indispensable aux êtres humains?

I don't understand it; I don't in the least understand why men can't live without wars. How is it that we women don't want anything of the kind, don't need it? Tolstoy's epic masterpiece intertwines the lives of private and public individuals during the time of the Napoleonic wars and the French invasion of Russia. The fortunes of the Rostovs and the Bolkonskys, of Pierre, Natasha, and Andrei,

are intimately connected with the national history that is played out in parallel with their lives. Balls and soirées alternate with councils of war and the machinations of statesmen and generals, scenes of violent battles with everyday human passions in a work whose extraordinary imaginative power has never been surpassed. The prodigious cast of characters, both great and small, seem to act and move as if connected by threads of destiny as the novel relentlessly questions ideas of free will, fate, and providence. Yet Tolstoy's portrayal of marital relations and scenes of domesticity is as truthful and poignant as the grand themes that underlie them. In this definitive and highly acclaimed Maude translation, Tolstoy's genius and the power of his prose are made newly available to the contemporary reader. In addition this edition includes a new introduction by Amy Mandelker, revised and expanded notes, lists of fictional and historical characters, a chronology of historical events, five maps, and Tolstoy's essay 'Some Words about War and Peace'.

British and Foreign State Papers BRILL

This collection of papers – some of which written by the world's leading specialists in the area of ancient medicine – aims at promoting an integrated approach to medical theory and practice in classical antiquity. Questions of health and disease are considered in their relation to the social, intellectual, moral and religious dimensions of the ancient world. The papers focus on the socio-

cultural setting of the experience of pain and illness, the different reactions they provoked and the importance that was attached to this experience in literature, religion and philosophy. The first volume offers articles (from an archaeological, historical and philological point of view) dealing with social, institutional and geographical aspects of medical practice. It also has a special section on medical views on women, children and sexuality, and on female medical activity. The second volume focuses on the ways in which religious and magical beliefs influenced the experience of, and the attitude towards, illness and medical practice. It also deals with the relations of medicine with philosophy, and the other sciences and with the variety of linguistic and textual forms in which medical knowledge was expressed and communicated. Contributors to the first volume are Lawrence J. Bliquez, Simon Byl, Armelle Debru, Nancy Demand, Danielle Gourevitch, Ann Ellis Hanson, H.F.J. Horstmanshoff, Ralph Jackson, Eva C. Keuls, Jukka Korpela, Ernst Künzl, Gabriele Marasco, Attilio Mastrocinque, Karin Nijhuis, Vivian Nutton, H.W. Pleket, Heikki Solin, Peter Van Minnen, and Juliane C. Wilmanns.

Jules Verne, a 19th-century French author, is famed for such revolutionary science-fiction novels as "Around the World in Eighty Days" and "Twenty Thousand Leagues Under the Sea". He has sometimes been called the "Father of Science Fiction", a title that has also been given to H. G. Wells and Hugo Gernsback. In all, Verne authored more than 60 books (most notably the 54 novels comprising the "Voyages Extraordinaires"), as well as dozens of plays, short stories and librettos. He conjured hundreds of memorable characters and imagined countless innovations years before their time, including the submarine, space travel, terrestrial flight and deep-sea exploration. Verne is generally considered a major literary author in France and most of Europe, where he has had a wide influence on the literary avant-garde and on surrealism. Verne has been the second most-translated author in the world since 1979, ranking between Agatha Christie and William Shakespeare. Some of the works appear only in their original French texts, due to copyright restrictions. L'enfant au Coeur de Bambou Рипол Классик

This volume examines a variety of philosophical approaches that seek to formulate practical guidelines or norms for human actions and behavior in different areas of society, including politics, cultural traditions, the environment, business management, architecture, and medicine. Written by a team of international authors, this volume features thirteen surveys. It begins with an exploration of ethics in politics and cultural traditions. From genocide to the unequal distribution of wealth, it examines many of the harms that currently affect societies throughout the world and considers a way that those in politics can follow to provide better care for all their populations. Next, the book looks at the relation between ethics and cultural traditions. It features a paper that examines the tension that often exists between the past and the present, with a special focus on the history of India. This volume also considers the idea of a universal system of ethics, presents a practical approach to value-based management in private and public organizations, and examines ethics in medicine. In addition, this volume includes coverage of a new type of ethics called Eco-ethica, proposed by the Japanese philosopher Tomonobu Imamichi, which seeks to answer the question of how men and women can "live better" or "live together with each other" in a systematized, technological age.

Aufstieg und Niedergang der römischen Welt: Principat. v FeniXX

William F. Edmiston revises current theories of what narratologists call "&focalization&" and applies his revised theory to four eighteenth-century French memoir-novels. Hindsight and Insight contributes to our knowledge of the history and evolution of the novel by demonstrating that France's earliest novelists were already engaged in the kinds of narrative experimentation that are usually associated with modern writers. It presents an analysis of the narrative point of view in both its theoretical aspects and its practical applications. Edmiston exposes the inadequacies of current concepts of focalization and proposes a revised concept that is applicable to personal narration, one that can accommodate all the focal possibilities available to the first-person narrator. He applies this concept to four French memior-novels: Les Egarements du coeur et de l'esprit by Marivaux, Manon Lescaut by Pr&évoist, and La Religieuse by Diderot.Each of these well-known novels offers a different case study and raises specific theoretical questions of selective focalization, forms of reported speech, problems of temporal ambiguity, manipulation of the reader, narratorial reliability, and cognitive privilege. Edmiston's study proposes a reading of the novels that resolves certain problems of interpretation raised by other recent studies.
